THE SOLDIER LION

WHEN TARZAN NEARED HIS SECRET HEADQUARTERS, A DEEP ROAR SOUNDED NEARBY. "LION!" SHOUTED HIS COMPANIONS, AND FLED.

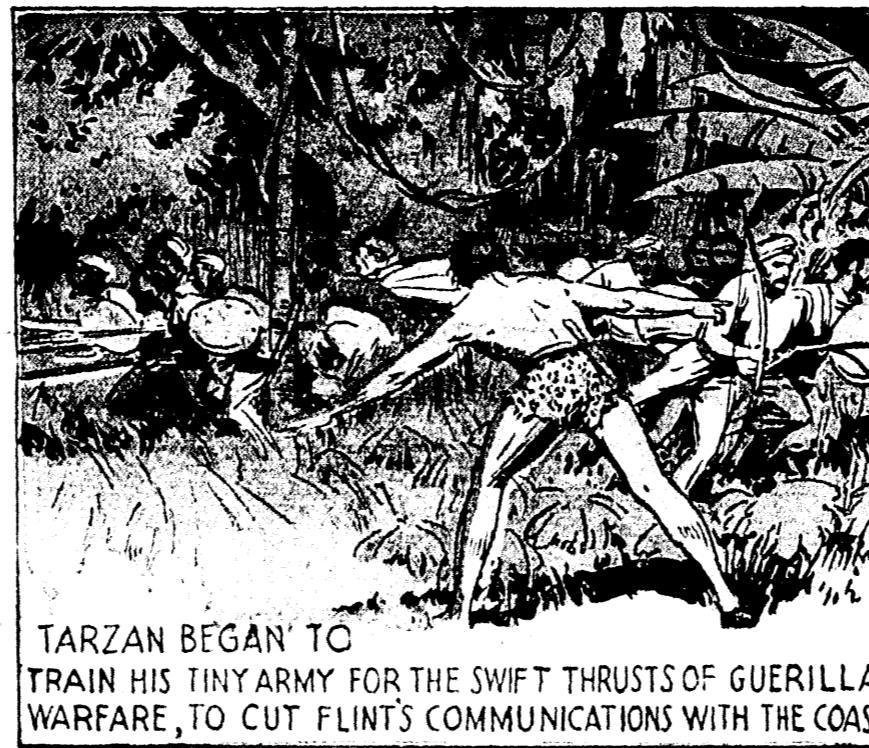

BUT TARZAN SMILED AS THE GREAT BEAST BURST FROM THE BRUSH, REARED UP, AND LICKED HIM. IT WAS LETHOR, HIS FRIEND.

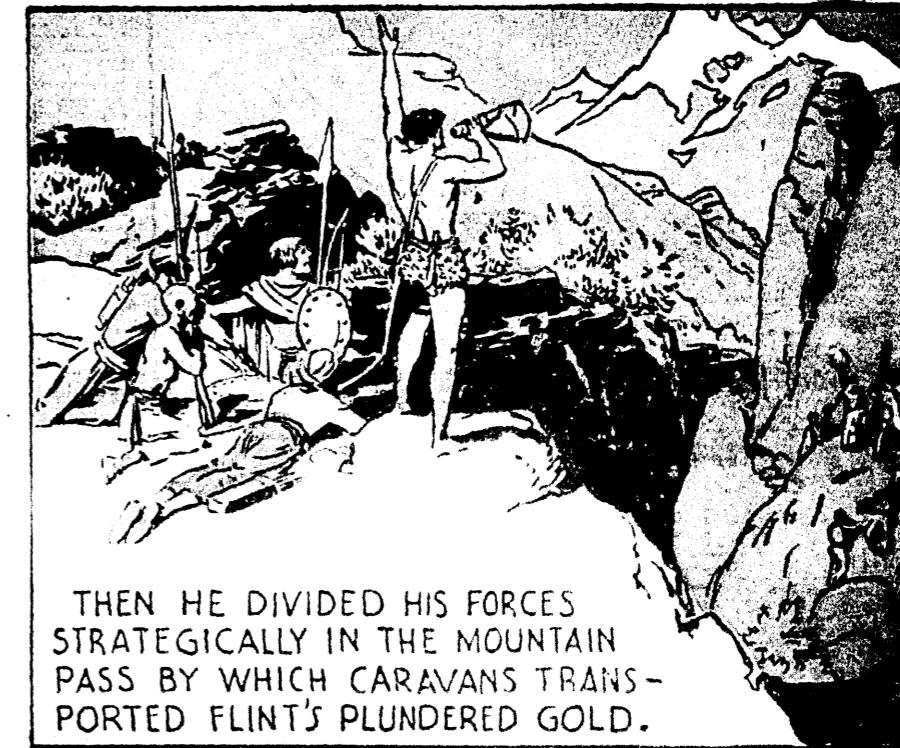

SOON, IN HIS CAMP, HE FOUND THE FORCES OF FREEDOM SWELLED BY MANY REFUGEES FROM FLINT'S REIGN OF TERROR.

AND THERE THE FUGITIVE PRINCESS NAKONIA SHYLY GREETED THE JUNGLE LORD, MODESTLY HIDING HER GROWING LOVE.

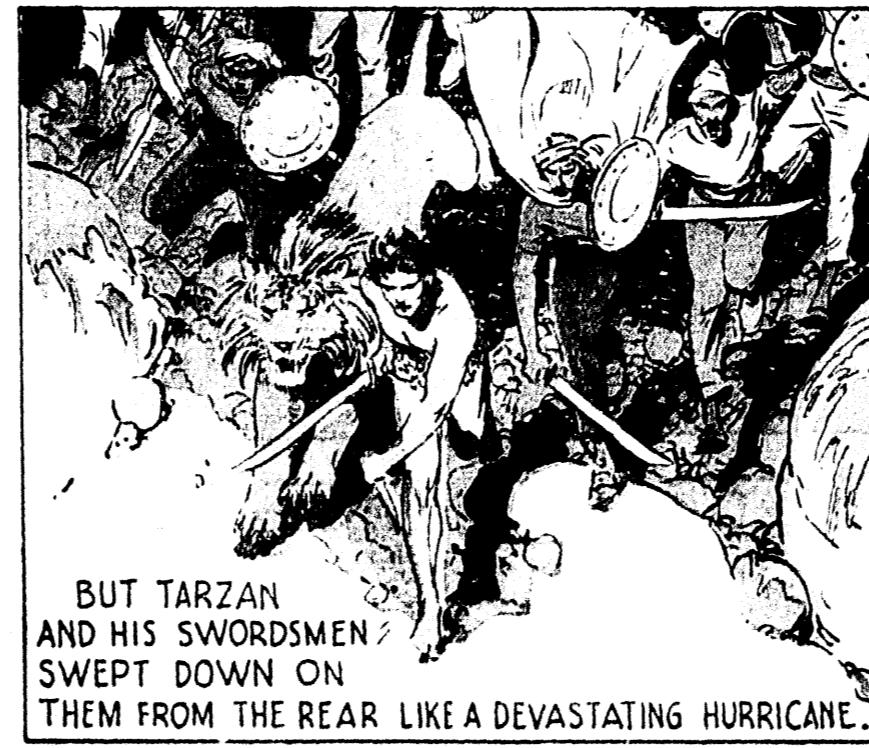

TARZAN BEGAN TO TRAIN HIS TINY ARMY FOR THE SWIFT THRUSTS OF GUERRILLA WARFARE, TO CUT FLINT'S COMMUNICATIONS WITH THE COAST.

THEN HE DIVIDED HIS FORCES STRATEGICALLY IN THE MOUNTAIN PASS BY WHICH CARAVANS TRANSPORTED FLINT'S PLUNDERED GOLD.

WHEN A CONVOY APPEARED, ARROWS POURED FROM BEHIND BOULDERS. THE GUARD CHARGED THE HIDDEN FOE.

BUT TARZAN AND HIS SWORDSMEN SWEPT DOWN ON THEM FROM THE REAR LIKE A DEVASTATING HURRICANE.

LETHOR THE LION, TRAINED TO BATTLE BY HIS MASTER, WAS A POTENT SOLDIER, FIGHTING FURIOUSLY AND TERRIFYING THE FOE.

AND ONCE HIS SPIRITED TALONS SAVED TARZAN FROM A FATAL ATTACK.

FINALLY, OF ALL THE CARAVAN, ONLY ONE MAN WAS LEFT. HE WAS SPARED-- TO CARRY THE NEWS OF DEFEAT TO FLINT.

NEXT WEEK: FLINT'S SURPRISE

BUT THE TYRANT WAS UNDISMAYED, FOR NOW HE HIT UPON A TRICK TO OUTWIT TARZAN!

## WINSTON CHURCHILL THROWS HIS POWER BEHIND KING

### TODAY

Registered U. S. Patent Office  
Nero, In London  
The King May Say No  
The President Comes Home  
War As Soon As

By ARTHUR BRISBANE  
(Copyright, 1936, by King Features Syndicate, Inc. International Copyright and all other rights reserved.)

MARLOWE'S "face that launched a thousand ships and burned the topless towers of Ilium," has not disappeared from the earth. The face of a charming young Baltimore lady has power to upset the British empire, causing the cabinet to say, to the king-emperor, "choose between your throne and her."

NERO, fiddling while Rome burned, might be called a serious statesman compared with the British cabinet, with the danger of world war blazing around it, threatening to upset the British empire from within, over the silly issue of the king's right to marry a respectable and desirable young woman.

THE LATEST news reports the king ready to defy Stanley Baldwin, the prime minister, and the virtuous British middle-classes that would not object and have not objected in the past, to half a dozen or more royal mistresses, their illegitimate children transformed into dukes, by royal order.

ONLY YESTERDAY England's population and press were praising the king as a great business builder for his people. England's present middle class ingratitude reminds you of the treatment accorded to Lloyd George after his courage, resourcefulness and energy, combined with the fighting spirit of the old Frenchman Clemenceau, had saved the British and their allies from defeat.

THE SYMPATHIES of this country are with the king, regardless of the fact that the lady in the case happens to be of American birth.

Europe and the world in general are in a dangerous condition. The British empire might be broken up, from the air, in a dozen places. Somebody ought to read to Prime Minister Baldwin the saying about "changing horses while crossing a stream."

BUT, THOSE TENDER words about "all for love and the world (empire) well lost," may not interest young King Edward, who possesses will power, and has been brought up in an atmosphere not calculated to develop submissive humility. To abdicate would be to "quit," and the king has done nothing that would justify his being made a "quitter."

A job is what you make it; the king may decide to prove that a British monarch is not necessarily a figure-head. If the cabinet resigns then will be a general election, and the king might win it, with the help of the radio; Baldwin could hardly keep him "off the air." There is hypocrisy in England, but if the king should say to the people, "I have given my word, do you wish me to break it?" the answer should be no.

YOU'VE HEARD, perhaps, that the value of American home-made securities has risen within a year, by \$15,000,000,000. That value went on increasing yesterday; stocks went up. In England, because a pleasant young man plans to marry a thoroughly estimable young woman, British stocks fell down. Men are little; little things influence them more than big things.

IN THIS PROUD Democratic republic, Mrs. "Wally" Simpson, has driven the president of the United States away from many front pages, but you will want to know that he is on his way home, from Buenos Aires, after stopping to congratulate the president of Uruguay on great advances in behalf of the well-being of your citizens."

In his brief address the president

### LECHE SAYS TAX NOT ENOUGH FOR UNEMPLOYABLES

Two-Cent Gasoline Levy Insufficient In Some Parishes

INDICATED INCOME FROM TOKENS BELOW FORECAST  
Governor Silent On Possible Session Of Legislature On Problem

BATON ROUGE La., Dec. 5.—(P)—Governor Richard W. Leche is looking into the problem of what can be done to help unemployables in several parishes where the two-cent gasoline tax is insufficient for the purpose.

He asked the executive committee of the Police Jury association, after a conference on the subject, to obtain more data regarding the situation in the parishes unable to care for their unemployables.

"We will see what we can do then," he said, adding that another conference would be held when he obtained the information he sought.

The federal and state social security programs do not provide for aid to unemployables between the ages of 16 and 65, and since the "luxury" sales tax finances the state program, it has no direct bearing regarding the unemployable situation, though Governor Leche has been quoted as saying some of its revenue might be used for that objective should the yield prove sufficient.

The first month's yield of the levy on sales has indicated mathematically that the tax will produce about \$3-

### METHODISTS TO GO TO BOGALUSA

Appointments For Ensuing Year Will Be Broadcast By Radio Today

MINDEN, La., Dec. 5.—(P)—Bogalusa was selected for the 1937 session of the Louisiana Methodist conference at a Saturday's session of the 91st annual meeting in session here. The appointments for ministers for the ensuing year will be ready Sunday afternoon at 2:30 p. m. o'clock by Bishop Hoyt M. Dobbs. An invocation will be the fact that the reading of the appointments will be broadcast over radio station KWKH at Shreveport.

The dates for the 1937 conference will be decided upon later by the conference cabinet composed of the bishop and presiding elders.

Devotional was led by Rev. W. C. Scott of Monroe.

The budget committee reported that expenditures for the coming year had been estimated at \$78,500.

Report No. 4, of the board of missions was read by Rev. Guy Hicks of Ruston.

Rev. George Smelling read a report from the board of missions giving the apportionments to the several districts of the conference.

Rev. Leron W. Sloan, of the Louisiana Anti-Saloon league, was introduced and spoke briefly on the outlook for the work of temperance in the state, asking that five members of the conference be named to serve on the board of directors for the new year. Those elected by the conference were Bishop Hoyt Dobbs, Rev. W. L. Doss, Jr. of Lake Charles; Rev. W. H. Wallace, of New Orleans;

### FACE THAT'S MAKING HISTORY

Like Helen of Troy, whose beauty instigated a tragic war, the attractiveness of Mrs. Wallis Simpson is making history, with King Edward VIII and his cabinet at odds over his intention to marry the comely American commoner. This latest portrait, just received in America from London, reveals the serene patrician beauty of Mrs. Simpson and the calmness with which she takes the future raging around her pretty head.

## LUTHERAN CHURCH TO BE DEDICATED

New Edifice In Sherrouse Addition Now Ready For Occupancy

Formal dedication of the new Trinity Lutheran church in the Sherrouse addition will take place on Sunday a week from today, it was announced by the pastor, Rev. Vernon C. Grossie. Exercises of a rather elaborate nature are planned and there will be in attendance Lutheran pastors of note from New Orleans and other cities who will participate on the program. The cornerstone of the building was laid some weeks ago and construction has gone ahead rapidly ever since. The building is of frame construction and combines a residence for the

pastor and the church equipment and facilities.

This section of the city has no church and it is expected that the Lutheran Sunday school as well as church services will attract many in the vicinity who now have no convenient house of worship.

The program for the dedicatory exercises will be made known in a few days time, the pastor stated.

### CHURCH OFFICERS NAMED

TULLOS, La., Dec. 5.—(Special)—The Tullos Methodist church has announced the following officers of the church and Sunday school for the coming year: Board of stewards, W. H. Rice, H. E. Mayes, R. L. Brewer, Glen Tyson and E. O. Brown; secretary-treasurer, S. O. Capps, board of education, Mr. W. H. Rice, Mrs. E. R. Brewer, Mrs. H. E. Mayes, Mrs. W. O. Weaver and Mrs. C. E. Coleman; Golden Cross director, Fern Benson; Sunday school superintendent, W. H. Rice; assistant superintendent, Mrs. W. O. Weaver; secretary-treasurer, S. O. Capps; Bible class teacher, W. H. Rice; young people, Mrs. H. E. Mayes; juniors, Mrs. C. E. Coleman; beginners, Mrs. L. B. Wallace; and primary, Miss Jewel Sanders.

## MARX WILL HEAD HARDWARE GROUP

Sixth District Of Louisiana Association Holds Meeting Saturday

New Orleans office of the collector of internal revenue, who explained the provisions of the act to the members.

Fifty hardware and implement dealers from points in north Louisiana were present at the session and refreshments were served after the meeting. The Monroe Hardware company acted as host to the members and invited them to use their facilities for future meetings of the association.

### CHRISTMAS TREE PLANNED

TULLOS, La., Dec. 5.—(Special)—The Tullos Methodist Missionary society met to make plans for a Christmas tree. Committees appointed were: Decorating, Mrs. E. O. Brown, Mrs. H. E. Mayes and Mrs. E. R. Brewer; finance, S. O. Capps, Mrs. J. M. Beebe and Mrs. W. H. Rice; program, Mrs. L. B. Wallace, Mrs. C. E. Coleman, Mrs. Clara Carron and Fern Benson. Mrs. H. E. Mayes taught the last chapter of the bible study, "Parents as Teachers of Christian Education." Those present were: Mrs. E. R. Brewer, Mrs. E. O. Brown, Mrs. J. M. Beebe, Fern Benson, Mrs. Clara Carron, Mrs. C. E. Coleman, Mrs. H. E. Mayes, Mrs. L. B. Wallace and Mrs. Inez Weems.

## ALL CITY BANDS TO HOLD CONCERT

Will Be Given As Benefit For Fund Of Good Fellows

All bands in the city of Monroe plan to unite to present a concert, the proceeds of which will be given to the Good Fellows Fund, it was announced Saturday.

W. C. Minnear, band director of the Ouachita Parish High school, is asking that all bands in the city meet for their first rehearsal at Neville High school, Monday at 7:30 p.m.

All band leaders are asked to lend their cooperation. The bands include those of the Ouachita Parish High school, the Neville High school band, the Grotto band, the LaRocco band,

and any other band organizations in Monroe or West Monroe.

The concert will be of unusual interest and one that will not only give much emphasis to the musical progress of Monroe but also will net much money, it is hoped, for the Good Fellows Fund.

### HONOR BISHOP DESMOND

FERRIDAY, La., Dec. 5.—(Special)—Headed by the Most Rev. Bishop Richard O. Gerow of the diocese of Natchez, Miss., and the Rev. Father Francis X. Kronmeyer, of Vidalia, pastor of Our Lady of Lourdes and St. Patrick's church of Ferriday, a delegation of Catholic laymen of Concordia parish motored to Alexandria and attended the 25th anniversary of the ordination as a priest of the Right Rev. Bishop Daniel F. Desmond of the diocese of Alexandria.

## BEAUTY SALON TO OPEN ON MONDAY

A beauty salon will be opened to the public Monday on the second floor of the Monroe hotel in room 119, just off the ladies' lounge, and will be in charge of Miss Edith Chambers, experienced beauty specialist.

A contest to select a name for the new beauty salon will be conducted

during the week with a prize of an oil of tulipwood permanent wave to be awarded the lucky entrant.

The new beauty shop will be fully equipped to give a general cosmetic service and will specialize in Shelton hairwaving. The shop is equipped with a Rapide gas drying system which will be used in permanent hair wave work.

Miss Chambers was formerly employed by the Monroe Beauty school and has engaged in beauty culture work for about three years.

At a price as low as this it's rare to find real Madeira hand-embroidered cotton pillow cases of such excellent quality. But that's typical of our Christmas Star values. We do the impossible. This gift comes in 6 rich-Richelieu patterns, distinctive, different.

—STREET FLOOR

\$1.95 to \$4.95

Here's a collection of men's novelty cotton pajamas in the Russian influence, embroidered dragons, notch collar and sash styles, coat and middy affairs. In a wide variety of novel and conservative patterns—in all sizes, all equally splendid values.

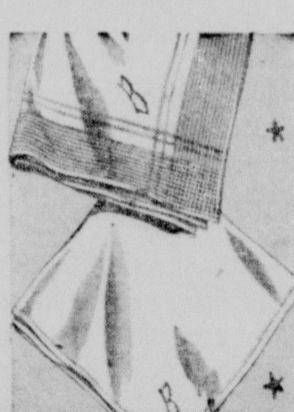

—STREET FLOOR

\$1.95 and \$2.95

Tailored silk slips are always acceptable, thoughtful gifts for no woman simply ever has enough of them. This group (including the models sketched) embraces a high quality crepe de chine with rip-proof seams, French knot and hemstitched trimming and plain bottoms. Sizes 34 to 44. Tearose only.

—SECOND FLOOR

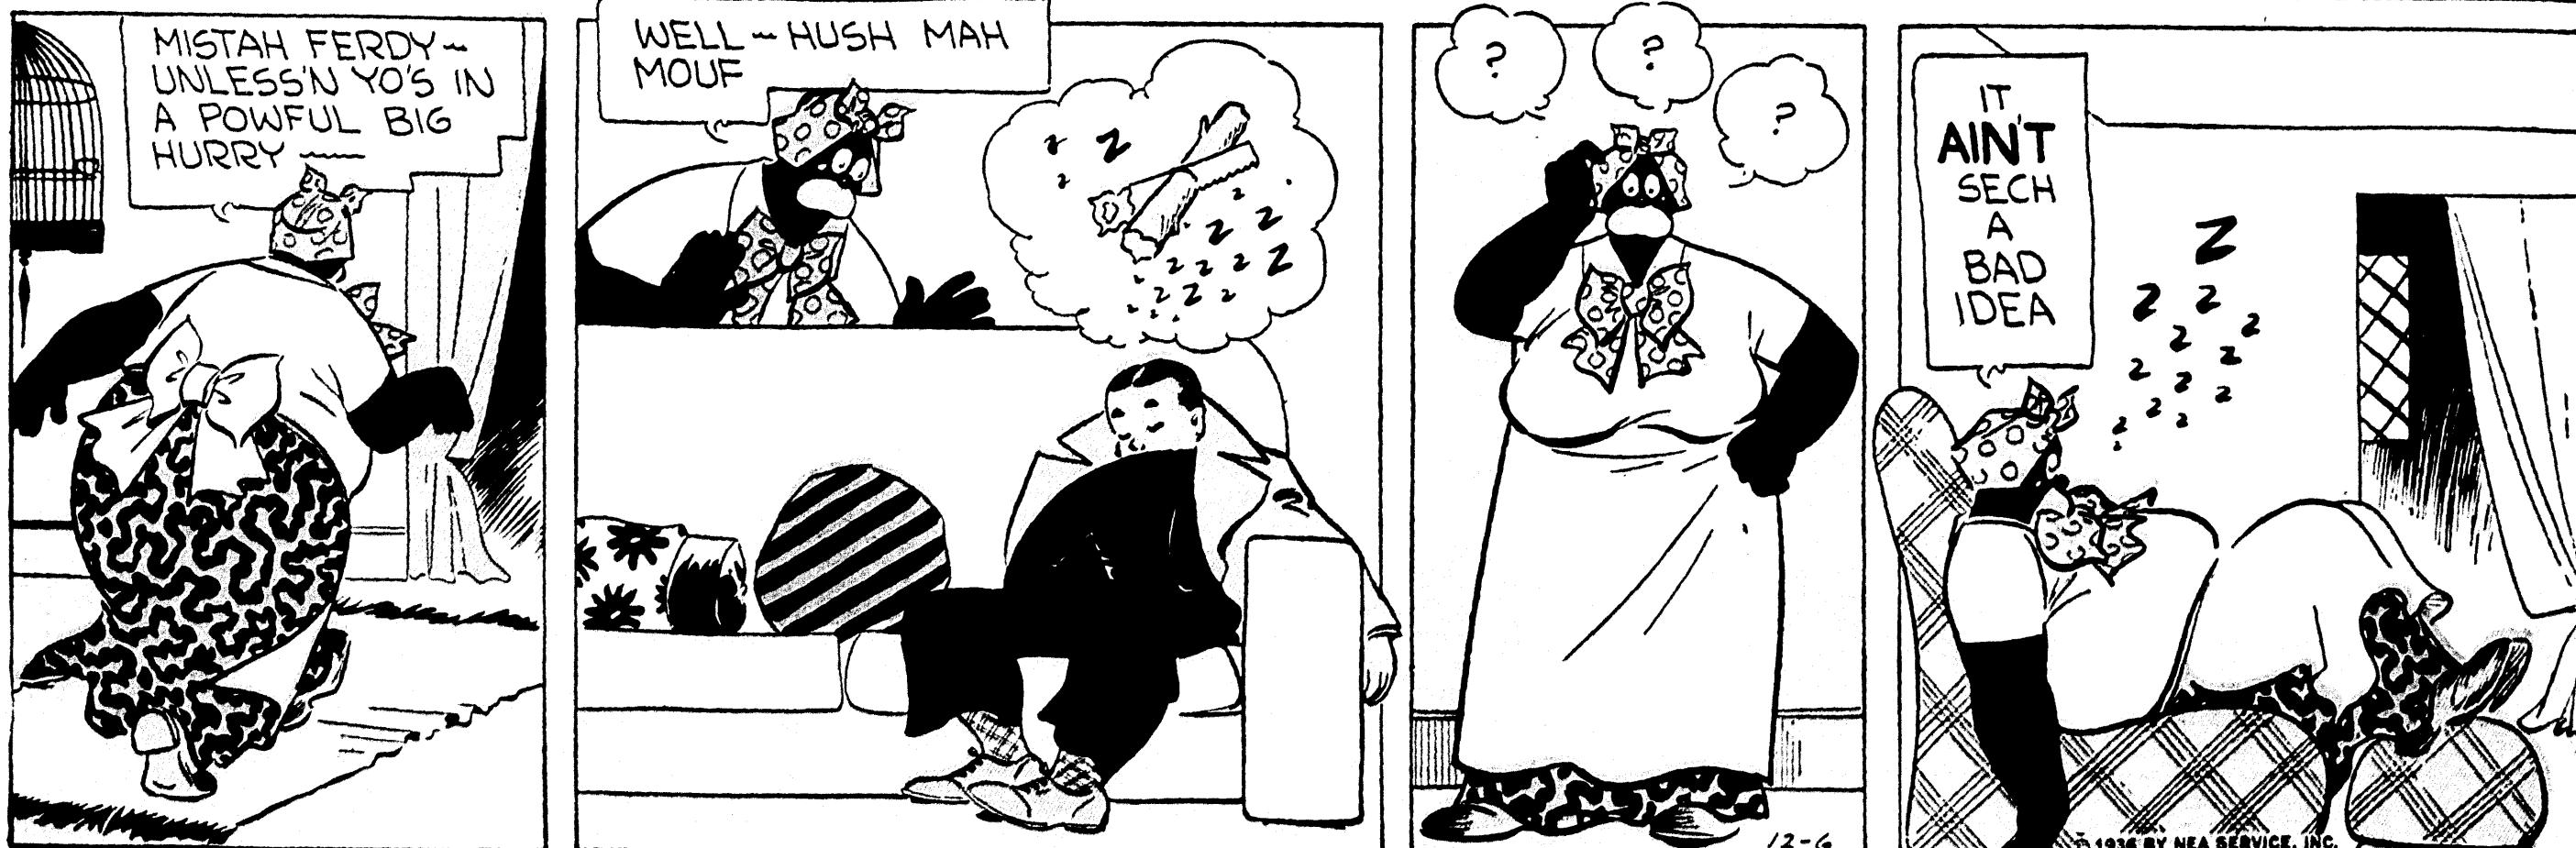

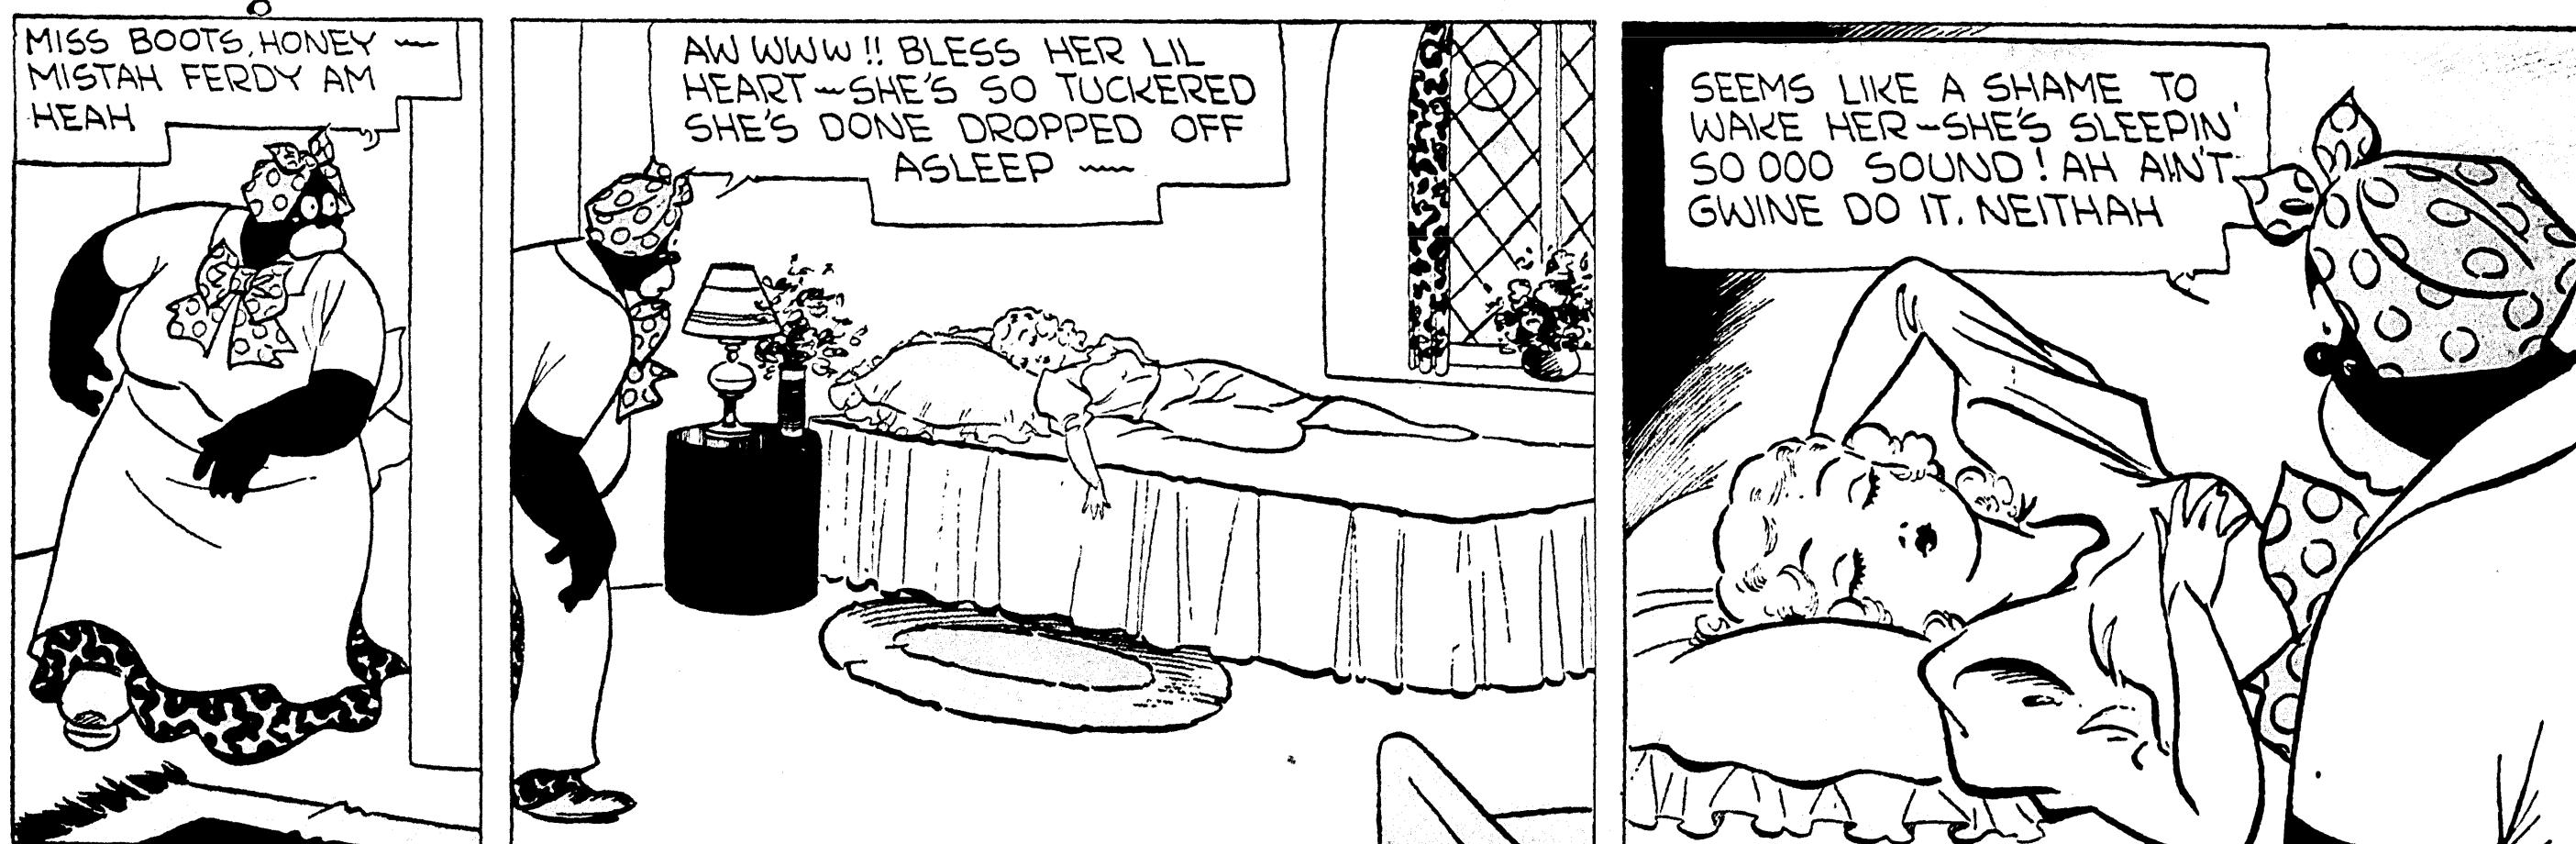

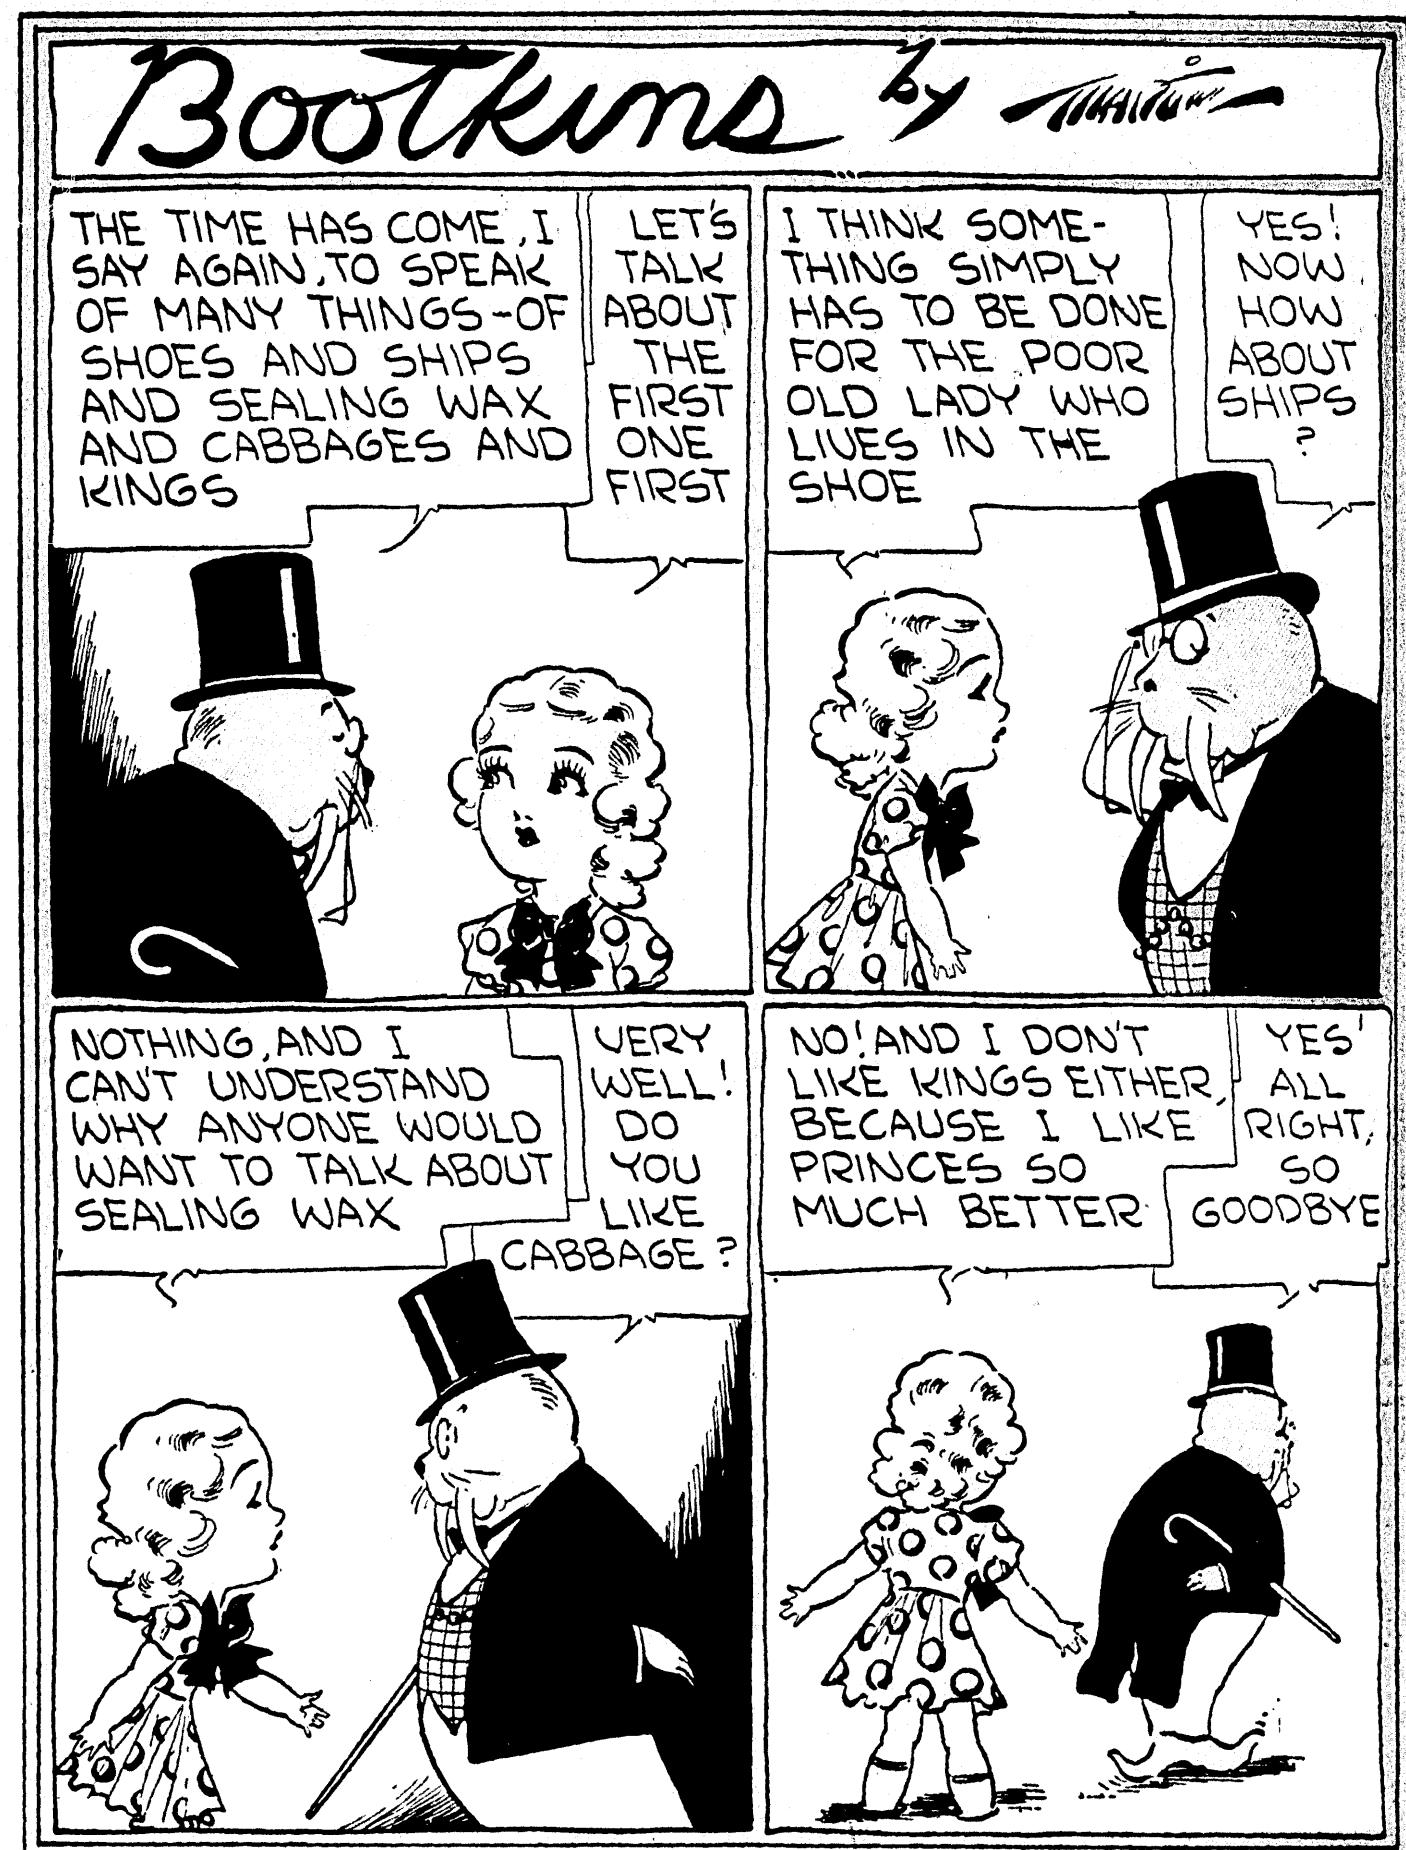

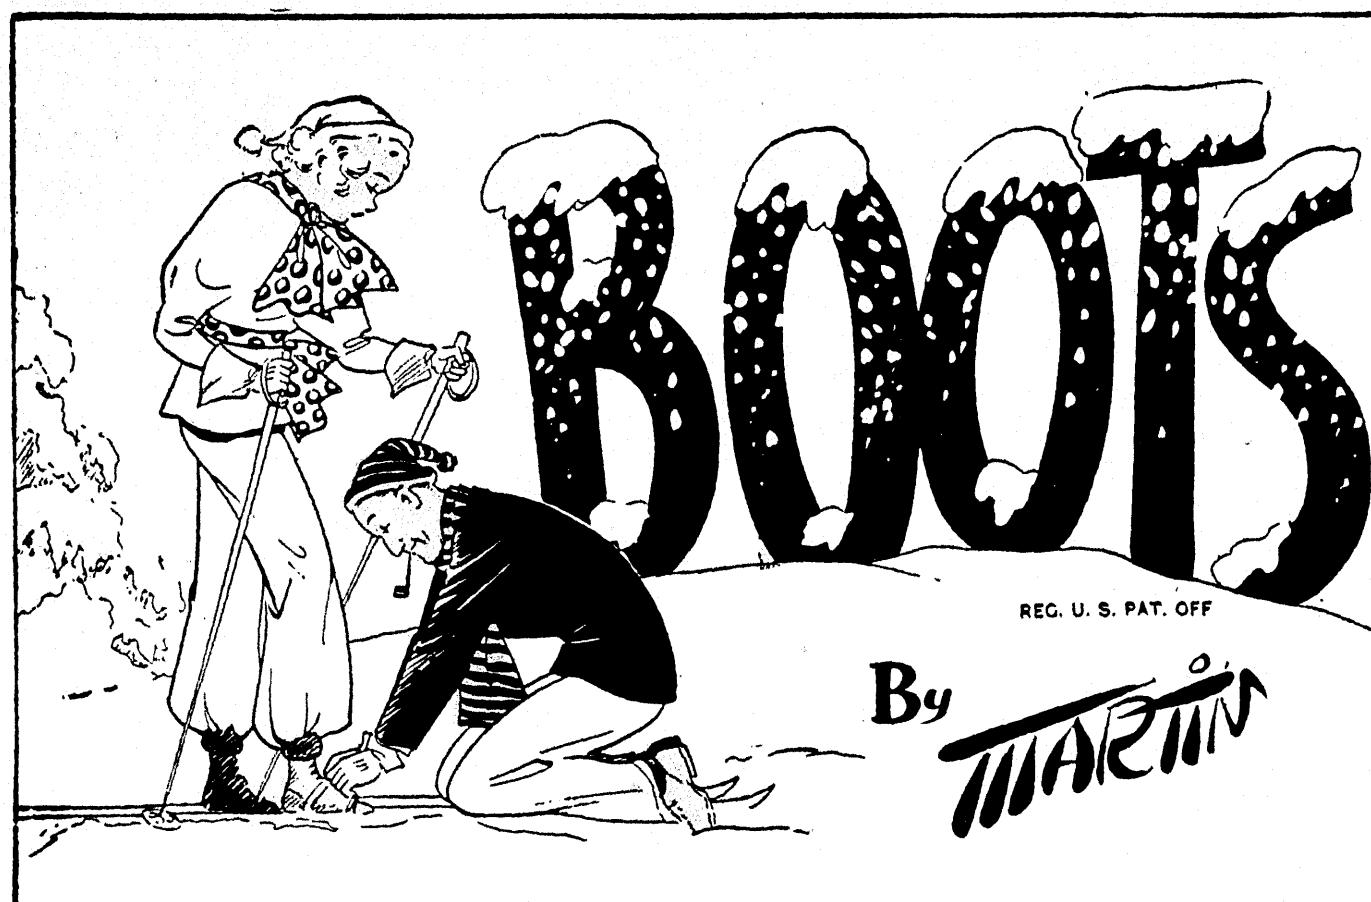

29¢ each

For bridge parties, for Christmas gifts, for yourself—this real Madeira hand-embroidered bridge set is a grand slam in any fast-playing set. Made on a white, bleached pure Irish linen and smartly designed in 6 unusual patterns you'll make a bid for top honors with this bright Star.

What can we say about men's handkerchiefs excepting that these are full-sized, fine white jacquard striped affairs, interesting initialed types and available either as three-of-a-kind or assorted. They're French hemmed too. Though you wouldn't think so to look at the price.

## You And Your Vehicle

When a man says, "I am out of gas," nobody imagines for a moment that the man himself is out of gas—particularly if he be a legislator. What the man means, and what everybody knows he means, is that his automobile is out of gas.

A man's automobile belongs to him; he goes about in it; he lives intimately with it; yet he never mistakes his automobile for himself, nor himself for his automobile.

A man's body belongs to him; he goes about in it; he lives intimately with it; yet actually it is no more the man himself than his automobile.

But commonly a man makes no distinction between himself and his body. When he says, "I," he means himself and his body as an inseparable entity, or he means merely his body, as when he says, "I am sick." Probably that state of mind has developed because mankind through thousands of successive generations has inhabited physical bodies.

Man's greatest self-imposed handicap and weakness is that he does not constantly and determinedly differentiate between himself and his physical body. "I and my body"—not merely "I," to include both—will continuously keep the correct thought in mind.

Man himself is eternal; he never perishes; he goes on existing after his body ceases to be. The moment he leaves his body, it stops living; but the man does not.

Man should control his body, as he controls his automobile, not be controlled by it.

The clear realization that he is one thing and that his flesh and blood vehicle is another thing, though belonging to him, would help him to realize his true place in the eternal scheme of things, and to regain and retain mastery of his body—which he is plainly obligated to do.

Man, if he could but realize it, is subject to higher laws—spiritual laws. He is not obliged to live under the government of the destructive passions, tastes and beliefs of this material world, any more than an American citizen is obliged to live under the laws of Mussolini, Hitler or Stalin.

The truth about ourselves and our relations to divinity is the biggest thing we have to comprehend; for it would set us free.

## MAKING OF MANY BOOKS

A distinguished author, Miss Agnes Repplier, spoke plainly to the publishers at the National Book fair, in New York City, accusing them of submerging all chances of immortality for today's best books in a flood of others unworthy of publication. "From the author's point of view," she said, "there are a great deal too many books in the world."

It is an old complaint, perennially recalled in the phrase "of the making of many books there is no end." But Miss Repplier added another accusation to her charges against the overproduction. "People are finding out," she said, "how perilously easy it is to write a book and how comparatively easy it is to have one published."

There was once a wide gap between the book bound in covers and the more ephemeral literature that is quickly written, quickly read and quickly forgotten. Nowadays that kind of writing is by all means likely to become a book. Among the mammoth output of the publishers' presses there may still be works of genuine and enduring worth, but lost to future fame almost as surely as the imaginary needle in the mythical haystack.

## HAPPY OMEN

One very excellent sign of the times is the fact that contributions to organized charities have gone substantially upward this fall.

In 78 cities that have been collecting community chest subscriptions of late, more than \$38,000,000 has been paid in. In most of these cities final figures are not yet available; where such figures are at hand, they show that most cities have passed their objectives and have collected more money than they requested.

It has been hard for the charities, in the last few years, to get the money they need. For one thing, people have not had so much to give; for another, the fact that the government is feeding and sheltering millions of people has led to a mistaken assumption that private charity has less to do.

This fall money is more plentiful. It appears, too, that people are realizing that the organized charities still have a tremendous load to carry, and are contributing accordingly.

Sociologist says woman is only 97 per cent emancipated. But that would seem to comprise considerably more freedom than is possessed by the average man.

Another way to get yourself hated is to talk sense to people who expect folly to pay them a profit.

Probably the most hazardous of all occupations just at present is that of being an innocent bystander in Spain.

Peggy Hopkins Joyce, now over forty, is about to take her fifth husband. And life, they say, begins at forty.

### FARM METHODS

We had some habits on that backwoods farm  
That could be carried over to these days.  
I know you do not think it any harm  
To poke fun at our patient plodding ways;  
But we were better to our horses than  
Than some employers are to their old men.

When our plow horses had served us all his life,  
We didn't turn him out to face the gloom,  
And fill his ending years with bitter strife.  
On our crude farmland there was always room  
And fodder for a servant, and the glow  
Of sunset fields when old age laid him low.

We treated human beings the same way.  
Our hired man, until his hard life's end,  
Was certain of a bed at close of day,  
And never lacked the warm hand of a friend.  
We did not shirk responsibility.  
In those far days of happy memory!

## More Woe In Store

By BRUCE CATTON

A creditor is supposed to be happy when a deadbeat debtor unexpectedly drops in, examines the writing on his cuff, and reaches for his wallet. But there are reasons why Americans should be anything but joyous over the news that France and England are getting ready to settle up.

Between them, these two nations owe us slightly more than nine billion dollars. Both of them are several years overdue on payments. Undoubtedly some scaling-down arrangement will be made before either resumes payments.

Now, this country could use an extra nine billions very nicely indeed. It could use the money even though the payments were strung out over 50 years or so and were so adjusted as to total far less than nine billions. But it would be just as well to look at the background, first, and see why our former allies at last are preparing to pay.

We don't need to look far—no farther, probably, than the Johnson act, which provides that no nation which is in default on its debt to this country can float any new loans here.

Keeping one eye on the Johnson act, let us see what might happen in the event of debt settlements being reached.

France and England resume payments. They pay for one year, perhaps two. The total sums paid, compared with the totals owed, are insignificant—a few millions all told.

Then comes this new European war which everyone is forecasting. At once France and England need all manner of war supplies, just as they did in 1914. The one great, adequate, convenient market is America. They turn to it at once.

They need supplies in such abundance that they cannot possibly pay for them in cash. To buy what they need they must float loans in this country—just as they did 20 years ago.

Having resumed payments on their old debt, they no longer are technically in default. Consequently they go ahead, float their loans, place enormous orders for guns, shells, submarines, and foodstuffs—and we are right back where we were in 1916.

That is to say that we would once more be silent partners in a European war. We would be the workshop and the granary for one side in a great conflict. That fact would be a standing invitation to the other side to disregard our rights as a neutral and provoke us to open hostility.

Even if, with great good luck, we got by that hazard, what would happen? Our creditors might lose—in which case old debts and new debts alike immediately would go into default. Or they might win—in which case we would immediately become Uncle Shylock all over again, with ultimate default extremely probable.

It's a dark prospect, any way you look at it. Aren't we just as well off with those World war debts unsettled?

## A BOOK REVIEW

### PICTURES ENGLAND'S YEARS OF TRANSITION

"Honourable Estate," by Vera Brittain, is the successor to her best selling book, "Testament of Youth," which appeared in this country several years ago. As "Testament" was the record of a dead and lost generation, this new volume is the record of the England which bred the lost generation and commemorated it after the war.

"Honourable Estate" is not only the story of three marriages, but a novel about the years that changed more than marriage, culminating in the world crisis of 1914. Each of the three marriages reflects a social mind, and through these minds is denoted the history of England from 1894 to 1930. Miss Brittain has sought to give life to the struggles, doubts, experiments, and crises in the lives of men and women during those years of transition.

The three marriages are those of the bullying and dogmatic Rev. Thomas Rutherford, and frustrated Janet, who spends her life in a futile struggle for women's rights; of Stephen Allyndene, wealthy master potter, and Jessie, who had been a governess; and finally of Denis, son of the Rutherford family, and Ruth, Allyndene's daughter, whose career in politics ultimately vindicates the frustrated Janet.

The novel has moments of real power and beauty; Ruth's unorthodox wartime love affair with a young American, and the suicide of her brother Richard in the trenches, are two memorable high spots in the book.

Miss Brittain writes with deep emotion and powerful conviction.

But only at rare moments does she get her emotion across to the reader. That is the tragic flaw in what should have been a very important book.

## SO THEY SAY

Why not emulate the oyster, which, when annoyed by a grain of sand, forms a wall of pearl around it? Many saintly husbands are made so by cantankerous wives—and vice versa.—Dr. E. Stanley Jones, English author, urging married couples to avoid divorce courts.

We object to women in industry being treated as a class apart. Protective legislation has been the cause of throwing thousands of women out of work.—Mrs. Mary A. Murray, National Women's party.

Life's crowning glory is to grow old gracefully. . . . Old age is as natural as growth and development and doctors should give it as much attention as they do the tiny babe.—Dr. I. S. Cutler, Northwestern University.

Our sex has always been a clearing house for confidences of other people and I think it is time we had public recognition of this virtue.—Mrs. Stanley Ward Cooke, British feminist leader.

It's best not to advance too rapidly. I'd rather be treated just like other boys.—Vernon King, Salt Lake City, Utah, 13-year-old boy prodigy.

Edward is a nice young man, but simply has no right to my throne.—Tony "King Anthony" Hall, pretender to throne of England.

Demands made on the concert artist today are too enervating. Art needs leisure and there is no leisure today.—Fritz Kreisler, noted violinist.

Intelligence begins to decline at 35.—Dr. Thomas Wright, British educator.

## TODAY'S BIBLE THOUGHT

And the servant of the Lord must not strive; but be gentle unto all men, apt to teach, patient.—II Timothy 2:24.

THE STATIONARY GLOBETROTTER—Sam Alexander is the operator of the car ferry across the south arm of Lake Charlevoix in northern Michigan. The arm is about 600 feet wide between docks, and Alexander makes no more than 1,500 round trips over it every year. He has been ferryman for the last 37 years, aggregating a mileage of more than 15,000 for the period, while his home is about 400 feet from the west dock.

A dozen times in his clowning, Society of America. After the performance the doctor and the major were discussing the version used for Jimmy Durante, the noisy, gleaming-eyed zanie. A good entertainer out of the Coney beer halls and all that, they murmured, but fit only for a rowdy cellar cabaret.

To me, Jimmy is only mildly amusing. A few minutes of his slap-happy and I ready to call it a day. But there is a lesson in his up and down career. The lesson of the fellow who has thoroughly enjoyed himself and will not accept an adverse verdict. Jimmy is the funniest man in the world and won't be talked out of it.

He believes in himself so firmly that his faith becomes contagious. When he broke away from his two partners, Clayton and Jackson, there were those who said his solo would not last long. He made a hit in a musical revue and the movies grabbed him. For several films he looked as big a laugh getter as W. C. Fields, but the furore faded and Jimmy found studio executives giving him the run-around. And there he was with Hollywood hacienda and time on his hands.

Instead, he packed up and set sail for London. In a few weeks he drifted back he was floating all over the place. The English did not take to his antics. But that did not discourage Durante, and before he came back to America he had won quite a chunk of London acclaim. He is riding the top wave again. The movies will be after him, of course. And so it goes.

Every boy had a chance to carry on the gaudy minstrel banner and the one who won was the hero of the hour. There was a flop—a jerkin' in our town struggling with an Al G. Field emblem on a windy day. As he was passing the Park Central hotel corner he was knocked by a husky voice boomed off his feet a husky voice boomed from one of the sidewalk chairs: "See him wind!"

Some one was telling of parents in a department store, whose little boy got astride a wooden horse in the toy department and refused to get off. The store finally said it would send a psychologist to deal with the problem. The parents stepped to one side and the psychologist was seen to go to the child, whisper something in his ear and promptly that lad got off the horse. The parents were astounded at such success and naturally wanted to know what was said to their pride and joy. They were told he said this: "If you don't get off that horse right away, I'll knock your block off."

Now he is the smash hit of Cole Porter's current revue. A review with a botch book and little else. But Durante makes it a grand show. He's riding the top wave again. The movies will be after him, of course. And so it goes.

A friend of Chauncey Olcott tells me the history of his most famous song, "My Wild Irish Rose." Olcott, born John Chancellor, had an Irish mother and an English father. His birthplace was Buffalo. One summer he took his mother back to her native County Wicklow, and as they were riding along the country roads of that section, en route to Cobh, then called Queenstown, to depart for America, they passed a little thatched dwelling. "There, John," said his mother, "is the wild Irish rose." On the ship that brought him home he wrote the words and music of "My Wild Irish Rose."

And someone else tells me of Nat Goodwin's famous toast to the beautiful Edna Goodrich when on their honeymoon. Lifting his glass, he said: "You have a face that would stop a clock. It is so fair that even time would stop to linger there."

A painting by Jean Francois Millet, "The Shepherdess," brought \$3,700 in a recent auction at New York City.

## YOUTH ARRESTED IN GINGER ROGERS PLOT

LOS ANGELES, Dec. 5.—(P)—An attempt to extort \$5,000 from dancing Ginger Rogers of the films led a 20-year-old sailor into a department of justice trap today.

J. H. Hanson of the department announced the arrest of James F. Hall, whom he identified as a sailor on the navy's aircraft carrier Lexington, about midnight, near a Long Beach cafe where Miss Rogers had been directed to bring the money.

The officer declined to disclose details of the arrest, but declared Hall confessed he was the author of letters which threatened death to the red-haired actress unless she paid.

Miss Rogers and her mother, Mrs. Leila Rogers, expressed surprise at the youth of the sailor arrested.

"I am taken by surprise—spellbound," the actress declared. "I don't know what to do or say. The Lexington is one of my favorite boats, too. I'm glad they caught him, but I am sorry he was such a young man. I feel more at ease now with this out of the way."

Her mother said they had never heard of the man before.

## MARLER'S BODY FOUND

BRUCE, Miss., Dec. 5.—(P)—The body of Lawrence Marler, Calhoun county farmer missing from his home since November 9, and at first thought kidnapped, was found riddled with bullet holes off a country road 15 miles north of here today. Marler had been shot three times, one of the bullets pierce his heart. The barking of a dog led to discovery of the body by a Mr. Webb as he was traveling along the little-used road toward his home.

## ROBBERY REPORTED

Approximately \$450 in cash and a quantity of groceries was stolen from W. F. Ross' automobile about 10:30 last night, according to a report from police headquarters. The robbery occurred in the 400 block of Calypso street while Mr. and Mrs. Ross were visiting friends. They reside at 1206 St. John street.

Washington never occupied the White House a few days before his death in 1799, however, he walked through the rooms with his wife.

## DETROIT STRIKERS TO RETURN TO WORK

DETROIT, Dec. 5.—(P)—Settlement of a seven-day "sit down" strike at the Midland Steel Products company plant brought announcements today that 1,900 employees and thousands of workers on dependent automobile assembly lines will return to their jobs Monday.

The management of the steel company and officials of the United Automobile Workers of America, which called the strike November 27, reached an agreement late yesterday.

K. T. Keller, president of the Chrysler corporation, said that normal operations would be resumed in the Chrysler and DeSoto factories Tuesday. Work had been curtailed because of a shortage of steel automobile frames fabricated by the Midland plant.

## SWEDEN DEVISES BUOY TELEPHONE

STOCKHOLM, Sweden.—(P)—A submarine buoy telephone, by which a sunken craft can communicate with rescuers, has been adopted by the Swedish navy.

An ordinary telephone instrument is enclosed in a buoy that can be released to rise to the surface when a submarine is sunk by accident. The buoy, carrying telephone wires from the submarine, is equipped with a flashlight to attract attention on the water.

Another communications novelty is the "laryngophone," which receives sound impulses from the larynx of the speaker, and hence is not affected by nearby noises.

It is designed for use in such places as engine rooms and airplanes where there is so much noise that the speaker's voice would be drowned in an ordinary telephone.

## SHIP IN DISTRESS

NEW YORK, Dec. 5.—(P)—MacKay radio said tonight a wireless report had been received from an unidentified ship saying the S. S. Karimoy, a Norwegian freighter, was in distress about 60 miles off Malin head, Scotland. The Karimoy is a 295-foot vessel with a capacity of 2,498 tons. She is owned by John K. Haagland and company.

## INSANITY CHARGES BLOCKED BY HEBERT

NEW ORLEANS, Dec. 5.—(P)—A Prudent Hebert, who is charged in district court at Jennings with forging the name of his brother, Louis Alex Hebert, to a \$29,000 check drawn on the Calcasieu-Marine National bank at Lake Charles, Saturday morning obtained from the Louisiana supreme court writs restraining Judge Thomas F. Porter from proceeding with insanity charges against him.

Chief Justice Charles A. O'Neill, in writing of certiorari, prohibition and mandamus, directed Judge Porter to transmit to the supreme court by Friday a copy of the proceedings in the case.

In honoring the check, according to the record, officials of the bank thought the check represented money from the estate of Hebert's father, the late Desire Hebert, Lake Charles capitalist. The check was deposited in the Jennings branch of the Lake Charles bank. The defendant is alleged to have drawn \$15,000 in cash, and \$30,000 on a bank draft.

Officials said that all the money has been recovered except \$1,355.

## SHERIFF RETURNS WOODROW TAYLOR

Woodrow Taylor, who was alleged to have left Monroe Thursday night in company with a juvenile girl, was returned to Monroe last night by members of the sheriff's department here, Sheriff Milton Coverdale said. The man was arrested Friday night at Alexandria.

He was being held in the Ouachita parish jail on a charge of contributing to the delinquency of a minor. The girl was turned over to E. L. Wright, parish juvenile officer.

## MISTRIAL DECLARED

JACKSON, Miss., Dec. 5.—(P)—The state's embezzlement case against C. G. Muse, former accountant in the state auditor's office, was declared a mistrial here tonight when a Hinds county jury failed to agree on a verdict.

## DEATHS

MISS CLAUSELL HOLIMON Miss Clausell Holimon, 20, died after a brief illness in a local sanitarium, Saturday afternoon. She was a resident of Oak Grove. The body was taken to the residence in Oak Grove late Saturday and the funeral cortège will leave the house at 8:30 a.m. this morning for Hamburg, Ark., where the interment will take place in Promised Land cemetery. The pastor of the Baptist church in Hamburg will officiate. Miss Holimon having been a member of the Baptist church in Oak Grove.

Surviving are the parents, Mr. and Mrs. J. L. Holimon; her grandmother, Mrs. John Slocum, of Hamburg, Ark.; one sister, Mrs. B. H. Green, of Greenwood, Miss.; and five brothers, J. L., Wilson, Wayne, and Don Holimon, all of Oak Grove, and James Holimon, of Paducah, Ky.

## POLICE INTERRUPT SARGA'S THIRD DUEL

BUDAPEST, Dec. 5.—(P)—Dr. Franc Sarga, Hungary's en masse duelist, aimed his ferocity in a new direction today—at the police.

"This meddlesomeness must end," the bespectacled doctor declared after police stormed in on the third duel of his scheduled nine in defense of the honor of my wife and unborn baby."

Sarga, who previously had shot it out with his adversaries, fought Elmer Losonczi, 29, tall and supple government employee, with sharpened sabers yesterday at a fencing academy.

Sarga carved a three and one-half inch gash in Losonczi's scalp before the police battered down a door and separated the two.

Sarga was unscathed. "The rest of the duels are going to be fought out of town," declared the impudent Sarga, "even if I have to borrow the money to hire all the cars."

## FIGHTS CONVICTION

LITTLE ROCK, Ark., Dec. 5.—(P)—Paul D. Peacher, town marshal of Earle, Ark., prepared today to fight in the higher courts for a reversal of his November 25 conviction in Jonesboro federal court of holding seven negroes in slavery.

hog up in the soft mud. They plan to pick up the trail from the other side early Sunday morning, aided by bloodhounds rushed to the scene from Jackson late Saturday.

At the spot where Cannon's saddle was found, searchers picked up a number of cigarette butts and an empty package, indicating observers said, that he had either been at the place a long time, or was extremely nervous.

The spot where the prints of his hands were found in the muddy bank of the slough was more than a mile southwest of where the saddle was picked up, leading searchers to the conclusion that Cannon was traveling in a southwesterly direction during the day.

Bloodhounds were rushed here by plane from Jackson following a conference between Governor Hugh L. White and Irby Charpin, planter and leader in the search for the missing sportsman.

Taken to the spot where Cannon's

horse, which was found Friday night, had been tied to a sapling, the dogs were unable to pick up the missing man's trail. Their handlers said they would be taken back into the woods for another trial Sunday.

While ground parties plodded through the damp lowlands, Jimmy Holmsback, one of the six pilots participating in the search, reported sighting a moving object which appeared to be a man near the spot where Cannon's riderless saddleless horse was found last night.

Holmsback said the object disappeared beneath a clump of heavy trees after he had circled over the place twice and that when he returned there more than an hour later vultures were circling over the same spot.

Charpin, who owns 25,000 acres of plantation and rough swamp land and whose home at Fittlers has been turned into headquarters for the searchers, expressed the belief that Cannon has become temporarily unbalanced and is wandering aimlessly through the swamps, hiding from the planes and from the ground crews.

To support his contention the planter was alive, Charpin pointed to the abundance of hawks, persimmons, pe-

cans and water on which he said a man could exist indefinitely.

## ALLEGED 'HOT CHECK' ARTIST IS ARRESTED

CROSSETT, Ark., Dec. 5.—(P)—A man who gave his name as Eddie Hamilton, answering the description given by the federal bureau of investigation at Little Rock of a "hot check" artist wanted in that city, was being held in jail here tonight after he was arrested by H. L. Keener and W. L. Strickland, town officials, for drunkenness and allegedly attempting to cash worthless checks here. A Little Rock investigator is scheduled to arrive in Crossett Sunday to examine the prisoner.

Hamilton, who came to this town about a week ago, reportedly cashed bad checks in Bastrop and Monroe Thursday night after hiring a Crossett automobile and driver. He was arrested at a local hotel this afternoon after the taxi driver asked officers to aid him in collecting Thursday night's unpaid bill.

early Sunday morning on the outskirts of West Monroe, at which time the Antley girl got out of the car. She was not seen or heard of until Friday, when Sheriff Milton Coverdale learned that she had been at the home of Mrs. L. A. Slaton in Ruston Tuesday and Wednesday nights.

Mrs. Slaton told Sheriff Coverdale the girl came to her home in the rain Tuesday afternoon and asked for a cup of coffee, but remained there until Thursday, when she again disappeared. Her whereabouts were not known until late Friday, when local authorities learned that she was in Bastrop. However, she was detained by Bastrop police before officers of the sheriff's department reached that city.

The girl was reported to have told authorities that she had visited several towns within a 70-mile radius of Monroe during the week.

In the fur trade year ended July, 1935, the Dominion of Canada had a raw fur output valued at \$12,843,000.

# Crowds Roam London Streets Shouting Support For Beloved Young King

## COMMON PEOPLE CRY 'DOWN WITH STANLEY BALDWIN'

Sentiment Throughout City Swells As Partisans Choose Champions

LONDON, Dec. 5.—(AP)—Chanting crowds, paced by blue-coated bobbies, roamed London today shouting themselves hoarse in praise of King Edward and in denunciation of an obdurate government.

From Mayfair, the ultra, to Cheapside, the poverty-stricken, the winding processions tramped.

In loud choruses they proclaimed their loyalty for the democratic ruler with a self-nominated leader springing up at intervals to ask:

"Do we want Edward?"

"Yes!" screamed his followers, jubilant in their acclamation.

The query came again:

"Do we want Baldwin (the prime minister)?"

"No-o-o-o-o-o-o-o!" came the reply, long-drawn and sour.

Sentiment throughout the city swelled as partisans chose their champions: King Edward, in love with American Mrs. Wallis Simpson, or Prime Minister Baldwin, head of a constitutional government determined to prevent the match.

The demonstrations were noisy but orderly. The crowds obeyed commands from perspiring squads of helmeted police, rushed from one district to another to break up the jams.

Before Buckingham palace, in Trafalgar square, through historic Haymarket to Piccadilly Circus, near official Downing street, down Whitehall, anywhere the ruler's supporters gathered the cry was always the same:

"Edward is right! Baldwin is wrong!"

Outside the royal palace, a group of elderly women took up a new chant: "Flog Baldwin! Down with the bishops!" When they were dispersed by police, they marched away singing "God Save the King."

Individual expressions of opinion differed from warm support for the monarch to frigid criticism of his attachment for Mrs. Simpson.

"I wonder how she caught him," said a housewife. "If it is good looks he wants, surely there are plenty of English factory girls who are pretty enough to fill the bill."

A girl who works in an office asserted: "We'll never stand for Mrs. Simpson. The king is the defender of the faith, head of the Church of England and a number of other things. Oh, why couldn't she have kept out of all this? It's such a mess."

The king's falling in love with a divorcee is "not natural," commented a Smithfield butcher.

"In fact, it's just another demonstration to his subjects he's as human as they, which he's already demonstrated in various ways—by dancing with factory girls, drinking tea with poor people, and other things."

The Archbishop of Canterbury is the person behind "all this," declared a government employee.

"He is sitting behind the scenes twiddling his thumbs after letting the Bishop of Bradford open up the whole subject of the church's attitude on divorce."

"It's a bloody shame all this had to happen," said a charwoman, gloomily. "I am sorry for poor Queen Mary. I thinks she's been through enough without this. Mrs. Simpson? Never!"

A bus conductor and his passenger argued at odds on the situation.

"The king should marry into royalty and not a society woman," the conductor said flatly.

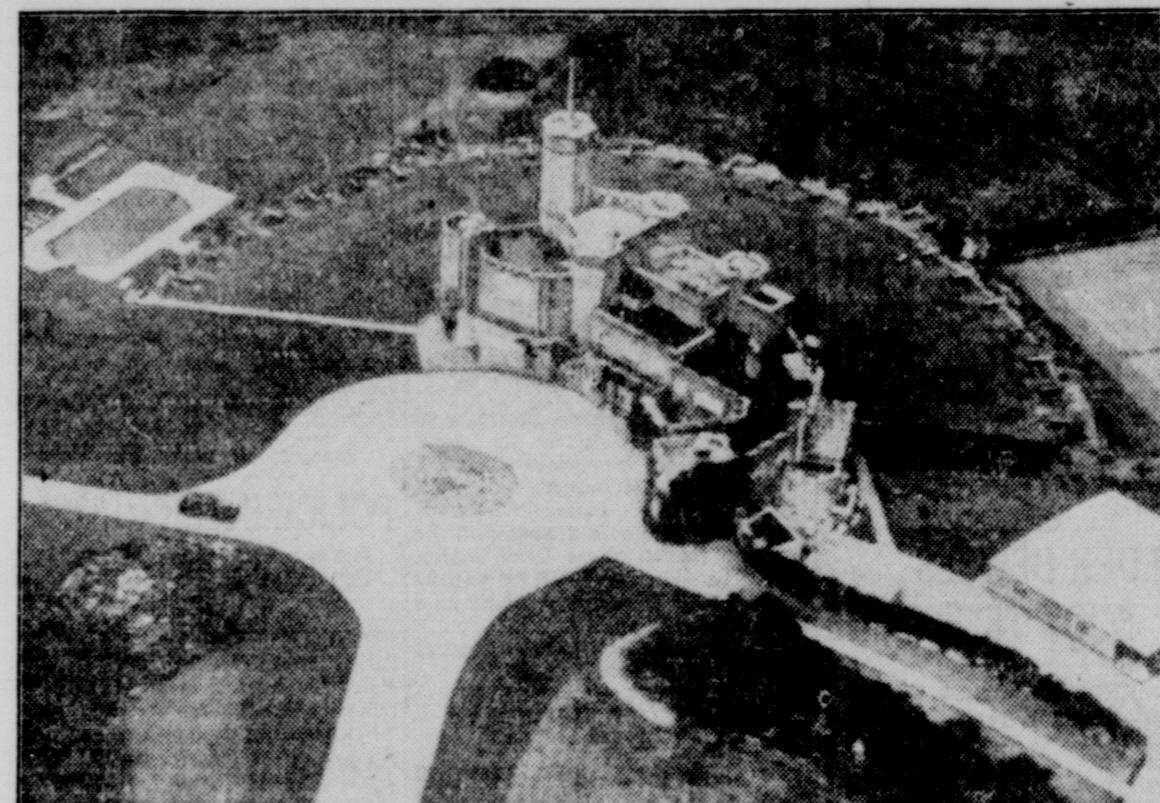

"At least we've got somebody at the top who's willing to get things done for the unemployed," replied a passenger. "The king's my choice no matter what happens. These government officials make me sick."

"What's the difference so long as I keep my job?" grinned a messenger boy.

"Sure, let him marry her," a woman

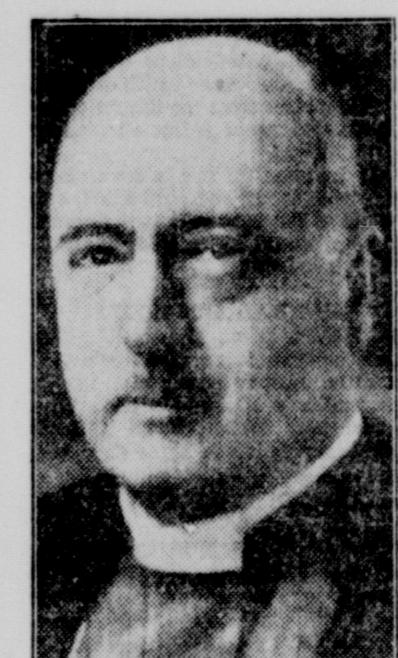

In the face of the storm aroused in British political circles by his romance with Mrs. "Wally" Simpson, the former Baltimore charmer, King Edward (right) intends to hold on to his throne—also her friendship. "Wally" didn't seem greatly worried over the approaching crisis when the photographer found her and Lord Sefton (left), bachelor friend of the king, attending a polo game at Hurlingham recently. (Associated Press Photos)

Behind the stern walls of Fort Belvedere (above), his country residence, King Edward of Great Britain, his friend "Wally" Simpson, and his brother and sister-in-law, the Duke and Duchess of York, went into seclusion while a political crisis threatened as a consequence of the king's romance with Mrs. Simpson. From here Mrs. Simpson fled to France. (Associated Press Photo)

Prime Minister Baldwin (extreme right) reportedly told King Edward that he and the British cabinet (shown here in a recent picture) would resign unless his majesty cooled his romance with Mrs. Wallis Simpson. The cabinet members are, left to right, Lord Londonderry, Sir John Simon, Sir Henry Betterson and Viscount Hallam. Next is Major C. Attlee, Labor party leader, and then Baldwin. (Associated Press Photo)

In the midst of a British cabinet crisis as a consequence of King Edward's romance with "Wally" Simpson, Dr. A. W. F. Blunt (above), the Bishop of Bradford, delivered a stern rebuke to the monarch. The king needs "God's grace," said the bishop. "We hope he is aware of his need," but "some of us wish he gave more positive signs." (Associated Press Photo)

close for the Christmas holidays for two weeks this year, according to an announcement made by Parish Superintendent of Education J. S. Burris. The institutions will close on December 18 and will remain closed until January 4.

### BENEFIT MINSTREL PLANNED

JENA, La., Dec. 5.—(Special)—On Tuesday night, the John Russell post No. 170 of the American Legion will present their benefit minstrel for the community Christmas tree fund, entitled "The Burnt Corker's Jamboree."

Some of the best talent in this section will be presented in the show. Directed by Miss Ethel Nell, LaSalle parish recreation supervisor, the show will be staged in order to raise more funds for the community Christmas tree fund, which is very low at the present. The people of this section will be able to see a real good

show for a low price and help a good cause at the same time. Some of the local talents are as follows: Interlocutor, Charlie Jones; black faces, E. W. Plummer, Earl Doughty, Don Rockett, Henry Bishop, Q. R. Hudson, Jr., Dr. E. L. Miller, Carl McIlwain, Glenn Drewett, Paul Perkins, Nick Medica, John Gates, Ezell Taylor, Hardner Taylor and Anthony Breithaupt. There will also be a cast of chorus girls in many dance novelties.

Nearly \$2,000,000 is spent daily by the United States army and navy.

## WRITER PHONES FACTS ON KING

London Scribe Declares Edward Fully Decided To Marry Mrs. Simpson

**EDITOR'S NOTE:** Frank H. King, chief of the London bureau of the Associated Press, today telephoned to New York an authoritative behind-the-scenes picture of the British crisis as it appeared shortly before noon, eastern standard time. His conversation with Fred Vanderschmidt, of the Associated Press cable staff in New York, is herewith presented.

By Frank H. King  
LONDON, Dec. 5.—(By transatlantic telephone to New York)—(P)—I have just learned the king has made absolutely no decision to abdicate.

The only decision he has made is that he wants to marry Mrs. Simpson and that he will not renounce that desire formally under any circumstances.

But his love affair is now an empire political issue and his antagonists think there is no way out of the dilemma except by abdication.

There should be a decision in 48 hours.

Will that end the crisis? I doubt it very much.

Here is what is happening now: The king is at Fort Belvedere, sitting tight and holding off in his final decision on whether to abdicate or further oppose Prime Minister Baldwin.

The longer he can delay that decision, the greater the chances of public opinion rallying around him.

Stanley Baldwin is sitting tight at No. 10 Downing street. The embattled forces of church and state are deeply and honestly concerned over the result British public opinion through the empire over Edward's proposed marriage to an American divorcee.

That is the whole problem.

As for Mrs. Simpson, she is sitting tight, too—in a motor car on her way to the Herman Rogers villa at Cannes.

If she does not gain seclusion and rest, the Rogers, who have great wealth, will take Mrs. Simpson on their yacht to the ends of the world, if necessary—and Edward could go along.

Practically all the cards are against him. On the constitutional issue, the church issue and the flaunting of conventions—he is in a tight corner.

## Actions Of England's Ruler Explained By Psychologist

Scientist Asserts Edward Has Now Reached 'Romantic Period' Of Life

By Howard W. Blakeslee  
(Associated Press Science Editor)

NEW YORK, Dec. 5.—(P)—A prince who has had the feminine world at his feet, but does not develop a yearning for permanent romance until he has won authority, is psychology's explanation of King Edward's sentiment for Mrs. Simpson.

Psychology sees Edward as a type likely to choose one woman in the climax, at the "romantic period" of his life.

It sees him, not as a stubborn man, but as one of the millions of the "war generation" who change their modes because the world is changing.

The psychological viewpoints were expressed by Dr. Joseph Jastrow, former president of the American Psychological association, for 29 years Wisconsin university's professor of psychology and author of numerous books.

"There are many men who continue to develop between 25 and 40, and often after 40," said Dr. Jastrow. "The king appears to be in this class."

"Most men who grow in this manner, reach a romantic period unlike the popular view of the glamorous twenties. They let the twenties and thirties go by, and then mature to the feeling of necessity for feminine influence at a much later date."

"Many of this sort remain bachelors permanently. By the time they realize their need, their tastes narrow the choices. Edward may be facing the wish for a permanent alliance on this basis."

"In this type romance develops often as a part of a direct connection with life purposes. The romantic period is likely to coincide with the time of maximum power."

"The king's romantic period comes at the time of his maximum power in the empire. This period, in his type of personality, is likely to be his best period."

"Romance, for this kind of man, changes its type with age. It is more concerned with companionship; it realizes that there are mature qualities in women worth consideration."

"This is the form of companionship which the king's station has deprived

him of. He appears to have found it eventually."

"No doubt the king discusses fairly serious subjects with Mrs. Simpson. I do not think it is a case of feminine wiles, for the king has had endless experience."

"There is stimulation found in talk about serious problems not found merely light entertainment. Moreover, I believe, in England tradition favors women taking an important part in decisions on affairs of large consequence."

If she does not gain seclusion and rest, the Rogers, who have great wealth, will take Mrs. Simpson on their yacht to the ends of the world, if necessary—and Edward could go along.

Practically all the cards are against him. On the constitutional issue, the church issue and the flaunting of conventions—he is in a tight corner.

MARLOWE'S "face that launched a thousand ships and burned the topless towers of Ilium, has not disappeared from the earth. The face of a charming young Baltimore lady has power to upset the British empire, causing the cabinet to say, to the king-emperor, 'choose between your king and her.'

NERO, fiddling while Rome burned, might be called a serious statesman compared with the British cabinet, with the danger of world war blazing around it, threatening to upset the British empire from within, over the silly issue of the king's right to marry a respectable and desirable young woman.

THE LATEST news reports the king ready to defy Stanley Baldwin, the prime minister, and the virtuous British middle-classes that would not object and, have not objected in the past, to half a dozen or more royal mistresses, their illegitimate children transformed into dukes, by royal order.

ONLY YESTERDAY England's population and press were praising the king as a great business builder for his people. England's present middle class ingratitudo reminds you of the treatment accorded to Lloyd George after his courage, Resourcefulness and energy, combined with the fighting spirit of the old Frenchman Clemenceau, had saved the British and their allies from defeat.

THE SYMPATHIES of this country are with the king, regardless of the fact that the lady in the case happens to be of American birth.

Europe and the world in general are in a dangerous condition. The British empire might be broken up, from a king, in a dozen places. Somebody ought to read to Prime Minister Baldwin the saying about "changing horses while crossing a stream."

BUT, THOSE TENDER words about "all for love and the world (empire) well lost" may not interest young King Edward, who possesses full power, and has been brought up in an atmosphere not calculated to develop submissive humility. The abdicate would be "quit," and the king has done nothing that would justify his being made a "quitter."

A job is what you make it. The king may decide to prove that a British monarch is not necessarily a figure-head. If the cabinet resigns there will be a general election, and the king might win it, with the help of the radio; Baldwin could hardly keep him "off the air." There is hypocrisy in England, but if the king should say to the people, "I have given my word, do you wish me to break it?" the answer should be no.

YOU'VE HEARD, perhaps, that the value of American home-made securities has risen within a year, by \$15,000,000,000. That value went on increasing yesterday; stocks went up. In England, because a pleasant young man plans to marry a thoroughly estimable young woman, British stocks fell down. Men are little; little things influence them more than big things.

IN THIS PROUD Democratic republic, Mrs. "Wally" Simpson, has driven the president of the United States away from many front pages, but you will want to know that he is on his way home, from Buenos Aires, after stopping to congratulate the president of Uruguay on great advances in behalf of the well-being of your citizens."

In his brief address the president

On Problem

BATON ROUGE, La., Dec. 5.—(AP)—Governor Richard W. Leche is looking into the problem of what can be done to help unemployed in several parishes where the two-cent gasoline tax is insufficient for the purpose.

He asked the executive committee of the Police Jury association, after a conference on the subject, to obtain more data regarding the situation in the parishes unable to care for their unemployed.

"We will see what we can do then," he said, adding that another conference would be held when he obtained the information he sought.

The federal and state social security programs do not provide for aid to unemployed between the ages of 16 and 65, and since the "auxiliary" sales tax finances the state program, it has no direct bearing regarding the unemployed situation, though Governor Leche was quoted as saying some of its revenue might be used for that objective should the yield prove sufficient.

The first month's yield of the levy on sales has indicated mathematically that the tax will produce about \$3,

### METHODISTS TO GO TO BOGALUSA

Appointments For Ensuing  
Year Will Be Broadcast  
By Radio Today

MINDEN, La., Dec. 5.—(AP)—Bogalusa was selected for the 1937 session of the Louisiana Methodist conference at a Saturday's session of the 61st annual meeting in session here. The appointments for ministers for the ensuing year will be ready Sunday afternoon at 2:30 p.m. o'clock by Bishop Hoyt M. Dobbs. An invocation will be the fact that the reading of the appointments will be broadcast over radio station KWKH at Shreveport.

The dates for the 1937 conference will be decided upon later by the conference cabinet composed of the bishop and presiding elders.

Devotional was led by Rev. W. C. Scott of Monroe.

The budget committee reported that expenditures for the coming year had been estimated at \$75,500.

Report No. 4, of the board of missions was read by Rev. Guy Hicks of Ruston.

Rev. George Smellic read a report from the board of missions giving the apportionments to the several districts of the conference.

Rev. Lecan W. Sloan, of the Louisiana Anti-Saloon league, was introduced and spoke briefly on the outlook for the work of temperance in the state, asking that five members of the conference be named to serve on the board of directors for the new year. Those elected by the conference were Bishop Hoyt Dobbs, Rev. W. L. Foss, Jr., of Lake Charles; Rev. W. H. Wallace, of New Orleans;

### FACE THAT'S MAKING HISTORY

Like Helen of Troy, whose beauty instigated a tragic war, the attractiveness of Mrs. Wallis Simpson is making history, with King Edward VIII and his cabinet at odds over his intention to marry the comely American commoner. This latest portrait, just received in America from London, reveals the serene patrician beauty of Mrs. Simpson and the calmness with which she takes the furor raging around her pretty head.

### FISHERMEN HUNTED NEAR NEW ORLEANS

NEW ORLEANS, Dec. 5.—(AP)—Search was being made today through dismal swamps and blind rivers for two fishermen of Metairie who had not been seen since Wednesday, when they went out to set trot lines on the lake.

The hunted men were Joseph Mucchio and Nick McClure of Metairie. Searchers found their camp deserted with their gasoline boat tied up as if it had not been used.

Another one of their boats was found adrift and broken.

Relatives feared the men may have either met mishap or become stranded in a remote section.

### RICHLAND TO GET NEW COURTHOUSE

Plans Announced For Erection  
Of \$300,000 Structure At Rayville

RAYVILLE, La., Dec. 5.—(Special)—Plans for the erection of a \$300,000 courthouse for Richland parish were announced here today, following approval of the project by the state board and tax board.

Deputy Sheriff Frank Cline said officers of the department had traced the girl to Bastrop, and were preparing to search that town for her when it was learned that she had been detained by police shortly after stopping at a hotel there. She was returned to Monroe Friday night and kept under the custody of the sheriff's department until she was returned to her parents yesterday.

The Carter sisters were arrested in Vermont.

Simultaneously with this report came news that Mrs. Irlby Charpin, wife of a prominent Isseoune county planter, leading another group of searchers, had located a slough where the missing druggist drank earlier in the day.

Cannon, who had been on his boat, is believed to have waded across the stream while members of the searching party were forced to go around it for fear that their horses would

be spooked.

### RESIDENT OF EROS SERIOUSLY INJURED

Eddie Costin, 37, who resides near Eros, was seriously injured early yesterday afternoon when he fell from the truck driven by his brother, Charles Costin, who was trying to avoid a collision with another vehicle about seven miles east of Eros on the Jonesboro highway. He is a patient at St. Francis sanitarium.

Costin, who met with his brother, Eddie, in Eros, was driving from Monroe when the accident occurred. Charles Costin, driver of the truck, said an automobile passed his machine and slowed down several yards ahead of him. To avoid hitting the car, he applied the brakes of his machine and pulled over to the left side of the highway, causing his brother to be thrown to the pavement.

According to an attending physician,

Costin received serious chest and head injuries, and was reported late last night to be in a critical condition.

### POPE PIUS' LEGS PARALYZED AFTER STROKE NOTICED

Relatives Visiting Vatican Assured Condition Not Alarming

Condition Aggravated By High Blood Pressure And Heart Trouble

By Andrew Berding  
VATICAN CITY, Dec. 6. (Sunday).—(AP)—Pope Pius XI died into a troubled sleep early today, suffering pain from a blood clot on his left leg and with both lower limbs partially paralyzed.

Relatives who visited Vatican City said, however, they were assured his condition was not alarming.

Information issued by the Vatican tended to minimize the seriousness of the pontiff's illness—the first serious trouble he had had since he became pope February 6, 1922—but his intimates said they recognized his 79 years enfeebled him.

His holiness accepted his disconcert with cheerful resignation, carrying on some of his duties.

Shortly before his bed-chamber was darkened for the night he talked freely for nearly half an hour with Senator Crisp, father-in-law of one of his nieces.

Donna Anastina Caminata Ratti, widow of Pius' brother, and nephews accompanied him to visit the Vatican. After talking with Monsignor Goncalon, their pontiff's private secretary, they said they were reassured on the pope's condition.

Prelates expressed hope the pope would be relieved of pain within a few days and would be able to resume his normal routine.

Serendipitously confident that God's will would permit him to rise shortly, the 79-year-old pontiff nevertheless resigned himself even to death should it come.

"I am in the hands of God," a high prelate quoted the pope

## SECURITY CARDS CAN BE SENT IN

Related Mailings Will Be Received, Postmaster Reports

Although Saturday night was the deadline for the return of social security blanks filled out by employees of firms in Monroe and West Monroe, those who for any reason had failed to return these can still do so, stated Postmaster J. R. Wooten, to whom they are to be surrendered.

There should have been approximately 9,000 blanks returned to the postoffice here by last night, according to the estimate made by Postmaster Wooten. This number was not by any means approximated, he said, indicating that many failed for some reason to return their cards.

Those who have not done this are asked to give the matter prompt attention. If unable to fill out unaided, assistance can be had by going to room 307 at the new postoffice here, telephone 182.

The matter of early mailing of Christmas packages was further urged by Mr. Wooten who said that all foreign mail should be dispatched at once.

According to present plans, the post-office will remain open next Saturday afternoon to accommodate many who will desire to mail out packages.

## FINE FOR KIDNEY AND BLADDER WEAKNESS

STOP GETTING UP NIGHTS  
LOOK AND FEEL YOUNGER

Keep your kidneys free from waste matter, poison and acid, and put healthy activity into kidneys and bladder and you'll live a healthier, happier and longer life. One most efficient and harmless way to do this is to get from your druggist a 35-cent box of Gold Medal Harlein Oil capsules and take them as directed—the swift results will surprise you.

Besides getting up nights, some symptoms of kidney trouble are backache, moist perspiration, cramps and eye strain. If you want real results, be sure to get GOLD MEDAL—the original and genuine—a grand kidney stimulant and diuretic—right from Harlein in Holland. Give your kidneys a good cleaning once in a while. ### CHAPTER XXV

When Saturday came Caroline got out baking materials and spread them over the kitchen table as usual. She tried to do it unobtrusively, for she feared that Kate would cause trouble. During the past two days Jeff Howard's name had not been spoken between them and Kate had ceased to talk of Brown Boy. Yet the grim expression of Kate's tense young face did not suggest forgiveness or neighborly love.

Walking into the kitchen when Caroline was sifting flour, she looked at her accusingly. "That's not for Jeff Howard, is it?"

"Why, yes," Caroline answered. "I thought I'd make him a butterscotch pie and coconut cake, for a change of flavors. You needn't help me. Althy's going to mix the butter and sugar."

Kate said, "Well, make nothing more in this house for Jeff Howard. 'Don't be a fool,' Caroline implored. "We clear \$3 a week from our sales to that man. He's our only regular customer."

"I don't care what we clear. We're through with him, Caroline! We should never have had any dealings with him. It should've been lesson enough to us when he took our home."

"Oh, for heaven's sake, Kate! That was a legitimate business deal. He held the mortgage and we couldn't pay. What could you expect Mr. Howard to do? Eat the papers?"

"He needn't have crowded over us," Kate replied. "He needn't have boasted and sneered and rubbed his own back. He's hated me from the first, Caroline, and he knows I return it. He got hold of poor old Brown Boy just to tread me a little deeper into the dust!"

"You're being melodramatic, Kate," Caroline said wearily. "But, granting what you say is true, why toss up his order when we need the money we get out of it?"

"Because I won't be indebted to the creature, Caroline. I don't believe he really wants the stuff. He takes it because it tickles his vanity to have the Meeds cooking for him. Caroline, let me tell you something! Zeke asked me yesterday why Mr. Howard's beaten biscuits to feed the chickens! He said he's seen broken biscuits scattered to the chickens every time he's been over there."

"Our biscuits?" asked Caroline in blank surprise.

"Whose else? Does that look as if he's buying our baked goods to eat? No, I tell you! It's another of his mockeries. He's put us on his charity list, and then sits back and gloats over it. I'll not be indebted to him, Caroline."

Yet Kate did have an escort next day. She encountered Johnnie Baird coming from the postoffice, and carelessly invited him to accompany her.

"Don't care if I do," Johnnie decided. "Haven't been to church since Easter. By the way, do I look all right?"

"You look fine," Kate told him. "But let's not be late."

It was a comfort, she found, to be escorted to the family pew by Johnnie. After all, he had been rather attentive to her once and she had been fond of him, before Morgan had supplanted him.

"Could I?" she wondered, while Johnnie's good tenor voice rang out over a hymn book, "manage to catch him again?" And could I fall for him if I did? It would save my pride, either . . . Johnnie's kind. Not a pauper, either . . ."

Yet when, that night, Johnnie came driving out to Ricketty House, bringing Cynthia Cheneau and two young men and melons enough for a party, Kate felt no elation. "Here I am," Johnnie's eyes told her, "ready to begin again where we left off—ready to step into Morgan's shoes—"

While the others arranged themselves on pillows on the porch steps, Kate and Johnnie walked down the

steps for country roads in the dark," he said. "What smells so sweet?"

"August lilies," Kate told him. "There's a clump in bloom just over by the fence. Don't pay any attention to them. They'd make a rock sentimental."

Johnnie lit a cigaret and said huskily, "I could get that way if you'd let me."

"Some other time Johnnie," Kate said quickly. "Not tonight. Let's just be crazy tonight. Let's make limericks the way we used to."

"Limericks!" Johnnie protested. "Why did I ever get myself a reputation for those things?" A horse neighed in the pasture. "Is that Brown Boy?" Johnnie wanted to know.

"No," Kate replied shortly. "Go on, Johnnie. Make a limerick. Make one about—about—King Carol of Rummania."

Johnnie looked up at the stars, inhaled and presently chanted, slowly and obediently:

"See Carol and gold lace and saber

He never fatigues us.

In fact, he intrigues us.

And so does his headless neighbor."

## GRACE CHURCH MEN'S CLUB HOLDS BANQUET

The Men's club of the Grace Episcopal church held their November meeting at the parish house the past week with large attendance of the membership. President Ivey Faul presided and the meeting was opened by Rev. E. F. Hayward.

A delicious barbecue supper was served to members and their guests which was prepared by Captain W. I. Neel, assisted by Mrs. Neel, Mrs. E. F.

Hayward, Mrs. Fletcher Ashcraft and Mrs. Peyton Parker.

The committee appointed for the next meeting is composed of Ed Apperson, chairman; George Trousdale, O. R. Lewis and Ed Hayward, Jr.

Short talks were made by J. M. Cobb, district governor of Rotary; T. O. Bancroft, past president of Rotary; Berry Oakland, R. D. Swayze, and Rev. Hayward.

The president expressed pleasure at the large attendance and invited guests of the occasion to return to subsequent meetings.

The following men were present: Captain Neel, Henry Littlepage, Berry

Oakland, Fletcher Ashcraft, Mr. Norstrom, Rev. Hayward, L. U. Fournier, Ivey Faulk, Dr. C. B. Flinn, Benton Holt, T. O. Bancroft, Tom Rowland, Ed Apperson, C. R. Boston, J. S. Hunt, H. H. Land, O. R. Lewis, J. Bishop Johnson, J. M. Cobb, H. A. Whitfield, M. W. Sykes, J. S. Washburn, Dr. D. G. Williams, A. L. Gardner, Ed Hayward, Jr., R. Earl, G. W. Trousdale, Allen Kimball, W. S. Shafro, Ed Starsney, R. D. Swayze, L. H. Cosper and Joe Trammell.

Statistics show that only one of every 300,000 letters mailed in the United States is lost before delivery.

## SEVENTEEN STUDENTS TO GET A. B. DEGREES

NATCHITOCHES, La., Dec. 5.—(Special)—Seventeen students will complete work on the A. B. degree and 10 will be awarded two-year certificates at the termination of the fall quarter of the Louisiana State Normal college here Monday, it was announced today by W. S. Mitchell, registrar at the state teachers' college.

Certificates will be given the four-year students, but they will not be

granted the diploma until the annual graduation exercises in June.

Following are the candidates for the A. B. degree: Mattie Laura Adams, Houston; Ruby Bowen, Winnfield; Curtis Bradshaw, Annacoco; Mrs. Helen Louise Brown, Minden; Evelyn Chatelain, Mansura; Roberta Duffy, Montgomery; Ruth Duffy, Montgomery; Corinne Fournet, Natchitoches; Orville J. Hanchey, Natchitoches; Clinton Jackson, Coushatta; Mrs. Sarah B. Key, Mira; Virginia McKinney, Minden; Wallace Pefferkorn, Alexandria; Anne Pender, Alexandria; Ruth Ellen Turnley, Shreveport; Rufus Walker, Pollock; and Nelwyn Williams, Natchitoches.

Those receiving the two-year certificates Monday are: Rodessa Brown, Coushatta; Aline Campbell, Haughton; Louise Carpenter, Bastrop; Marjorie Coffey, Chestnut; Ruby DeCuir, Marksfield; Adele Anne Ducote, Cottontop; Marie Durham, Winnfield; James Jeansonne, Plaucheville; Cecil Ross, Many; and Louise Speir, Chestnut.

The winter quarter at the State Normal college will open Tuesday with registration and classification of students. Regular classroom work will begin Wednesday.

## METHODIST MEET TO COME TO END TODAY

The annual Methodist conference, which has been in session the past week, will come to a close today at Minden. Bishop Hoyt M. Dobbins will deliver the morning sermon at the First Methodist church there, today and many Methodists from the

churches of this denomination here today.

Sunday school, however, will be conducted at all the Methodist churches in Monroe and also in West Monroe today.

Much interest attaches to the assignment of pastors for the coming year. These will be made known at the afternoon services in Minden today.

NEW TEACHER NAMED

## LUTHERAN CHURCH TO BE DEDICATED

New Edifice in Sherrouse Addition Now Ready For Occupancy

Formal dedication of the new Trinity Lutheran church in the Sherrouse addition will take place on Sunday a week from today, it was announced by the pastor, Rev. Vernon C. Grosse. Exercises of a rather elaborate nature are planned and there will be in attendance Lutheran pastors of note from New Orleans and other cities who will participate on the program.

The cornerstone of the building was laid some weeks ago and construction has gone ahead rapidly ever since. The building is of frame construction and combines a residence for the

pastor and the church equipment and facilities.

This section of the city has no church and it is expected that the Lutheran Sunday school as well as church services will attract many in the vicinity who now have no convenient house of worship.

The program for the dedicatory exercises will be made known in a few days time, the pastor stated.

### CHURCH OFFICERS NAMED

TULLOS, La., Dec. 5.—(Special)—The Tullos Methodist church has announced the following officers of the church and Sunday school for the coming year: Board of stewards: W. H. Rice, H. E. Mayes, R. L. Brewer, Glen Tyson and E. O. Brown; secretary-treasurer, S. O. Capps, board of education, Mr. W. H. Rice, Mrs. E. R. Brewer, Mrs. H. E. Mayes, Mrs. W. O. Weaver; assistant superintendent, Mrs. W. O. Weaver; secretary-treasurer, S. O. Capps; Bible class teacher, W. H. Rice; young people, Mrs. H. E. Mayes; juniors, Mrs. C. E. Coleman; beginners, Mrs. L. B. Wallace; and primary, Miss Jewel Sanders.

## MARX WILL HEAD HARDWARE GROUP

Sixth District Of Louisiana Association Holds Meeting Saturday

Joe Marx, president of the Southern Hardware company, was elected president of the sixth district of the Louisiana Retail Hardware and Implement association, at a meeting of hardware and implement dealers Saturday at the Monroe Hardware company. J. T. Conger, sales manager of the Monroe Hardware company, was in charge of the meeting and the members discussed the social security act and its application to themselves and their employees.

A. H. Aucoin, executive secretary of the association, introduced William Lucas and Joseph W. Simon of the

New Orleans office of the collector of internal revenue, who explained the provisions of the act to the members.

Fifty hardware and implement dealers from points in north Louisiana were present at the session and refreshments were served after the meeting. The Monroe Hardware company acted as host to the members and invited them to use their facilities for future meetings of the association.

### CHRISTMAS TREE PLANNED

TULLOS, La., Dec. 5.—(Special)—The Tullos Methodist Missionary society met to make plans for a Christmas tree. Committees appointed were: Decorating, Mrs. E. O. Brown, Mrs. H. E. Mayes and Mrs. E. R. Brewer; Finance, S. O. Capps, Mrs. J. M. Beebe and Mrs. W. H. Rice; program, Mrs. L. B. Wallace, Mrs. C. E. Coleman, Mrs. Clara Carson and Fern Benson. Mrs. H. E. Mayes taught the last chapter of the bible study, "Parents as Teachers of Christian Education." Those present were: Mrs. E. R. Brewer, Mrs. Fern Benson, Mrs. Clara Carson, Mrs. C. E. Coleman, Mrs. H. E. Mayes, Mrs. L. B. Wallace and Mrs. Inez Weems.

## ALL CITY BANDS TO HOLD CONCERT

Will Be Given As Benefit For Fund Of Good Fellows

All bands in the city of Monroe plan to unite to present a concert, the proceeds of which will be given to the Good Fellows Fund, it was announced Saturday.

W. C. Minnear, band director of the Ouachita Parish High school, is asking that all bands in the city meet for their first rehearsal at Neville High school, Monday at 7:30 p.m. All band leaders are asked to lend their cooperation. The bands include those of the Ouachita Parish High school, the Neville High school band, the Grotto band, the LaRocco band,

and any other band organizations in Monroe or West Monroe.

The concert will be of unusual interest and one that will not only give much emphasis to the musical progress of Monroe but also will net much money, it is hoped, for the Good Fellows Fund.

### HONOR BISHOP DESMOND

## BEAUTY SALON TO OPEN ON MONDAY

A beauty salon will be opened to the public Monday on the second floor of the Monroe hotel in room 119, just off the ladies' lounge, and will be in charge of Miss Edith Chambers, experienced beauty specialist. A contest to select a name for the new beauty salon will be conducted

during the week with a prize of an oil of tulipwood permanent wave to be awarded the lucky entrant.

The new beauty shop will be fully equipped to give a general cosmetic therapy service and will specialize in Shulton hair waving. The shop is equipped with a Rapide gas drying system which will be used in permanent hair wave work.

Miss Chambers was formerly employed by the Monroe Beauty school and has engaged in beauty culture work for about three years.

**AIR CIRCUS TO  
BE HELD TODAY**

Death-Defying Events, Sponsored By Legion, Will Start At 2 P. M.

Five men who earn their living by a brazen defiance of death will challenge the Grim Reaper in a series of breath-taking aerial stunts at Selman field this afternoon at 2 o'clock during a four-hour air circus staged by Irvin Davis and four other aces of the air. The event is sponsored by the Barkdull Faulk post of the American Legion in Monroe.

The aces include Davis, the "bat wing" flier; Bob Gunn, Shirley Reitzel, Wat King and Hugh Mitchell.

Each ace has his own special way of defying death. Davis, for instance, prefers to take his chances by performing spectacular leaps from airplanes and hurtling to earth thousands of feet before pulling the cord on his parachute. Today's air circus will be featured by a 10,000-foot plunge from a plane and Davis will plummet through space for a distance of 9,000 feet before using his parachute. This exhibition will be the first stunt of the air circus and is performed so as to show the spectators the speed with which a body falls from a great height.

Following the jump the air aces will go into action with Reitzel, who enjoys flying his plane upside down, giving an exhibition of inverted flying during which he will go through many evolutions where split-second timing will be necessary in order to avoid a crash. Reitzel will also attempt to pick up a handkerchief from the flying field with the wing tip of his speeding plane.

Other stunts include exhibitions of bomb dropping, serpentine cutting, barrel rolls, loop-the-loops, sideslips, "dead stick" stunting and crazy flying.

The feature attraction of the air circus is Davis' famous "bat wing" flight which he will make by jumping from a plane at a height of 6,000 feet.

This stunt was originated by Davis and consists of gliding to earth on a set of improvised canvas wings strapped to his arms and shoulders. By utilizing the air currents Davis skims through space at a fast rate of speed and opens his parachute, which the law insists that he wear, while only a few hundred feet from the ground, in order to break the force of the fall.

Last year Davis made the "bat

Irvin Davis, air ace, is seen here as he leaps from a plane in his famous "bat wing" flight. He will be one of the chief attractions at the air circus staged here this afternoon under the auspices of the American Legion.

"wing" flight over the city of Detroit and landed in Canada. He leaped from a height of 9,000 feet and his glide to earth lasted a little more than two minutes.

Davis is the only stunt flier in the world who performs the "bat wing" flight. There was another aviator who tried it months ago but died in the attempt.

During pauses in stunting the spectators will see two heavy automobiles stage a head-on collision while being driven at a speed of 70 miles an hour.

## You And Your Vehicle

When a man says, "I am out of gas," nobody imagines for a moment that the man himself is out of gas—particularly if he be a legislator. What the man means, and what everybody knows he means, is that his automobile is out of gas.

A man's automobile belongs to him; he goes about in it; he lives intimately with it; yet he never mistakes his automobile for himself, nor himself for his automobile.

A man's body belongs to him; he goes about in it; he lives intimately with it; yet actually it is no more the man himself than his automobile.

But commonly a man makes no distinction between himself and his body. When he says, "I," he means himself and his body as an inseparable entity, or he means merely his body, as when he says, "I am sick." Probably that state of mind has developed because mankind through thousands of successive generations has inhabited physical bodies.

Man's greatest self-imposed handicap and weakness is that he does not constantly and determinedly differentiate between himself and his physical body. "I and my body"—not merely "I," to include both—would continuously keep the correct thought in mind.

Man himself is eternal; he never perishes; he goes on existing after his body ceases to be. The moment he leaves his body, it stops living; but the man does not.

Man should control his body, as he controls his automobile, not be controlled by it.

The clear realization that he is one thing and that his flesh and blood vehicle is another thing, though belonging to him, would help him to realize his true place in the eternal scheme of things, and to regain and retain mastery of his body—which he is plainly obligated to do.

Man, if he could but realize it, is subject to higher laws—spiritual laws. He is not obliged to live under the government of the destructive passions, tastes and beliefs of this material world, any more than an American citizen is obliged to live under the laws of Mussolini, Hitler or Stalin.

The truth about ourselves and our relations to divinity is the biggest thing we have to comprehend; for it would set us free.

## MAKING OF MANY BOOKS

A distinguished author, Miss Agnes Repplier, spoke plainly to the publishers at the National Book fair, in New York City, accusing them of submerging all chances of immortality for today's best books in a flood of others unworthy of publication. "From the author's point of view," she said, "there are a great deal too many books in the world."

It is an old complaint, perennially recalled in the phrase "of the making of many books there is no end." But Miss Repplier added another accusation to her charges against the overproduction. "People are finding out," she said, "how perilously easy it is to write a book and how comparatively easy it is to have one published."

There was once a wide gap between the book bound in covers and the more ephemeral literature that is quickly written, quickly read and quickly forgotten. Nowadays that kind of writing is by all means likely to become a book. Among the mammoth output of the publishers' presses there may still be works of genuine and enduring worth, but lost to future fame almost as surely as the imaginary needle in the mythical haystack.

## HAPPY OMEN

One very excellent sign of the times is the fact that contributions to organized charities have gone substantially upward this fall.

In 78 cities that have been collecting community chest subscriptions of late, more than \$28,000,000 has been paid in. In most of these cities final figures are not yet available; where such figures are at hand, they show that most cities have passed their objectives and have collected more money than they requested.

It has been hard for the charities, in the last few years, to get the money they need. For one thing, people have not had so much to give; for another, the fact that the government is feeding and sheltering millions of people has led to a mistaken assumption that private charity has less to do.

This fall money is more plentiful. It appears, too, that people are realizing that the organized charities still have a tremendous load to carry, and are contributing accordingly.

Sociologist says woman is only 97 per cent emancipated. But that would seem to comprise considerably more freedom than is possessed by the average man.

Another way to get yourself hated is to talk sense to people who expect folly to pay them a profit.

Probably the most hazardous of all occupations just at present is that of being an innocent bystander in Spain.

## FARM METHODS

We had some habits on that backwoods farm  
That could be carried over to these days.  
I know you do not think it any harm  
To poke fun at our patient plodding ways;  
But we were better to our horses then  
Than some employers are to their old men.

When our plow horses had served us all his life,  
We didn't turn him out to face the gloom,  
And fill his ending years with bitter strife.  
On our crude farmland there was always room  
And fodder for a servant, and the glow  
Of sunset fields when old age laid him low.

We treated human beings the same way.  
Our hired man, until his hard life's end,  
Was certain of a bed at close of day,  
And never lacked the warm hand of a friend.  
We did not shirk responsibility,  
In those far days of happy memory!

## More Woe In Store

By BRUCE GATTON

A creditor is supposed to be happy when a deadbeat debtor unexpectedly drops in, examines the writing on his cuff, and reaches for his wallet. But there are reasons why Americans should be anything but joyous over the news that France and England are getting ready to settle up.

Between them, these two nations owe us slightly more than nine billion dollars. Both of them are several years overdue on payments. Undoubtedly some scaling-down arrangement will be made before either resumes payments.

Now, this country could use an extra nine billions very nicely indeed. It could use the money even though the payments were strung out over 50 years or so and were so adjusted as to total far less than nine billions. But it would be just as well to look at the background, first, and see why our former allies at last are preparing to pay.

We don't need to look far—no farther, probably, than the Johnson act, which provides that no nation which is in default on its debt to this country can float any new loans here.

Keeping one eye on the Johnson act, let us see what might happen in the event of debt settlements being reached.

France and England resume payments. They pay for one year, perhaps two. The total sums paid, compared with the totals owed, are insignificant—a few millions all told.

Then comes this new European war which everyone is forecasting. At once France and England need all manner of war supplies, just as they did in 1914. The one great, adequate, convenient market is America. They turn to it at once.

They need supplies in such abundance that they cannot possibly pay for them in cash. To buy what they need they must float loans in this country—just as they did 20 years ago.

Having resumed payments on their old debt, they no longer are technically in default. Consequently they go ahead, float their loans, place enormous orders for guns, shells, submarines, and foodstuffs—and we are right back where we were in 1916.

That is to say that we would once more be silent partners in a European war. We would be the workshop and the granary for one side in a great conflict. That fact would be a standing invitation to the other side to disregard our rights as neutrals and provoke us to open hostility.

Even if with great good luck, we get by that hazard, what would happen? Our creditors might lose—in which case old debts and new debts alike immediately would go into default. Or they might win—in which case we would immediately become Uncle Shylock all over again, with ultimate default obliged to live under the laws of Mussolini, Hitler or Stalin.

The truth about ourselves and our relations to divinity is the biggest thing we have to comprehend; for it would set us free.

## A BOOK REVIEW

## PICTURES ENGLAND'S YEARS OF TRANSITION

"Honorable Estate," by Vera Brittain, is the successor to her best selling book, "Testament of Youth," which appeared in this country several years ago. As "Testament" was the record of a dead and lost generation, this new volume is the record of the England which bred the lost generation and commemorated it after the war.

"Honorable Estate" is not only the story of three marriages, but a novel about the years that changed more than marriage, culminating in the world crisis of 1914. Each of the three marriages reflects a social mind, and through these minds is depicted the social history of England from 1914 to 1930. Miss Brittain has sought to give life to the struggles, doubts, experiments, and crises in the lives of men and women during those years of transition.

The three marriages are those of the bullying and dogmatic Rev. Thomas

Rutherford and frustrated Janet, who spends her life in a futile struggle for women's rights; of Stephen Allenvyne, wealthy master potter, and Jessie, who had been a governess, and finally of Dene, son of the Rutherford family, and Ruth, Allenvyne's daughter, whose career in politics ultimately vindicates the truth and Jane.

The novel has moments of real power and beauty. Ruth's unorthodox wartime love affair with a young American, and the suicide of her brother Richard in the trenches, are two memorable high spots in the book.

Miss Brittain writes with deep emotion and powerful conviction.

But only at rare moments does she get her emotion across to the reader. That is the tragic flaw in what should have been a very important book.

THE STATIONARY GLOBETROTTER—Sam Alexander is the operator of the car ferry across the south arm of Lake Charlevoix in northern Michigan. The arm is about 600 feet wide between docks, and Alexander makes no less than 1,500 round trips over it every year. He has been ferryman for the last 37 years, aggregating a mileage of more than 15,000 for the period, while his home is about 400 feet from the west dock.

A dozen times in his clowning career, they have sung a swan song for Jimmy Durante, the noisy, gleaming-eyed zanie. A good entertainer out of the Coney Island halls and all that, they murmured, but fit only for a rowdy cellar cabaret.

To me, Jimmy is only mildly amusing. A few minutes of his slap-bang and I'm ready to call it a day. But there is a lesson in his up-and-down career. The lesson of the fellow who believes thoroughly in himself and will not accept an adverse verdict. Jimmy thinks he is the funniest man in the world and won't be talked out of it.

He believes in himself so firmly that his faith becomes contagious. When he broke away from his two partners, Clayton and Jackson, there were those who said his solo would not last long. He made a hit in a musical revue and the movies grabbed him. For several films he looked as a big laugh getter as W. C. Fields, but the future faded and Jimmy found studio executives giving him the run-around. And there he was with his Hollywood hacienda and time on his hands.

Instead, he packed up and set sail for London. In a few weeks old world drabbed back he was flopping all over the place. The English did not take to his antics. But that did not discourage Durante, and before he came back to America he had won quite a hunk of London acclaim. He had reached them with his unquenchable laugh.

So now he is the smash hit of Cole Porter's current revue. A revue with a boisterous book and little else. But Durante makes it a grand show. He's riding the top wave again. The movies will be after him, of course. And so it goes.

A friend of Chauncey Olcott tells me the history of his most famous song, "My Wild Irish Rose." Olcott, born John Chancellor, had an Irish mother and an English father. His birthplace was Buffalo. One summer he took his mother back to her native County Wicklow, and as they were riding along the country roads of that section, en route to Cobh, then called Queenstown, to depart for America, they passed a little thatched dwelling.

"There, John," said his mother, "is the wild Irish rose." On the ship that brought him home he wrote the words and music of "My Wild Irish Rose."

And someone else tells me of Nat Goodwin's famous toast to the beautiful Edna Goodrich when on their honeymoon. Lifting his glass, he said: "You have a face that would stop a clock. It is so fair that even time would stop to linger there."

LATEST report from Washington has it that postal officials are planning a new airmail stamp to be issued next year with the introduction of trans-Atlantic airmail service. Flying experiments still must be conducted, but plans have gone forward so far that it is almost certain a trans-Atlantic air route will be an accomplished fact next summer. And the "Trans-Pacific" stamps, first issued in 1935, and now being used on Clipper mail to Manila would need a counterpart for postage across the Atlantic.

An experimental Clipper flight has been made from Manila to Hong Kong, pointing to possible completion of this last link across the Pacific, although there is some belief that Macao is in the running as the last port of call. The whole arrangement is well up in the air.

The government still is experimenting with the electric eye, to more efficient perforation of stamps. Only the carmine two-cent stamp is used, because this is one of the least responsive to the electric eye. If the machine works well with this stamp, it should do better with the other colors.

haven at the villa of Mr. and Mrs. Herman Rogers. Edward spent the day at rural Belvedere castle.

The longer he could delay a showdown on the constitutional crisis concerning his right to marry whom he chooses, the better appeared his chances of rallying public opinion.

The average reaction of the young Englishman, who admires the king, is "let him have her." There is growing belief here that the same reaction prevails throughout the empire, although Baldwin claims sufficient backing from the dominions to crush any attempt to pass legislation permitting Edward to have Mrs. Simpson as his wife but not as his queen.

There was indication, too, that that position has grown against any quick effort to force abdication.

Lord Rothermere, powerful British publisher and brother of the late Lord Northcliffe, in an interview in the London Evening News asserted a "concerted effort" was being made to hurry the king from the throne and opposed this with the warning:

"No government, which, on this matter of supreme importance, runs counter to the wishes of the people of England can survive."

"You cannot smuggle the greatest living Englishman off the throne of England during the week-end. Time must be given for a solution to this matter. The present haste is indecent and is giving rise to unpleasant rumors affecting high political and other personages."

The Rothermere expression seemingly threw to the king the support of the Northcliffe dynasty in the fight against government and church opposition to his projected marriage.

It was the influence of Lord Northcliffe's Daily Mail which drove out Asquith and made Lloyd George prime minister during the World war.

CANNES, France, Dec. 5.—(AP)—Wallis Warfield Simpson tonight ended her two-day flight across

southern France and was driven at great speed through the gates of the villa belonging to her intimate friends, Mr. and Mrs. Herman Rogers of New York.

The car bearing Mrs. Simpson, her secretary and a bodyguard, roared through the opened gates of the villa at 11:45 p.m. while a crowd of the curious scattered for safety.

After the car entered, the gates were slammed shut while British and French detectives joined a guard of local police.

They warned hundreds of craning bystanders gathered outside the villa that they "might as well go home because she's tired and wants to sleep."

CANBERRA, Australia, Dec. 6 (Sunday)—(AP)—It was unofficially reported tonight that the Australian cabinet received secret information that King Edward was likely to abdicate Britain's throne Monday.

This report came after Prime Minister Joseph Lyons telephoned London several times and then announced a special session of parliament for the accession of the Duke of York.

The full cabinet meets Monday.

Should Edward abdicate Monday, it was declared, parliament would have to pass an act of complementary legislation to provide for the accession of the Duke of York.

NEWTON D. The new courthouse will take the place of an antiquated structure that has been in use since 1882. The original building is of an architectural design that was conventional in the period following the war between the states, was erected at a cost of \$10,000. The new courthouse will be a modernized version of classic design, similar in many respects to the Ouachita parish courthouse in Monroe. The building will be of stone and reinforced concrete and columned porticos will feature the main entrance on the east and west sides of the structure.

# SPORTS Chatter

BY J. O. V. LOFTON

THANKS FOR THE FAVOR  
The selection of Pittsburgh to represent the east in the Rose Bowl "classic" brought about a storm of protest from all directions, but that will subside within the next few days and then the coast will start the old "build up" for the Pasadena game. However, there's a much more lasting effect than any temporary criticism that such a selection was certain to cause.

When University of Washington athletic authorities ignored Louisiana State and Alabama they brought about solidification of the Southeastern conference that had not existed before. True enough, relations between conference teams were cordial enough, but never before has anything emphasized the necessity for "going down the line" for one another as did the "slight" on southern football.

Southern sports writers' comment on the selection was interesting but the significant phase of the opinion expressed all over the conference was the plea for united action toward making the Sugar Bowl game the outstanding post-season football attraction of the nation.

The Southeastern conference is in an excellent position to do that for the very good reason that the Big 13 always has at least one outstanding team among the nation's major eleves. Rose Bowl records bear out that statement. If the Southeastern agrees to send its championship team to the Sugar Bowl each year, the Pasadena gang will be forced to pick some northern or eastern team as the Pacific Coast champion's opponent, and that won't work so well. As Los Angeles writers have pointed out many times, fans out there prefer a southern team because teams from Dixie have been both strong and colorful in the past.

Thus the New Orleans game is in an excellent spot to become the ace attraction of the nation. And southern fans should give a vote of thanks to the Rose Bowl for forcing the situation.

Now the next move is up to New Orleans. And unless all signs fail, there'll be a big new stadium to accommodate Sugar Bowl fans next year and then we won't have to wait until the Coast makes up its mind about the Rose Bowl thing.

**SOLD'N TINSLEY**

Gaynell Tinsley, Louisiana State's American repeater, spent most of last week in Monroe and, quite naturally, received an enthusiastic welcome from local fans. When Tinsley arrived, the folks wanted to meet him because he was a widely-publicized football star. After he'd been here a day they found that he was a quiet, pleasant, modest young man who carried his football laurels gracefully and whose head hadn't expanded a fraction of an inch since the day he left Homer High school to find gridiron glory at Tiger stadium.

In other words, Monroe was thoroughly "sold" on Tinsley, and not just because he's an All-American end.

Tinsley—nobody calls him Gaynell—isn't going to join the team at the first opportunity, which is on his publicity. He has had several offers to play professional football, yet he hasn't given any of 'em serious consideration. He has adopted a common-sense attitude toward all such opportunities to make his name pay him dividends.

"If I were offered a huge sum of money to play pro ball, I might consider it," he said. "In fact, right now I'm thinking about an offer to join up with Rock Reed on a professional club, but we haven't decided anything definite yet. If I don't team up with Rock, I don't think I'll go in for pro ball."

Tinsley now hopes to get a coaching job when he leaves L. S. U. The new physical education requirements in Louisiana schools will provide openings for many young fellows like Tinsley and the Tiger star hopes to land a good job under the new set-ups. Quite naturally, he will turn his talents to teaching football if the opportunity presents itself. Tinsley apparently wants to lay his foundation for a coaching job now instead of playing pro ball for a few years and then striking out for a permanent connection when other all-Americans will be in the spotlight and the name Tinsley won't command the attention that it does now. He seems to have the right slant on things.

Speaking of Tinsley, we're reminded of the crack made by Bill Ruple, co-captain and guard at Louisiana Tech last year. Tinsley's home is just over the hill from Bill's parents' farm at Ruple, between Homer and Hayesville.

About this time last year, a bunch of us were kidding with Bill, and somebody asked him if he'd "make" the all-American team. "Now, I don't guess so," Bill cracked. "They tell me Gaynell Tinsley is going to make it and that lets me out. They couldn't have two guys on it from Ruple."

**SPORTS FODDER**

Bolton eliminated Neville and Ouachita from the district championship race—both by one touchdown. What would have been the result if the two Monroe teams were combined?

Ralph Kercheval, former Kentucky star who boots 'em for the professional Brooklyn Dodgers now, kicked one that carried 91 yards in the air. And yet he says he's going to quit after the present campaign.

Believe it or not, Jack Dempsey says his favorite sport is boxing.

Georgia Tech football players skip tea between the halves.

The Brown Paper mill apparently has a great basketball team this year. The only improvement we can think of right now is a little gravel around the gym. Yep, we got stuck Wednesday night.

While you're applauding L. S. U.'s Tigers, why not pause long enough to give Bernie Moore a big hand? Bernie, you know, was the coach who relieved Buff Jones until some "big shot" could be hired to take Buff's place. Bernie's still doing business at the same old stand, and he seems to be doing right well at it, too.

Charles Lemak, the L. S. U. back who performed for Northeast Center last year, isn't the only Indian who's doing well this season. Pal May, who went to the Texas School of Mines, was selected as an all-conference line-man the other day.

They say Cincinnati and Pittsburgh are delaying their offers for Dizzy Dean because the Great Dean's hard to hand". If a trade isn't completed within the next week, you can expect Diz back in a Cardinal uniform next season.

The Cotton States league wants Monroe back in the circuit. Who'll be the first volunteer to start the campaign for the return of professional baseball?

Madison Square Garden took a big trimming last week in the Ross-Jannazzo bout. They guaranteed Ross \$32,500 for his part, and only 8,000 customers turned out.

Laurie Stevens is rated the country's No. 1 lightweight. Lou Ambers, Pedro Montanez, Baby Arizmendi and others to the contrary notwithstanding.

A \$4,200,000 "handle" was reported for the 15-day racing meet at Bowie.

We're still wondering what Pittsburgh sports writers think of the Rose Bowl selection. . . .

**DATES SET FOR RUSTON RALLIES**

More And Better Publicity Chief Concern Of Rally Committee

**RUSTON, La., Dec. 5. (Special)—** Though appreciating the publicity newspapers have given to the North Louisiana High School Rally Association's many events in the past, officials of the organization "would like to have more" of the same.

That was emphasized here today at a meeting of the rally executive committee members, who also approved dates for the various activities sponsored by the association and held at Louisiana Tech. Officials attending the meeting were A. A. Smith of Haynesville; E. R. Hester of Arcadia; C. L. Madden of Choudrant; G. E. Jones of Arcadia; J. A. Garrett of Collinston and M. H. Folk, Jr. of Ruston, the latter being general secretary of the rally.

The rally now hopes to get a coaching job when he leaves L. S. U. The new physical education requirements in Louisiana schools will provide openings for many young fellows like Tinsley and the Tiger star hopes to land a good job under the new set-ups.

## MINSTREL SHOW PROMISES FUN

Unusually Good Talent Said To Be Available Here

That Monroe and West Monroe possess unusually fine amateur talent was the assurance of Mrs. W. Hardie Daly of Palestine, Tex., who is an experienced director of amateur minstrel shows and who came to Monroe especially to direct the show to be given under the sponsorship of the women's auxiliary of the Missouri Pacific Booster club, at the Ouachita Parish High school auditorium, Thursday at 8 p.m. She expressed herself delighted with the ability that has been shown and assured that the show will prove one of the best ever

staged here. The performance will be a benefit one for the Good Fellows Fund.

There will be 50 people in the cast and an old-time minstrel favorite, Elmer Richards, Jr., will serve as interlocutor. Twenty-black-faced comedians, half of whom are women, will serve to carry on the fun. There will be solos, choruses, dance numbers and specialties galore and the performance will last for one hour and one-half, every minute of which will be filled with "something doing."

Rehearsals are in progress nightly and the cast will be in the best of condition for the night of the appearance, Mrs. Daly said.

### BIRTHS

Mr. and Mrs. A. W. Chapman of Archibald announce the birth of a son, Thursday night at St. Francis sanatorium.

JONESBORO, La., Dec. 5.—(Special) A son, Glenn Wayne Cobb, was born to Mr. and Mrs. R. J. Cobb of

Jonesboro on December 1. The maternal grandparents are Mr. and Mrs. W. H. Rooks of Jonesboro and the paternal grandparents are Mr. and Mrs. W. H. Cobb of New Orleans.

BASTROP, La., Dec. 5.—(Special) A daughter was born Saturday, November 28, at the Morehouse hospital to Mr. and Mrs. Elmo Thompson.

### MARRIAGES

#### KRAUS-JOHNSON

HARRISONBURG, La., Dec. 5.—(Special) Miss Mary Foard Johnson of Harrisonburg and Henry Markham Kraus, Jr., of Wink, Tex., were married December 1 at the parsonage of the Methodist church in Winnboro.

The ceremony was performed by Rev. Briscoe Carter, pastor of the church. It was witnessed by a few close relatives and intimate friends.

Following a honeymoon trip, the couple will establish their home in Wink.

Mrs. Kraus, a daughter of Mr. and Mrs. Hugh F. Johnson of Harrisonburg, is a graduate of Manifest High school. She is a popular member of the younger set.

Mr. Kraus is a son of Mr. and Mrs. Henry Markham Kraus, Sr., of Wink.

#### WILSON-ALBRITTON

FERRIDAY, La., Dec. 5.—(Special) Of outstanding interest to their many friends from the parish is the marriage of Miss Jane Elizabeth Albritton, daughter of Mr. and Mrs. Walter Albritton of Wildsville, to Mr. Wilbur Cooley Wilson, also of Wildsville, son of Mr. and Mrs. C. W. Wilson. The marriage was solemnized by the Rev. B. A. Briggs, pastor of the Jonesville Baptist church, in Jonesville, with Marcus Schuch and Mr. and Mrs. O. J. Johnson of Ferriday as witnesses.

The bridegroom, who is employed by a local compress, is a graduate of the local high school. While attending school, he was one of the stellar high school football, basketball, baseball and track athletes. Since his graduation he has been connected with the compress.

The bride is a graduate of the Block High school of Jonesville and formerly attended the local high school. The marriage is the culmination of a high school romance.

Following a brief honeymoon, they will return to Wildsville, where they will make their home with Mr. and Mrs. C. W. Wilson.

CHILD UNDERGOES OPERATION

Ellenor Jean Pettis, 7-year-old daughter of Mr. and Mrs. Alex B. Pettis of Bastrop, is a patient at Vaughan-Wright-Bendel clinic, where she underwent a major operation Saturday.

### CONFERENCES FOR STUDENTS PLANNED

Dean S. A. Caldwell of the Northeast Center of Louisiana State university has proposed a new plan whereby students can gain the benefit of conferences with their instructors.

In order to carry out the plan, an instructor has been made advisor to a group of students. When a student is confronted with a problem, he will

be made to feel free to ask for assistance from his instructor. In this way a closer bond of union will be formed between teachers and students it is believed.

In case of poor grades the advisor will summon the student into a conference and together they will endeavor to find a solution to what may have seemed a problem that could not be otherwise solved.

The plan has been in effect only a short time but it is said to have already produced unusually good results.

**TEN ADJUDICATIONS**  
JENA, La., Dec. 5.—(Special)—A vast contrast between last year's poor conditions and this year's good conditions, only 10 pieces of land went back to the state in a local tax sale, whereas last year 45 pieces were returned. Only 31 pieces of land were sold at the Jena courthouse. The land on sale was assessed at an amount slightly over \$200 and the fact that such a small number of tracts went to the state illustrates the improved business conditions that now exist.

# ARKANSAS WINS S'WEST CONFERENCE TITLE

PASSING PORKERS  
EKE OUT 6-0 WIN  
OVER TEXAS TEAM

Aerial Attack In Third Quarter  
Clinches Victory For  
Razorbacks

LITTLE ROCK, Ark., Dec. 5.—(P)—Dwight Sloan, Slim University of Arkansas junior, drove his passing Porkers to their first undisputed Southwest conference championship and a 6 to 0 victory over the University of Texas here this afternoon on a field reduced to a morass by a cold driving rain.

Approximately 7,000 madly cheering fans braved the elements to witness a game drab throughout with the single exception of Sloan's sensational scoring drive that culminated in a touchdown pass across the goal line into the waiting arms of Jim Benton, all-Conference end.

Texas had every advantage in statistics except for passing and the Arkansas aerial circus proved that even a December storm couldn't check its effectiveness.

The Arkansans eleven completed eight out of 16 forwards for a total of 71 yards.

The scoring break in the game of punts and fumbles came on a forward pass interception late in the third period. Texas had the ball on its own 45-yard line. Halfback Wallace Lawrence dropped back and heaved a long forward intended for Collins. Sloan, circling behind Quarterback Jack Robbins, who covered Collins, took in the forward on his own 30. Cutting around in a wide sweep, he dashed back up and across the field through the disorganized Texans before he was finally smothered on the Texas 44.

Sloan then shot a forward to Martin for eight yards and another neat pass to Benton for ten more, giving Arkansas a first down on the Texas 25. Faking a pass, Sloan drove through the line for five and then heaved another pass to Benton for a first down on the Texas 13. Sloan again ran with the ball, slashing seven yards through the mud to the Texas six.

On the next play he shot a hard, fast one across the goal to Benton, who came up between two Texas backs to fold in the forward and stumbled on his face, safe with the winning touchdown.

## Ole Miss Battles Tennessee To Scoreless Deadlock

### Another Successful Grid Season Finished At Tech

Bulldogs Fail To Equal 1935 Record But Everybody Seems Satisfied

By Kenneth F. Hewins  
(World Sports Correspondent)

RUSTON, La., Dec. 5. (Special)—

Now that they have closed gridiron services at Louisiana Tech for this fall and have taken up the collection of uniforms, the worshippers are raising their voices in the benediction, pronouncing the season a success for the local varsity men, despite the fact that the Techmen this year did not have a "one-man team" by any means, the record shows that 15 individual players contributed points during the season. Fourteen of the Techmen made touchdowns, while another, Barnett, converted a point after touch.

Wallace (Jackie) Hanna of Minden, a halfback of high repute, was the top scorer for the Bulldogs, with 26 points including four touchdowns and two extras.

Guilford Carroll of Homer, who was about to get the "blues" along about mid-season because he couldn't accomplish the things he thought he should, turned out to be the second highest in scoring honors. He was good for three touchdowns and one point from placement, or a total of 19 points.

The season of 1936 was one in which the tide of favorable comment for the local eleven ebbed and flowed, with the low water-mark being reached upon two occasions: once, when the Techmen suffered a 12-7 defeat by the Mississippi State Teachers, and again when they tied Louisiana college, 6-6. The fans here had expected Tech to win both of those games; but they had greatly underestimated the ability of Tech's opponents in each case.

A contest in which Tech was defeated is generally regarded as the highlight of the year, an event which bestowed upon Tech a large measure of praise. That was the game with Tulane university, in which the Techsters held the Green Wave to a score of 13-22. Tech's performance against the Greenies brought forth the deluge of laudatory remarks—which goes to show that it does not always take victory to make the supporters support.

Though tribute to the Techsters totaled at times during the 1936 campaign, the Bulldogs wound up the season in the oft-mentioned "blaze of glory" by trimming the highly rated Illinois Wesleyan university Titans, 12-0, here on Thanksgiving afternoon.

The finale put a good taste in the mouths of Tech's followers, who now are standing by, satisfied with the season as a whole, while Coach Eddie McLane is dickerling with football mentors in the matter of making a schedule for 1937. The card is expected to be ready for announcement after the S. I. A. A. meeting in Birmingham, Ala., the coming week.

In the season just closed, the Techmen showed a weakness in scoring points after touchdowns. Totaling 153 points, the Techsters made 24 touchdowns and nine extra points,

By winning the \$5,000 Augusta, Ga., Open with a 72-hole total of 283, Ralph Guldahl, above, St. Louis, pro, took low stroke honors among professionals for the year. Guldahl, who just missed winning the 1934 National Open when he failed on a four-foot putt, has averaged 71.70 strokes in 61 rounds this season, leading Harry Cooper, his closest rival by a fraction.

S. M. U. RESERVES  
BEAT RICE, 9 TO 0

HOUSTON, Tex., Dec. 5.—(P)—Sudden outbreaks by fiery reserves brought a 9-0 victory for Southern Methodists' Mustangs over a battered Rice Owl in the season's football final here today.

Shot into the game after the first string had missed fire on two scoring chances inside the 12-yard stripe, the reserves had a touchdown within three minutes and quickly added the field goal.

Kenneth Goodson, "goat" of the Methodist eleven in several games, fired passes and jolted the tackles for most of the gains in a 65-yard drive to a touchdown.

Johnny Stidger hurried into the game and kicked a field goal from placement on the Rice 22-yard marker.

The defeat dropped Rice into a last place tie with the University of Texas in the final Southwest conference standings and shoved the Methodists, undefeated 1935 league champions, into fifth place.

GAINESVILLE, Fla., Dec. 5.—(P)—Mississippi State lashed out with one brilliant touchdown thrust today and ended a successful season by defeating a grimly fighting Florida team, 7 to 0.

Ike Pickle, playing his final game as a Maroon back, snatched a 30-yard pass from Bernard Ward in the first period and sprinted 20 yards across the Florida goal line. Then he sent a placement squarely between the uprights for the extra point.

Heading a Florida offense which usually found rough going against the staunch Mississippi State line was Walter Mayberry, only "Gator" back who could knife his way through the defense.

Long distance punting by Paul Brock helped Florida hold the superior Maroons out of dangerous territory most of the game, but his best efforts were usually matched by the versatile Pickle.

Some 7,000 spectators watched the struggle.

Florida threatened seriously only in the third period when Mayberry broke through the middle of the Mississippi State team for a 24-yard gain and started a drive that carried to the Maroon 19.

Ward stopped the march by snagging a Florida pass on his own one-yard line.

The Staters line took command of the situation after Ed Manning returned Pickle's punt to the Maroon 24 and smothered every Florida trial.

Late in the second period the smooth Mississippi State offensive started clocking off gain after gain but the whistle blew with the ball on the Florida 15.

The victory gave Mississippi State fifth place in the Southeastern conference with a record of seven wins, two losses—administered by Alabama and Louisiana State—and a tie with Texas Christian.

Florida finished its first season under Coach Josh Cody with four victories and six losses.

The staties gave the Maroons all the edge.

They compiled ten first downs to five for Florida, gained 131 yards rushing to 66 and took to the air for another 113 yards.

Florida made only 11 yards through the airways.

Hard-charging Mississippi State forwards effectively broke up the dangerous Florida passing attack—rushing the Heavers off their feet.

### MISSISSIPPI TEAM FIGHTS OFF VOLKS IN EVEN BATTLE

Scoreless Draw At Memphis Attracts 16,000 Fans For Bitter Tilt

By Don Whitehead

MEMPHIS, Tenn., Dec. 5.—(P)—The Mississippi Rebels halted Tennessee's great comeback campaign today by fighting the Volks to a scoreless tie.

The 1936 District Two Class B All-Star football teams were announced yesterday by the district Class B football committee, following a meeting of district committeemen at Waterproof Friday after the northeast Louisiana title game in which Waterproof's Tigers successfully defended their district crown against the Choudrant Aggies.

Only first and second teams, no honorable mentions, were announced by the committee.

First team:

Copes, Delhi ..... Right End

P. Stockstill, Waterproof, right Tackle

Johnson, Delhi ..... Right Guard

Hammonds, Choudrant ..... Center

J. Martin, Columbia ..... Left Guard

Pipes, Choudrant ..... Left Tackle

Howard, Lake Providence ..... Left End

Pat Pierce, Newellton ..... Quarterback

Malcolm Lightsey, Lake Providence ..... Halfback

Campbell, Choudrant ..... Halfback

The second team is: Bordes, Ferriday, right end; Pierce, Newellton, right tackle; Hennen, Choudrant, right guard; Oursou, Ferriday, center; D. Davis, Lake Providence, left guard; Ticheli, Columbia, left tackle; Wiggins, Waterproof, left end; Pierce, Ferriday, quarterback; May, Columbia, halfback; Dozier, Jena, halfback, and Simms, Delhi, fullback.

Three times in the second quarter the Vols had scoring chances with first downs deep in Rebel territory, but they were balked twice by the fighting Mississippi forwards and the third time by an intercepted pass.

Babe Wood, Vol substitute quarterback, electrified the crowd in the third quarter. He took Dave Bernard for a 20-yard run and reeled off 35 yards before being brought down, but the gain was nullified when the Vols were brought back to their 31 for clipping.

The final seconds brought the big thrill when Hapes intercepted Wood's pass on his 45 and ran to the end zone.

NEW ORLEANS, Dec. 5.—(P)—Settlement of a seven-day "sit down" strike at the Midland Steel Products company plant brought announcements today that 1,900 employees and thousands of workers on dependent automobile assembly lines will return to their jobs Monday.

The management of the steel company and officials of the United Automobile Workers of America, which called the strike November 27, reached an agreement late yesterday.

K. T. Keller, president of the Chrysler corporation, said that normal operations would be resumed in the Chrysler and DeSoto factories Tuesdays. Work had been curtailed because of a shortage of steel automobile frames fabricated by the Midland plant.

## SWEDEN DEVISES BUOY TELEPHONE

STOCKHOLM, Sweden.—(AP)—A submarine buoy telephone, by which a sunken craft can communicate with rescuers, has been adopted by the Swedish navy.

An ordinary telephone instrument is enclosed in a buoy that can be released to rise to the surface when a submarine is sunk by accident. The buoy, carrying telephone wires from the submarine, is equipped with a flashlight to attract attention on the water.

Another communications novelty is the "hydrophone," which receives sound impulses from the latex of the speaker and hence is not affected by nearby noises.

It is designed for use in such places and engine rooms and airships where there is so much noise that the speaker's voice would be drowned in an ordinary telephone.

bog up in the soft mud. They plan to pick up the trail from the other side early Sunday morning, aided by bloodhounds rushed to the scene from Jackson late Saturday.

At the spot where Cannon's saddle was found searchers picked up a number of cigarette butts and an empty package, indicating observers said, that he had either been at the place a long time, or was extremely nervous.

The spot where the prints of his hands were found in the muddy bank of the slough was more than a mile southwest of where the saddle was picked up, leading searchers to the conclusion that Cannon was traveling in a southwesterly direction during the day.

Bloodhounds were rushed here by plane from Jackson following a conference between Governor Hugh L. White and Irby Charpin, planter and leader in the search for the missing sportsman.

Taken to the spot where Cannon's

horse, which was found Friday night, had been tied to a sapling, the dogs were unable to pick up the missing man's trail. Their handlers said they would be taken back into the woods for another trial Sunday.

While ground parties paddled through the deep swamps, Jimmy Holsonback, one of the six men participating in the search, reported sighting a moving object which appeared to be a man near the spot where Cannon's riderless saddleless horse was found last night.

Holsonback said the object disappeared beneath a clump of heavy trees after he had circled over the place twice and that when he returned there more than an hour later vultures were circling over the same spot.

Charpin, who owns 25,000 acres of swamp and rough swamp land and whose home at Fliters has been turned into headquarters for the searchers, expressed the belief that Cannon has become temporarily unbalanced and is wandering aimlessly through the swamps, hiding from the planes and from the ground crews.

To support his contention the planter was alive, Charpin pointed to the abundance of hawks, persimmons, pe-

cans and water on which he said a man could exist indefinitely.

# BASHARA-MANSOR BOUT TOPS STADIUM CARD

• **TWO SYRIANS TO TANGLE IN MAIN BATTLE TUESDAY**

Rough Match Expected When Pair Of 'Villains' Take Up Old Feud

Ellis Bashara, the untamed Syrian from Oklahoma, will return to Roosevelt stadium Tuesday night for a crack at George Mansor, equally tough Syrian from Ohio, in the main event of the weekly wrestling show at the local arena.

Bashara, one of the most colorful grapplers to perform here in the past year, returns after an absence of more than a month, and he has sent word that he'll have some new tricks to spring on Mansor, and the customers.

There seems to be a feud between the two Syrians. Mansor, here last week, said he would welcome a chance to beat Bashara. According to the dope, there's a Turkish branch of the Syrian race and an Arabic angle. Bashara is a Turk, Mansor said, and George is an Arab. The Turks and the Arabs are more or less mortal enemies, and there's going to be plenty of blood spilled in the stadium ring when the two come together Tuesday night.

Bashara has been campaigning in the west and from all reports, he's been a real sensation. The former Oklahoma U. football and wrestling star is as rough as they come, and he knows all the tricks. He's been a crowd-pleaser here ever since he made his local debut about a year ago and a big attendance is expected to welcome him back to the stadium Tuesday night.

Mansor, who wrestled once or twice here a year and a half ago, returned to the local wars last week and gave Walter Podolak, the former Olympic weight lifter, a thorough going-over.

Mansor is even rougher than he was when he performed for the local fans before, and he made life miserable for the clean-cut Pole last Tuesday night.

There should be plenty of action when the two Syrians meet. They're built alike, short, stocky and powerful.

Each is well versed in the tricks usually sprung by the mat "villains" and they're both willing to take two to get over one solid smack. Bashara probably is the meaner of the two, but Mansor certainly should be able to run him a close second as a rough-house artist. The one who gets over the most telling punches probably will be declared the winner, for it's a cinch neither will pay any attention to the rules or the referee.

Promoter Phil Lisotta said last night that he was attempting to bring two good boys here for the semi-final but he hadn't completed negotiations for the match and thus wasn't able to make any announcement as to the identity of the principals of the first part. Officials who will handle the match also had not been selected last night, Lisotta said.

The main event will be the usual best two out of three falls match, with a two-hour time limit.

Aggies Score Twice In Third Quarter To Trim New Yorkers, 13 To 6

TYLER, Tex., Dec. 5.—(P)—The flying feet of Dick Todd and Bob Nesusta ground the Manhattan College Jaspers of New York into a 13-6 defeat before a crowd of 5,000 fans here today.

The Aggies scored twice in the third period, Nesusta leading a one-man drive from the Manhattan 38-yard line and Todd later racing around the Jasper left end for 76 yards and the counter. Byrne scored for Manhattan on a plunge from the one-yard line.

The game was played on a muddy field but this did not prevent both teams trying all their plays. The backs held their footing remarkably well.

The Manhattan touchdown came as the result of two penalties in a row, the last giving the Jaspers the ball on the Aggie one-yard stripe.

A. and M. gained the ball on the Manhattan 38-yard line on a fine punt returned by Waylon Manning. Nesusta smashed the line twice and made a first down on the Manhattan 25. Shockley passed to Nesusta for six, then Nesusta crashed tackle for 14 more. Nesusta made one and a pass from Shockley to Seago carried to the Manhattan one. Nesusta circled right end for the touchdown. Morrow added the point.

Things picked up in the third when Nesusta led the smashing surge over the Jasper line. The Aggie back was injured but remained in the game long enough to score the touchdown. Boyd replaced him and missed the try for extra point.

• **WARRING A. A. U. FACTIONS BRING FIGHT INTO OPEN**

Delegates Wrangle Over Every Subject Brought Before Convention

By Alan Gould

HOUSTON, Tex., Dec. 5.—(P)—The amateur athletic union's 48th convention, due for a complete shakeup of administration before it closes tomorrow, battled today through a broken field of arguments that brought out the open, for the first time, echoes of the stormy 1935 split on Olympic issues.

Despite warnings at the outset from President Avery Brundage against "bickering" and "sniping" that threatened to wreck the organization, the delegates wrangled most of the day over subjects ranging from a sharp factional fight over the seating of the District of Columbia's representatives on the board of governors to furious debates over new legislation barring backhand punches in amateur boxing.

During the double-barreled session that found Brundage constantly wielding the gavel to halt shadow boxing or verbal passages at arms, the convention accomplished the following results:

1. Defeat of the administration proposal for an "Olympic tax" on admissions to athletic events by an overwhelming vote.

2. Retention of the metric system of measurement for national track and field championships, with "local option" prevailing otherwise for club or sectional competition.

3. Adoption of numerous technical rules—changes in swimming, boxing and track and field sports—all designed to bring American regulations into conformity with international standards.

4. Partial lifting of restrictions against the amateur eligibility of girls with retention of the so-called "90 day clause" for probationary purposes and with discretionary power resting in the hands of district registration committees.

5. Retention, for the time being, of proposals to establish a new definition of active and associate memberships in the A. A. U. because of numerous border-line cases developed by the effects of the depression years.

The convention's "harmony program" came close to being tossed out of the window during the height of

the day's most acrimonious discussion. This centered around the election of District of Columbia delegates to the board of governors.

It was touched off when Charles L. Ornstein of New York, floor leader for the forces backing Jeremiah T. Mahoney for the presidency, challenged the nominations submitted by Winfree E. Johnson, secretary of the D. C. association.

Before the turmoil subsided, Ornstein drew a sharp retort from Dietrich Wootman of New York, while Major Patrick J. Walsh, president of the Metropolitan association and rival of Mahoney for the national presidency, seized opportunity to challenge the status of Herman Oberhuber, here on behalf of the National Cycling association and a Mahoney adherent.

The upshot appeared to be that both Johnson and Edward Rosenblum, suggested by Ornstein as a substitute for Delegate James Sullivan, would both be seated tomorrow on the board of governors, thereby splitting the vote of the capitol delegation.

Developments otherwise strengthened the prospect that Mahoney, beaten on the Olympic issue a year ago and replaced in the chair by Brundage, would be returned to office by a decisive vote, thereby putting the 1935 opposition party back in power.

The topoff on the convention trend came early with the defeat of the "Olympic tax" proposition. Brundage, elaborating on the original five cent "contribution" idea, suggested a substitute plan calling for collection of five cents on all admissions to athletic events up to \$1 and ten cents for tickets of higher price.

Led by Thomas T. Relyea of New York, who described it as another "nuisance tax," opposition was based largely on the ground the plan would nullify present sources of Olympic revenue or contributions.

ELEANOR APPROVED!

HOUSTON, Tex., Dec. 5.—(P)—Mrs. Eleanor Holm Jarrett, under official suspension by the National A. A. U. today virtually had five new American backstroke swimming records alongside her name in the union record book.

The backstroke star, dropped from the United States Olympic women's swimming team while the Yankee squad was en route to the Berlin games, made claims for records in the 100, 150, 200 and 220 yards and 200 meters backstroke over short courses.

Mrs. Jarrett also shared in the 300-yard medley relay record, being teamed with Elsie Petri, and Dorothy Dickinson.

• **HUNT QUINTET OF TEXAS TO PLAY HERE WEDNESDAY**

Local Millers Meet Southern A. A. U. Champions Here Friday Night

Brown Paper mill's new basketball team which "warmed up" with a 65-26 victory over the Dodge quintet in a free game last week, will face some real opposition this week when they play the Hunt Oilers of Arp, Tex., Wednesday night and the Bogalusa quintet, here on behalf of the National A. A. U. tournament at Denver, and with additional strength this season, boasts an even more formidable array of basketball talent.

The Brown quintet also can look for trouble when they meet the Southern A. A. U. championship five from Bogalusa. The Bogalusa club advanced to the third round in the National A. A. U. tournament at Denver, and with additional strength this season, boasts an even more formidable array of basketball talent.

Six members of the Bogalusa club tower over six feet, while the other six players range from five feet, nine inches in height to five feet, eleven.

Both games will start at 8 o'clock and the admission charge for each will be 50 cents, Manager Phillips said last night.

• **SICILY ISLAND PLANS ANNUAL TOURNAMENT**

SICILY ISLAND, La., Dec. 5.—(P)—The annual invitational basketball tournament will be held at the Sicily Island school January 7 and 8, it has been announced by C. B. Coney, principal of the school. Invitations to 40 schools in this section have been posted.

According to Mr. Coney, boys' and girls' basketball teams will participate in the tournament, and trophies will be awarded winners in each division. Thirty-five teams played in the tournament last year, and it is expected that more will enter this year. The junior high school tournament will be held January 29 and 30, at which time boys' and girls' teams will participate.

Teams wishing to enter the tournament have been asked to communicate with Mr. Coney.

• **GRANVILLE VOTED BEST RACE HORSE**

Nation's Turf Writers Select Woodward Ace in Nationwide Poll

BALTIMORE, Dec. 5.—(P)—Granville, William Woodward's fine colt which won a half dozen big stakes races last summer after tossing his rider in the Kentucky Derby, was named today as the best race horse of the 1936 season by the nation's turf writers.

A poll conducted by the Turf and Sport Digest listed the son of Galan Fox not only as the best three-year-old by an overwhelming margin but as the best all-age racer.

Fompson, owned by Jerome H. Loucheim of Philadelphia, was named the best two-year-old filly.

There was no noticeable doubt in the minds of the 238 writers participating in the poll as to Granville's superiority.

Alfred Gwynne Vanderbilt's Discovery, leading money winner of 1935, was runner-up in the all-age division.

After his misfortune in the Kentucky Derby, Granville went on to finish first in seven of his ten starts, winning a total of \$102,250.

# Crowds Roam London Streets Shouting Support For Beloved Young King

## COMMON PEOPLE CRY 'DOWN WITH STANLEY BALDWIN'

Sentiment Throughout City Swells As Partisans Choose Champions

LONDON, Dec. 5.—(P)—Chanting crowds, paced by blue-coated bobbies, roamed London today shouting themselves hoarse in praise of King Edward and in denunciation of an obtrusive government.

From Mayfair, the ultra, to Cheapside, the poverty-stricken, the winding processions tramped.

In loud choruses they proclaimed their loyalty for the democratic ruler with a self-nominated leader springing up at intervals to ask:

"Do we want Edward?"

"Yes!" screamed his followers, jubilant in their acclamation.

The query came again:

"Do we want Baldwin (the prime minister)?"

"No-o-o-o-o-o!" came the reply, long-drawn and sour.

Sentiment throughout the city swelled as partisans chose their champions: King Edward, in love with American Mrs. Wallis Simpson, or Prime Minister Baldwin, head of a constitutional government determined to prevent the match.

The demonstrations were noisy but orderly. The crowds obeyed commands from perspiring squads of helmeted police, rushed from one district to another to break up the jams.

Before Buckingham palace, in Trafalgar square, through historic Haymarket to Piccadilly Circus, near official Downing street, down Whitehall, anywhere the ruler's supporters gathered the cry was always the same: "Edward is right! Baldwin is wrong!"

Outside the royal palace, a group of elderly women took up a new chant: "Flog Baldwin! Down with the bish—ens!" When they were dispersed by police, they marched away singing "God Save the King."

Individual expressions of opinion differed from warm support for the monarch to frigid criticism of his attachment for Mrs. Simpson.

"I wonder how she caught him," said a housewife. "If it is good looks he wants, surely there are plenty of English factory girls who are pretty enough to fill the bill."

A girl who works in an office asserted, "We'll never stand for Mrs. Simpson. The king is the defender of the faith, head of the Church of England and a number of other things. Oh, why couldn't she have kept out of all this? It's such a mess."

The king's falling in love with a divorcee is "not natural," commented a Smithfield butcher.

"In fact, it's just another demonstration to his subjects he's as human as they, which he's already demonstrated in various ways—by dancing with factory girls, drinking tea with poor people, and other things."

The Archbishop of Canterbury is the person behind "all this," declared a government employee.

"He is sitting behind the scenes twiddling his thumbs after letting the Bishop of Bradford open up the whole subject of the church's attitude on divorce."

"It's a bloody shame all this had to happen," said a charwoman, gloomily. "I am sorry for poor Queen Mary. I think she's been through enough without this. Mrs. Simpson? Never."

A bus conductor and his passenger argued at odds on the situation.

"The king should marry into royalty and not a society woman," the conductor said flatly.

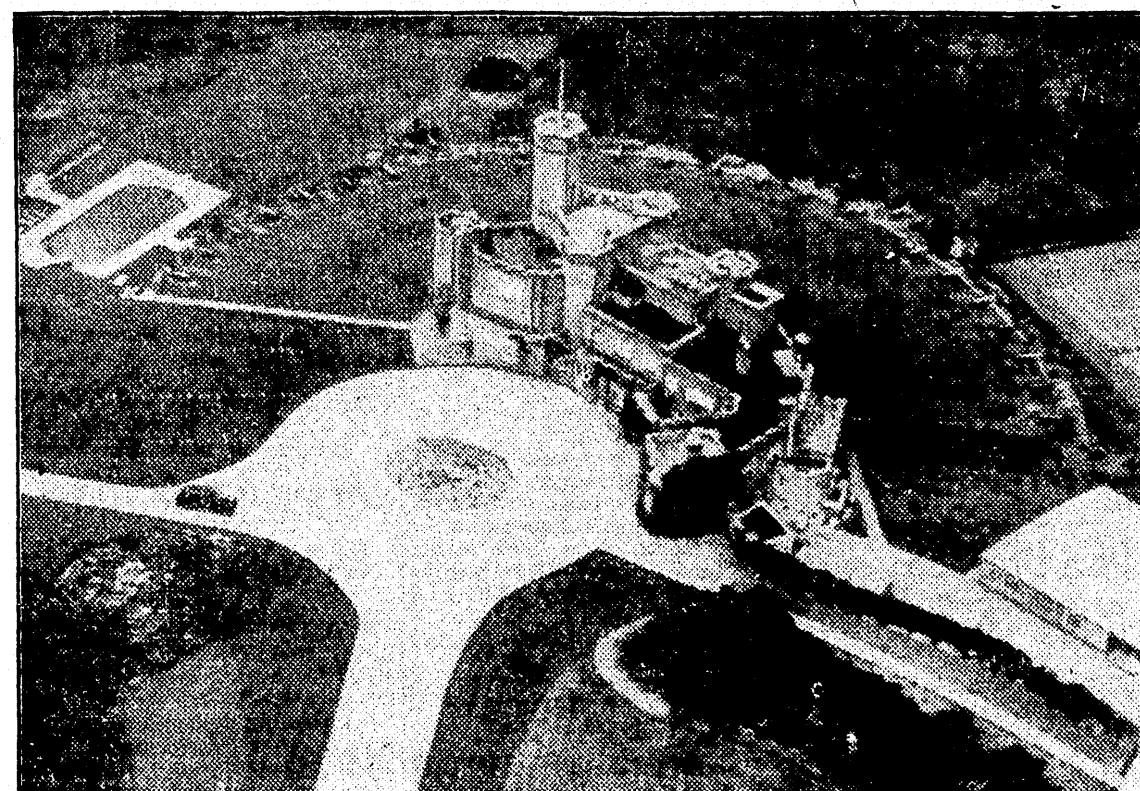

"At least we've got somebody at the top who's willing to get things done for the unemployed," replied a passenger. "The king's my choice no matter what he does. These government officials make me sick."

"What's the difference so long as I keep my job?" grinned a messenger boy.

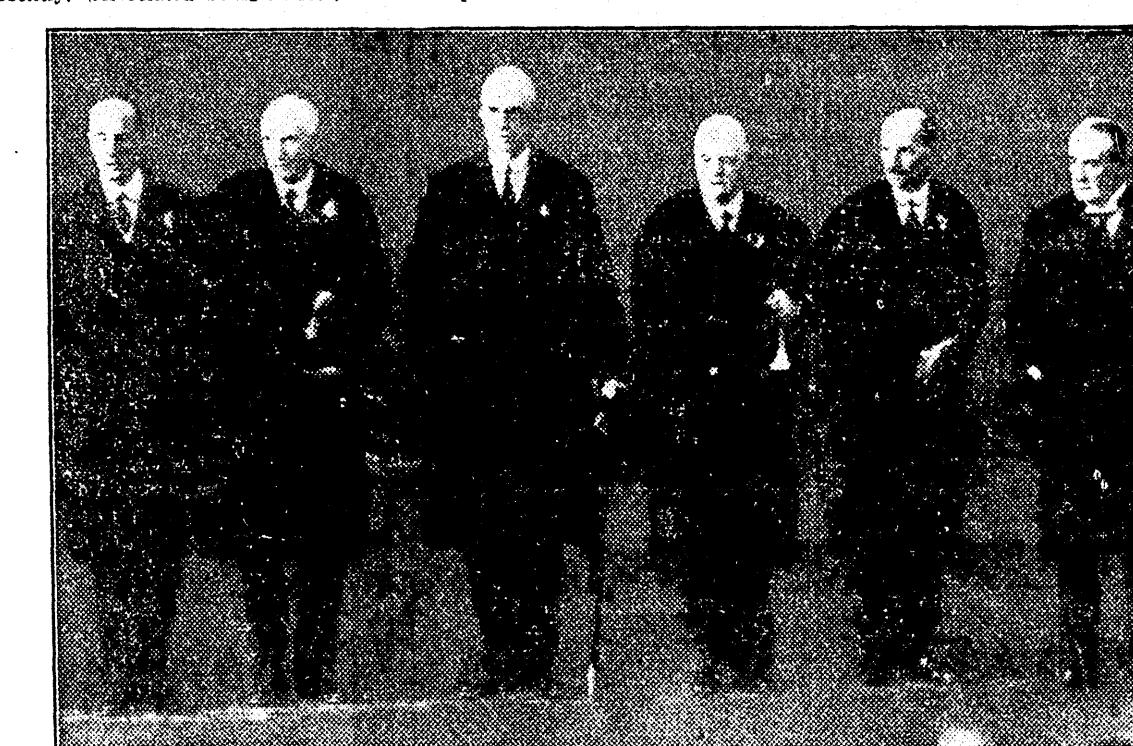

"Sure, let him marry her," a woman watered.

In the face of the storm aroused in British political circles by his romance with Mrs. "Wally" Simpson, the former Baltimore charmer, King Edward (right) intends to hold on to his throne—also her friendship. "Wally" didn't seem greatly worried over the approaching crisis when the photographer found her and Lord Sefton (left), bachelor friend of the king, attending a polo game at Hurlingham recently. From here Mrs. Simpson fled to France. (Associated Press Photo)

Prime Minister Baldwin (extreme right) reportedly told King Edward that he and the British cabinet (shown here in a recent picture) would resign unless his majesty cooled his romance with Mrs. Wallis Simpson. The cabinet members are, left to right, Lord Londonderry, Sir John Simon, Sir Henry Betterson and Viscount Hailsham. Next is Major C. Attlee, Labor party leader, and then Baldwin. In the midst of a British cabinet crisis as a consequence of King Edward's romance with "Wally" Simpson, Dr. A. W. F. Blunt (above), the Bishop of Bradford, delivered a stern rebuke to the monarch. The king needs "God's grace," said the bishop. "We hope he is aware of his need," but "some of us wish he gave more positive signs." (Associated Press Photo)

## Actions Of England's Ruler Explained By Psychologist

Scientist Asserts Edward Has Now Reached 'Romantic Period' Of Life

By Howard W. Blakeslee  
(Associated Press Science Editor)

NEW YORK, Dec. 5.—(P)—A prince who has had the feminine world at his feet, but does not develop a yearning for permanent romance until he has won authority, is psychology's explanation of King Edward's sentiment for Mrs. Simpson.

Psychology sees Edward as a type likely to choose one woman in this climax, at the "romantic period" of his life.

It sees him, not as a stubborn man, but as one of the millions of the "war generation" who change their modes because the world is changing.

The psychological viewpoints were expressed by Dr. Joseph Jastrow, former president of the American Psychological association, for 29 years Wisconsin university's professor of psychology and author of numerous books.

"There are many men who continue to develop between 25 and 40, and often after 40," said Dr. Jastrow. "The king appears to be in this class. Most men who grow in this manner, reach a romantic period unlike the popular view of the glamorous twenties. They let the twenties and thirties go by, and then mature to the feeling of necessity for feminine influence at a much later date.

"Many of this sort remain bachelors permanently. By the time they really need their taste, their tastes are fading.

The only decision he has made is that he wants to marry Mrs. Simpson and that he will not renounce that desire formally under any circumstances.

But his love affair is now an empire political issue and his antagonists think there is no way out of the dilemma except by abdication.

There should be a decision in 48 hours.

Will that end the crisis? I doubt it very much.

Here is what is happening now:

The king is at Fort Belvedere, sitting tight and holding off in his final decision on whether to abdicate or further oppose Prime Minister Baldwin.

The longer he can delay that decision, the greater the chances of public opinion rallying around him.

Stanley Baldwin is sitting tight at No. 10 Downing street. The embattled forces of church and state are deeply divided and honestly concerned over the result of British public opinion throughout the empire over Edward's proposed marriage to an American divorcee.

That is the whole problem.

As for Mrs. Simpson, she is sitting tight, too—in a motor car on her way to the Herman Rogers villa at Cannes.

If she does not gain seclusion and rest, the Rogers, who have great wealth, will take Mrs. Simpson on their yacht to the ends of the world, if necessary—and Edward could go along.

Practically all the cards are against him. On the constitutional issue, the church issue and the flaunting of conventions—he is in a tight corner.

## WRITER PHONES FACTS ON KING

London Scribe Declares Edward Fully Decided To Marry Mrs. Simpson

By Frank H. King

London, Dec. 5.—(By transatlantic telephone to New York)—(P)—I've just learned the king has made absolutely no decision to abdicate.

MOSCOW, IDAHO.—"A new and revolutionary religious teaching based entirely on the misunderstood sayings of the Galilean Carpenter, and designed to show how we may find, understand and use the same identical power which Jesus used in performing His so-called Miracles," is attracting world wide attention to its founder, Dr. Frank B. ## INCREASE SEEN IN CIGARETTE SALES

### American Tobacco To Add Many More Men To Sales Department

NEW YORK, Dec. 5.—(Special)—The following letter, addressed to the jobbers and sales organization of the American Tobacco company, was released for publication here today by Vincent Riggio, the vice-president of the company:

"With the increase in consumption of cigarettes there are definite indications that the cigarettes consumed this year will amount to in excess of the enormous total of 148,200,000,000. This progress has been the result of a definite upward trend in cigarette consumption that was only slightly interrupted by the severe depression years."

"Industry has been urged of late to increase employment. In our particular industry we face with great confidence the development of the cigarette business. We feel that throughout the years that are past we, the American Tobacco company, have contributed our share of energy and our share of work to the end that the business increase be obtained. We face the future with increasing confidence and as one of the ways in which we feel that we can lend in the future additional energy and additional work to the reaching of this enormous volume of 200,000,000,000 or more, we have decided to increase our sales department by more than 50 per cent in man power."

This increase in salesmen will require closer supervision and will necessitate certain changes in our organization. To this end I am appointing two sales manager in place of the one sales manager that we have heretofore had: Mr. H. L. Hilyard, formerly a vice-president of the Guaranty Trust company of New York, who has been with us for some time serving in the capacity of assistant treasurer; we believe that the sales department will be strengthened by Mr. Hilyard's association and that sales will offer a greater opportunity for his service to the company; and Mr. Frank V. Riggio, whom you know, and who has been in charge of our sales department for the past several years under my direction."

## The World's Latest Market News

### COTTON

#### New Orleans

NEW ORLEANS, Dec. 5.—(P)—A little selling by traders who wished to be out of the market over the weekend pushed cotton prices down 25 cents a bale today.

The market was lower from the opening bell and the trade took contracts only on the second.

Selling was almost entirely liquidation of long accounts, although some hedging appeared in the later positions.

December closed at 12.18, March at 11.94; May at 11.82 and July at 11.69.

News pertaining to cotton was listless today and prices were allowed to drift lower in a depressed market.

Reports circulated early in the day that the cotton cooperatives were out with a crop estimate well above the government's latest figure.

This brought a prompt denial from the cooperative officials, but the report was believed to have induced some speculative selling.

Cotton futures closed steady at net declines of 5 to 6 points.

### MARKETS AT A GLANCE

NEW YORK, Dec. 5.—(P)—Stocks steady; specialties advance quietly. Bonds irregular; utilities firm. Curb mixed; power and oil share boosted. Foreign exchanges easy; francs, sterling dip. Cotton quiet, liquidation, local and hedge selling. Sugar quiet; commission house liquidation. Coffee steady; Wall Street buying.

CHICAGO: Wheat easy; better weather conditions. Corn irregular; Chicago receipts liberal. Cattle nominally steady. Hogs steady to weak; top \$10.

### CHICAGO GRAIN

CHICAGO, Dec. 5.—(P)—Wheat prices in Chicago averaged a little lower early today, bearishly affected by reports of snow, sleet and rain in domestic crop territory southwest.

Opening 3-8 off to 1-8 up, December 1-8 2-8 to 25. May 12.0-12 to 3-4. Chicago wheat futures sagged all around. Corn started unchanged to 1-4 lower, December 1.07-1.08 to 3-4. May new 1.02-1.03 to 3-4, and afterward underwent a general decline.

Conspicuous gainers included New- port Industries, Texas Gulf Processing, Poor & Co., American Locomotive, Baldwin, Houston Oil, Standard Oil of N. J., Pure Oil, Douglas Aircraft, United Aircraft, U. S. Industrial Alcohol, American Commercial Alcohol, and International Hydro-Electric.

In a comparatively restricted groove, U. S. Steel, Bethlehem, General Motors, Montgomery Ward, Sears Roebuck, Western Union, Consolidated Edison, North American Goodyear, N. Y. Central, Pennsylvania, Public Service, New Jersey and American Water Works.

A downward drift was exhibited by American Telephone, Anaconda, Kennecott, McIntyre Porcupine, Dome, Standard Oil of Indiana, Woolworth, and Gulf States Steel.

The outward tide in stock exchange seats was stemmed with the sale of membership for \$97,000, up \$8,000 from the previous transaction, which was at the year's low.

Ending of the Midland Steel strike, which had been embarrassing to some of the large automobile companies because of suspension in parts shipments, brought hopes in financial circles that peaceful solutions will appear for other threatening labor problems.

Drafts of further regulations of stock trading were expected from the securities and exchange commission next week. Pending study of the new rules, speculative forces were said to be stepping carefully on both sides of the market.

## SECURITY CARDS CAN BE SENT IN

Belated Mailings Will Be Received, Postmaster Reports

Although Saturday night was the deadline for the return of social security blanks filled out by employees of firms in Monroe and West Monroe, those who for any reason had failed to return them can still do so, stated Postmaster J. R. Wooten, to whom they are to be surrendered.

There should have been approximately 9,000 blanks returned to the postoffice here by last night, according to the estimate made by Postmaster Wooten. This number was not by any means approximated, he said, indicating that many failed for some reason to return their cards.

Those who have not done this are asked to give the matter prompt attention. If unable to fill out unaided, assistance can be had by going to room 307 at the new postoffice here, telephone 182.

The matter of early mailing of Christmas packages was further urged by Mr. Wooten who said that all foreign mail should be dispatched at once.

According to present plans, the post office will remain open next Saturday afternoon to accommodate many who will desire to mail out packages.

## FINE FOR KIDNEY AND BLADDER WEAKNESS

STOP GETTING UP NIGHTS  
LOOK AND FEEL YOUNGER

Keep your kidneys free from waste matter, poison and acid, and put healthy activity into kidneys and bladder and you'll live a healthier, happier and longer life. One most efficient and harmless way to do this is to get from your druggist a 35-cent box of Gold Medal Harlein Oil Capsules and take them as directed—the swift results will surprise you.

Besides getting up nights, some symptoms of kidney trouble are backache, moist palms, leg cramps, and puffy eyes. If you want real results, be sure to get GOLD MEDAL HARLEIN OIL CAPSULES, kidney stimulant and diuretic—right from Harlein in Holland. Give your kidneys a good cleaning once in a while. (Adv.)

CHAPTER XXV

When Saturday came Caroline got out baking materials and spread them over the kitchen table as usual. She tried to do it unobtrusively, for she feared that Kate would cause trouble. During the past two days Jeff Howard's name had not been spoken between them and Kate had ceased to talk of Brown Boy. Yet the grim expression of Kate's tense young face did not suggest forgiveness or neighborly love.

Walking into the kitchen when Caroline was sifting flour, she looked at her accusingly, "That's not Jeff Howard, is it?"

"Why, yes," Caroline answered. "I thought I'd make him a butterscotch pie and coconut cake, for a change of flavors. You needn't help me. And I'm going to mix the butter and sugar."

Kate said, "We'll have something more in this house for Jeff Howard." "Don't be a fool," Caroline implored.

"We'll have him. He's our only regular customer."

"I don't care what we clear. We're through with him, Caroline! We should never have had any dealings with him. It should've been lesson enough to him when he took our home."

"Oh, for heaven's sake, Kate! That was a legitimate business deal. He held the mortgage and we couldn't pay. What could you expect Mr. Howard to do? Eat the papers?"

"He needn't have crowded over us," Kate replied. "He needn't have boasted and sneered and rubbed his own back. He's hated me from the first, Caroline, and he knows I return it. He got hold of poor old Brown Boy just to treat me a little deeper into the dust!"

"You're being melodramatic, Kate," Caroline said wearily. "But, granting what you say is true, why toss up his order when we need the money we get out of it?"

"Because I won't be indebted to the creature, Caroline. I don't believe he really wants the stuff. He takes it because it tickles his vanity to have the Meeds cooking for him. Caroline, let me tell you something! Zeke asked me yesterday why Mr. Howard buys beaten biscuits to feed the chickens! He said he's seen broken biscuits scattered to the chickens every time he's been over there."

"Our biscuits?" asked Caroline in blank surprise.

"Whose else? Does that look as if he's buying our baked goods to eat it?"

"No, I tell you! It's another of his muckers. He's put us on his charity list, and then sits back and goats over it. I'll not be indebted to him, Caro-

line! I'll never ask another favor of him as long as I live!"

Caroline saw that Kate was in earnest. She shrugged and began to put away flour and baking powder and cake pans. "All right," she said, "I'll send him word we're going out of business. But I'm thinking of something like the poor man who said he intended to hang himself and somebody asked him what he'd do for a rope. He said he'd make it out of pride because pride's stronger than hemp."

Kate might have been benefited by this fabric if something had not occurred to drive it from her mind. On the living room table was an open newspaper which the granddaughters had just laid down. Glancing through it before starting to dust the room, she came on the announcement of Eve Elwell's engagement to Morgan Prentiss. The wedding would be in October. Kate had expected this to happen, yet it was shocking to come upon it in cold black print. The news was already a day old.

That evening at supper she was conscious of tender solicitation on the part of Caroline and Major Meed. She said, "For goodness sake, stop watching me with soft-boiled eyes!"

"Oh, for heaven's sake, Kate! That was a legitimate business deal. He held the mortgage and we couldn't pay. What could you expect Mr. Howard to do? Eat the papers?"

"He needn't have crowded over us,"

"I don't care what we clear. We're through with him, Caroline! We should never have had any dealings with him. It should've been lesson enough to him when he took our home."

## GRACE CHURCH MEN'S CLUB HOLDS BANQUET

The Men's club of the Grace Episcopal church held their November meeting at the parish house the past week with large attendance of the membership. President Ivey Faulk presided and the meeting was opened by Rev. E. F. Hayward.

A delicious barbecue supper was served to members and their guests which was prepared by Captain W. I. Neel, assisted by Mrs. Neel, Mrs. E. F.

Hayward, Mrs. Fletcher Ashcraft and Mrs. Peyton Parker.

The committee appointed for the next meeting is composed of Ed Apperson, chairman; George Trousdale, O. R. Lewis and Ed Hayward, Jr.

Short talks were made by J. M. Cobb, district governor of Rotary; T. O. Bancroft, past president of Rotary; Berny Oakland, R. D. Swayze, and Rev. Hayward.

The president expressed pleasure at the large attendance and invited guests of the occasion to return to subsequent meetings.

The following men were present: Captain Neel, Henry Littlepage, Berny

Oakland, Fletcher Ashcraft, Mr. Norstrom, Rev. Hayward, L. U. Fourny, Ivey Faulk, Dr. C. B. Flinn, Benton Holt, T. O. Bancroft, Tom Rowland, Ed Apperson, C. R. Boston, J. S. Hunt, H. H. Land, O. R. Lewis, J. Bishop Johnson, J. M. Cobb, H. A. Whitfield, M. W. Sykes, J. S. Washburn, Dr. D. G. Williams, A. L. Gardner, Ed Hayward, Jr., R. Earl, G. W. Trousdale, Allen Kimball, W. S. Shafro, Ed Starsney, R. D. Swayze, L. H. Cosper and Joe Trammell.

Statistics show that only one of every 300,000 letters mailed in the United States is lost before delivery.

## SEVENTEEN STUDENTS TO GET A. B. DEGREES

NATCHITOCHES, La., Dec. 5.—(Special)—Seventeen students will complete work on the A. B. degree and 10 will be awarded two-year certificates at the termination of the fall quarter of the Louisiana State Normal college here Monday. It was announced today by W. S. Mitchell, registrar at the state teachers' college. Certificates will be given the four-year students, but they will not be

granted the diploma until the annual graduation exercises in June.

Those receiving the two-year certificate Monday are: Rodessa Brown, Coushatta; Aline Campbell, Haughton; Louise Carpenter, Bastrop; Marjorie Coffey, Chestnut; Ruby DeCuir, Minden; Adele Anna Ducote, Coltonport; Marie Durham, Winnfield; Corinne Fournet, Natchitoches; Clinton Jackson, Coushatta; Mrs. Sarah B. Key, Mira; Virginia McKinney, Minden; Wallace Pefferkorn, Alexandria; Anne Pender, Alexandria; Ruth Ellen Turnley, Shreveport; Ru-

fus Walker, Pollock; and Nelwyn Williams, Natchitoches.

The winter quarter at the State Normal college will open Tuesday with registration and classification of students. Regular classroom work will begin Wednesday.

## METHODIST MEET TO COME TO END TODAY

The annual Methodist conference, which has been in session the past week, will come to a close today at Minden. Bishop Hoyt M. Dobbs will deliver the morning sermon at the First Methodist church there, today and many Methodists from the churches of Monroe and West Monroe are expected to attend, as there will be no preaching services in the

churches of this denomination here today.

Sunday school, however, will be conducted at all the Methodist churches in Monroe and also in West Monroe today.

Much interest attaches to the assignment of pastors for the coming year. These will be made known at the afternoon services in Minden today.

## TOY NIGHT WILL BE HELD MONDAY

Legion Post Plans To Secure Gifts For Good Fellows

L. B. Faulk post of the American Legion plans to hold the second annual toy party at the memorial home, Monday at 8 p.m. Each member must bring a toy or toys. They can be new or used. However the securing of toys in large numbers for the Good Fellows is the end sought. Those who have no children and no toys, are required to purchase a toy or toys, for without them there can not be admitted to the post rooms.

After a joyous time, and the receipt of many toys, there will be a regular business meeting, the award of the membership and attendance prizes and the serving of refreshments.

The members plan to make of the affair a suitable celebration over the recent success in going over the top in the annual membership drive.

Last year at this time, many toys were received for the Good Fellows Fund, but this year, with a membership of approximately 350, it is expected to receive from 400 to 500 toys.

Already a large quantity of broken toys have been received at the toy shop for reconstruction and the number is so great that it will be impossible to make repairs on all of them for Christmas. This being the case, the management of the toy shop asks that all toys received at the Legion home Monday be either new ones or in sufficiently good condition that no repairs will be required.

## BEST TECH BAND MEMBER NAMED

Honor Goes To Leonard Jenkins Of Ruston, Ver-  
satile Musician

RUSTON, La., Dec. 5.—(Special)—It's no wonder that the most valuable member of the Louisiana Tech band is Leonard Jenkins of Ruston. He is a one-man band, all by himself. Jenkins performs on the trumpet, cornet, melophone, bass drum, snare drum, bass horn, saxophone, piccolo, clarinet and the violin, and could blow a banjo if he could find one.

Of all the instruments that he can handle, he says he prefers the violin; but the stringed music-maker won't fit into the band and he uses that in the Tech orchestra.

Jenkins has been a member of some band since he was 12 years old. He served four years with the Ruston High school band and at the same time was a member of the Tech band. This is his second year as a college student at Tech, and he has been a member of the orchestra as well as the band during that time.

Last spring, Jenkins was one of the 85 members of the all-southern orchestra, directed by Dr. J. E. Maddie of the University of Michigan. In the summer of 1936, he played the trumpet with the Wharton High school band at the Texas centennial exposition.

Jenkins is a son of Mr. and Mrs. E. S. Jenkins of Ruston. His father is professor of chemistry at Tech. The selection of the best bandman was made by James A. Smith, director of the Tech band, on the bases of "attendance, dependability, initiative, attitude and instrumental and marching ability."

The medal given for the distinguished band service is a gift of the Omega Kappa social fraternity at Tech, and is to become an annual award, it has been announced. The medal has the inscription "best band work" engraved upon it, and also bears the emblem of a marching musician.

The donors of the medal, the members of Omega Kappa, also offer annually a journalism medal to the most valuable member of the staff of the Tech Talk, the college newspaper.

## STEEL ARRIVES FOR COREY PASS

Steel material that had been long awaited for the construction of the overpass over the Missouri Pacific railroad near Corey has just arrived, and the work of raising uprights and riveting will be in progress early this week, members of the firm of the Pittsburgh-Des Moines Steel company, which has the contract, said.

The work of paving of the approaches in either direction to the overpass has been delayed because of the inclement weather, but will be started off this week, weather permitting.

The Eros-Indian Village farm to market highway will be completed this week. This is to comprise a gravelled road and the contractors are Dulin and Ewing.

Nelson Brothers have virtually completed the Simsboro-Spring Hill highway, also gravelled and a farm to market road, in Lincoln parish.

Workers on these projects have been furnished where possible by the Louisiana State Employment service.

## Christmas Toys In Monroe Stores Show Modern Trend

A newspaper reporter who made the rounds of the Santa Claus shops of local merchants Saturday discovered that a great many new playthings have been created to captivate the fancy and delight the hearts of children on Christmas day.

For instance, some of the children's favorite newspaper comic strip characters and animated cartoons of the movies have influenced the making of toys this year to a greater extent than in the past.

Moving picture projectors with "talkie" equipment, featuring Mickey Mouse on the screen in an acting-talking role, are one of the most unique of the present toy features. The "talkie" equipment consists principally of a small phonograph machine timed to synchronize with the action on the screen.

There are several other Mickey Mouse creations, in one of which the sprightly rodent operates a railroad handcar. Mickey is also created in one of those innumerable flexible joint models. Donald, the duck, and Pluto, the dog, operate another handcar, and Donald also is one of the flexible joint models.

Donald and Mickey Mouse play on a see-saw in one toy, and Donald rolls along on wheels in another creation.

In toys which produce music, Mickey and Pluto proudly ride on a band wagon. Felix, the cat, plays a drum, and Scrappy plays the xylophone.

Popeye, the sailor man, was the toy-makers' inspiration for a number of new toys. One of the most interesting of these is a boat which Popeye rows—a boat which really floats and which skims quickly over the water as Popeye's big arms operate the oars. Among the other Popeye toys are those which cause him to walk or dance.

The new Shirley Temple dolls should be far more popular this year than last year, judging from the large shipments of the dolls which have been received by the local merchants.

Ultra-modern streamlining and use of electricity is distinctly manifested in toy trains, motor vehicles, scooters, bicycles and velocipedes.

There are some distinct innovations in building sets with electric motors which provide power for the operation of machines which may be made with the sets.

One of the most interesting new toys is a "mystery automobile" which automatically starts running when placed on the floor. Another new toy surpasses last year's "man on the flying trapeze" with six performers on one trapeze.

This year there are toy airplanes in scores of models and complete fleets with model hangars and landing fields.

The plans prepared call for the drilling of an artesian well and installing a pipe supply system through the city. The estimated cost is approximately \$50,000. A PWA grant and loan will furnish the funds for the project as now planned.

Perfectly normal weather is unusual in any locality.

bayonets, with hand grenades, with cannons and howitzers and machine guns. There are scouting soldiers with radio sets. There are many types of tanks. Combat airplanes, scouting planes, bombing planes and all of the others are found in the miniature toy shops, along with complete military airports.

Of the hundreds of different toys at the local stores, many are old favorites. Here are a few of them: savings banks, harmonicas, drums, whistles, horns, Teddy bears, brooms, roly-poly, ironing boards, dolls, doll houses and furniture, doll buggies, pop guns, forts, castles, fire trucks, pianos, musical tops, jumping ropes, skates, bouncing balls, footballs, building blocks, picture and story books, tea and dining sets of china and metal, "silverware," sewing machines, wash tubs and washboards, stoves, wheelbarrows and sleds with counting beads.

WINTER LEGUMES PLANTED

HOMER, La., Dec. 5.—(Special)—Over 400 acres of winter legumes have been planted on farms of cooperators within the area of the Homer TCW camp, according to J. P. Maxwell.

Donald and Mickey Mouse play on a see-saw in one toy, and Donald rolls along on wheels in another creation.

In toys which produce music, Mickey and Pluto proudly ride on a band wagon. Felix, the cat, plays a drum, and Scrappy plays the xylophone.

(Continued from First Page)

haven at the villa of Mr. and Mrs. Herman Rogers. Edward spent the day at rural Belvedere castle.

The longer he could delay a showdown on the constitutional crisis concerning his right to marry whom he chooses, the better appeared his chances of rallying public opinion.

The average reaction of the young Englishman, who admires the king, is "let him have her." There is growing belief here that the same reaction prevails throughout the empire, although Baldwin claims sufficient backing from the dominions to crush any attempt to pass legislation permitting Edward to have Mrs. Simpson as his wife but not as his queen.

There was indication, too, today that opposition has grown against any quick effort to force abdication.

Lord Rothermere, powerful British publisher and brother of the late Lord Northcliffe, in an interview in the London Evening News asserted a "concerted effort" was being made to hurry the king from the throne and opposed this with the warning:

"No government, which, on this matter of supreme importance, runs counter to the wishes of the people of England can survive."

"You cannot smuggle the greatest living Englishman off the throne of England during the week-end. Time must be given for a solution to this matter. The present haste is indecent and is giving rise to unpleasant rumors affecting high political and other personages."

The Rothermere expression seemingly threw to the king the support of the Northcliffe dynasty in the fight against government and church opposition to his projected marriage.

It was the influence of Lord Northcliffe's Daily Mail which drove out Asquith and made Lloyd George prime minister during the war.

CANNES, France, Dec. 5.—(UPI)—Wallis Warfield Simpson, tonight ended her two-day flight across

southern France and was driven at great speed through the gates of the villa belonging to her intimate friends, Mr. and Mrs. Herman Rogers of New York.

The car bearing Mrs. Simpson, her secretary and a bodyguard, roared through the opened gates of the villa at 11:45 p.m. while a crowd of the curious scattered for safety.

After the car entered, British and French detectives joined a guard of local police.

They warned hundreds of craning bystanders gathered outside the villa that "they might as well go home because she's tired and wants to sleep."

CANBERRA, Australia, Dec. 6 (Sunday)—(AP)—It was officially reported tonight that the Australian cabinet received secret information that King Edward was likely to abdicate Britain's throne Monday.

This report came after Prime Minister Joseph Lyons telephoned London several times and then announced a special session of parliament for Wednesday.

The full cabinet meets Monday. Should Edward abdicate Monday, it was declared, parliament would have to pass an act of complementary legislation to provide for the accession of the Duke of York.

Government says that if you go from one American port to another on a ship not under the American flag you will be fined \$200. An intelligent young American woman, Mrs. Cromwell, who was Doris Duke, and had a rich father, was compelled to go to Honolulu last week, to see about her new house and swimming pool there. Only a Japanese boat could take her, and she was fined \$200.

THIS GOVERNMENT should find some way to keep American merchant ships running, after lending money to build them; even if it has to run the ships itself.

The French government owns railroads and in one strike it called the strikers, all in the military reserve to the colors, ordering them to go

100,000 annually compared with an estimated \$5,000,000.

A two-cent gasoline tax is designed to take care of the unemployed, but L. F. Clawson of Shreveport, secretary of the executive committee of the Police Jury association, told the governor it would be insufficient.

The governor was silent on the prospect of a special session of the legislature to meet the problem.

It is estimated there are 5,000 unemployed heads of families in the state.

said, "The first battlefield of peace is that of securing well-being at home."

Even Maine and Vermont will agree to that; the question is, how can it be done?

NEWTON D. BAKER, Woodrow Wilson's secretary of war, who celebrated his sixty-fifth birthday yesterday, says he will start in a big way "as soon as statesmen make up their minds either that they want to fight or that they can't help fighting." It may happen also when some "statesmen make a foolish mistake and some equally foolish nation begins shooting. One small, unimportant murder was enough to start the big war.

The spectacle of Madrid under bombardment should hold back the world war that threatens, but human beings learn slowly.

THERE ARE QUEER things about American mercantile shipping. The government supplies money to build the ships, at low interest with long loans. Then union labor will not let the ships run.

Government says that if you go from one American port to another on a ship not under the American flag you will be fined \$200. An intelligent young American woman, Mrs. Cromwell, who was Doris Duke, and had a rich father, was compelled to go to Honolulu last week, to see about her new house and swimming pool there. Only a Japanese boat could take her, and she was fined \$200.

THIS GOVERNMENT should find some way to keep American merchant ships running, after lending money to build them; even if it has to run the ships itself.

The French government owns railroads and in one strike it called the strikers, all in the military reserve to the colors, ordering them to go

to work. To refuse would have meant mutiny and shooting, they go to work.

IT IS GOOD NEWS that a new, big American army bombing plane, called "largest in the world, with a cruising radius of 3,000 miles has had a successful trial trip, and sixteen more like it will be built. "Small mercies

the new ship has four engines, of 1,000 horsepower each. It would be more useful with a cruising range of 7,000, instead of 3,000 miles. Uncle Sam might want to cross the Pacific some day; all hope he will never need fighting planes over there, but he might.

DR. FRANCIS E. TOWNSEND, who had a plan to give every old person \$200 a month, is indicted by a grand jury for contempt because he "walked out on" a house investigating committee. Congressmen used to walk around Dr. Townsend in gaudy fashion, for maybe he did have the balance of power in his pocket. The Maine-Vermont Republican vote calmed these fears, and assorted would-be dictators have shrunk in importance.

GOOD FELLOWS

various night clubs have in mind special benefit nights, but as yet no details have been worked out. These profiteers of help show the trend of the public mind to do something to make Christmas more than just another day in the lives of little children, who are victims of circumstances for which there are no way responsible.

The larger gifts, however, should in no wise hinder the individual contributions which form the bulk of the Good Fellows fund. Little more than two weeks remain before the fund must be distributed in the purchase of the necessities which will go into the Christmas baskets. These baskets are designed to hold about a week's supply of substantial food, as well as

necessary articles of clothing that are unavailable from other relief organizations. Toys, fruit, candy and nuts will be included.

Every humanitarian-minded citizen will want to feel Christmas morning that he or she has done something to make possible the distribution of these baskets. If you have not yet made your contributions, do it now. It is your privilege and your opportunity to help make sure that a child in Monroe or West Monroe goes without a measure of the gladness that is Christmas.

confered this week with the board at Baton Rouge and New Orleans.

The committee members expressed themselves highly elated over the action of the bond and tax board, in view of the fact that only such projects as meet with most rigid tests have been approved by the board.

The new courthouse will take the place of an antiquated structure that has been in use since 1882. The original building is of an architectural design that was conventional in the period following the war between the states, was erected at a cost of \$10,000. The structure was repaired in 1904 at a cost of \$18,000.

The new courthouse will be a modernized version of classic design, similar in many respects to the Ouachita parish courthouse in Monroe. The building will be of stone and reinforced concrete and columned porticos will feature the main entrance on the east and west sides of the structure.

The courthouse will house the district court room and offices for all the parish departments and officials. The top floor will be given over to a completely equipped modern jail.

cause it means so much to our community in the future."

Miss Muri Springsted of Chicago, representative of the Civic Concert Service, Inc., a subsidiary of the National Broadcasting company, which will supply the talent for the forthcoming concert, was equally enthusiastic.

"Not only Monroe, but also the other towns in the neighborhood of this city are to be congratulated on their achievement," Miss Springsted said. "It has been a joy to work with people who are so deeply interested in the richer opportunities of community life that they have been willing to sacrifice their own convenience and comfort to work so loyally under the conditions they have had to face during this past week.

Monroe has taken its place among the progressive communities of the country. They will have the choice of some of the most beloved artists that can be had today. National Broadcasting company has set the seal of approval on every one that will be available under the program of the Civic Music Association, and this city can rest assured that the concerts will afford rare enjoyment for every lover of music in this section of the state.

A letter was read to the conference from Dr. Fred Mouget, retired missionary of China, thanking the conference for its generosity toward his work. A collection for the hospital in China was taken the sum of \$31,250.

Dr. W. H. Wallace, Jr., spoke in behalf of the missionary council to be held in New Orleans January 4 to 8, and urged all charged to send delegates. Among the distinguished speakers to be heard will be Rev. Stanley Jones, of India, and Dr. Daniel Poling of New York, noted worker in the youth movement.

Judges will be officers of garden clubs from neighboring cities, outside of Ouachita parish. No one identified with any of the sponsoring organizations will serve as judge.

All displays must be kept illuminated between the hours of 6 and 10 o'clock each night during the contest period. Otherwise the displays will be disqualifed.

The committee of the Monroe Garden club assisting in the arrangements for the contest, as announced by Mrs. Richards, is composed of the following: Mrs. Clyde Paine, Mrs. Henry Biedenham, Miss Lizzie Morris, Mrs. C. C. Bell, Mrs. A. R. Butler, Mrs. Fred Fudickar.

the Christmas theme. Mere size or elaboration will not be a determining factor in awarding the grand prize, it was announced.

The rules of the contest require that entry blanks must be turned in to the Chamber of Commerce not later than 6 p.m., December 21. All displays must be completely in place and illuminated on that date and must remain illuminated through the night of January 1.

No display that includes any device contrary to the Christmas theme (as, for instance, the design of a cross) will be considered in awarding the prizes.

Entry blanks and illustrations giving suggestions for Christmas displays may be obtained at the Chamber of Commerce rooms in the Virginia hotel. West Monroe contestants may obtain banks at the Ouachita Citizen office.

Points will be given by the contest judges on the following basis: General artistic effect, 40 per cent; conformity to Christmas spirit, 20 per cent; originality, 20 per cent; ingenuity in utilizing surroundings, 20 per cent.

## INDUSTRIAL AND BUSINESS REVIEW OF

## CHEVROLET HAS RAPID GROWTH

Progressive Automobile Manufacturing Firm Has Interesting History

The industrial progress of America since the turn of the century has been reflected in, and to a very large extent it has been led by, the automobile industry. Especially is this true during the last 25 years, during which it has continued to play an increasingly important part in the entire industrial world.

Leaders in the automotive field have devised newer methods in manu-

facturing and in merchandising. They have invented means of increasing production while lowering costs, and they have continued to give the public a better product at lower prices.

These courageous leaders have recognized fundamental economic laws and turned them to their own benefit. They have made unusual advances in product, price and volume, and the majority of the gain has been due to the use of machinery which has so deeply affected the four factors of cost and price, volume and employment.

Their ingenuity and courage have built up a great industry that has gained the confidence and won the admiration of the world.

The various steps in the progress of the industry have been presented to the public year by year at the automobile shows in the large cities and by dealers throughout the nation. The public has begun to take for granted the fact that each year will bring improvements and innovations to make individual transportation more efficient and the cars more beautiful.

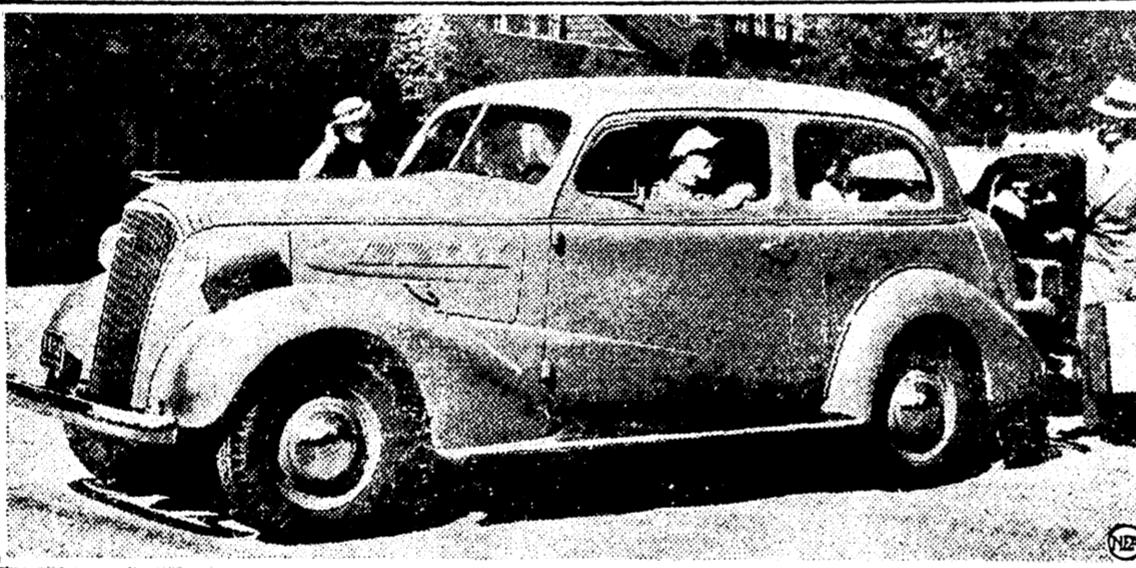

Older motorists who recall the cars of 25 years ago can readily see how far the automobile has come since 1911, both in appearance and in utility, and it is no wonder that they now take for granted the improvements that make the 1937 cars the most efficient and the most beautiful yet produced.

Back in 1911, when the automobile manufacturers were preparing their new models about this time of the year, a new company was ready to take its place in the young industry that has since grown to such proportions. That company made its bow in No-

ember 1911. It was named the Chevrolet Motor company.

At the time when Chevrolet first appeared in the automotive picture, there were 185 companies in production. Those 185 companies produced 210,000 automobiles, and there were slightly more than 639,000 cars in use in America.

The year's production for 1936, with 40 companies in the field, will be approximately 4,500,000 cars throughout the industry. Chevrolet's production for the full year will be in excess of 1,300,000 cars.

During the fall of 1911, the automobile factories employed less than 100,000 men. There are now approximately 60,000 men working in the Chevrolet plants alone.

Factory specifications for the cars of 25 years ago often listed the following: Remy magneto, air starter, 3-point engine support, "unusual" transmission, 3-speed set located on the rear axle and with connection to the engine through a cone clutch, leather-faced. The five-passenger touring car of that day included "considerable" equipment—top, windshield, speedometer, tire holder and lamps. Left-hand steering and 35x4 1-2 tires were features of some of the cars.

A quarter of a century later, today's cars in most cases include none of the specifications that delighted the mo-

## HOME HAS NEW ROPER RANGES

## Large Shipment Of Popular Ranges Received At Furniture Store

A large shipment of Roper gas ranges which include all the latest improvements has been received by the Home Furniture company, 501-11 DeSard street.

Among the latest features of Roper gas ranges are the automatic heat control, "smokeless" side boiler, utility drawer, insulated oven and cast iron construction. The new models are luxurious in appearance and finished in the approved style of the manufacturers.

Roper gas ranges are the best gas ranges on the market and enjoy an international reputation. J. B. Lindsay, president of the Home Furniture company, declared:

"A Roper gas range is the ideal gift for Christmas. When Christmas is over, a new Roper will prove itself a gift that will be welcomed indeed," Mr. Lindsay pointed out. "Day after day, year in and year out, the gift of a Roper gas range will be more and more appreciated. It will add its own scientific accuracy to daily cooking and will lift the cooking and baking to the status of a pleasant task," he said.

The Home Furniture company announces that all Roper ranges may be purchased on convenient terms and all are fully guaranteed.

"We have been selling Roper gas ranges for a long period and find that this gas range meets the utmost demands of our customers," Mr. Lindsay declared. "All who purchase Roper gas ranges do so with the assurance that they are purchasing a piece of household equipment that will stand the sturdiest tests."

# Monroe Society Plunges Into Whirl Of Christmas Events

## Several Residents Planning On Trips

Many Others Will Soon Arrive To Visit Homefolks During Days Of Festivity And Merry-Making

By Eve Bradford

SANTA CLAUS is rearing his red capped head above the horizon. We expand to the glow of living these remaining weeks before the Christmas festival which brings joy to young and old. Now is the time for mirth and song, of fable and poetry, of charity and good will.

Before the whirl of shopping has made a wreath of you, why not enjoy leisurely the Christmas atmosphere in shops, the restaurants and recreation centers where busy hands are at work remodeling toys for children who otherwise might be forgotten? Take time off for a cup of coffee with friends you run across down town.

We did and heard such interesting news about a great favorite socially—a young widow who came to Monroe as a bride several years ago, and is again contemplating matrimony. She has selected a professional man for her future husband, and will introduce him to old friends when she visits here the first of the year.

Some people get all the breaks—Katie Mae Thornhill and her niece, Martha Jane Hill, for instance. They flew to Chicago as guests on board the palatial American Airways plane from Dallas, as the guests of the Eric Cords, distant relatives of Katie Mae's.

Installed in state in the Cordon box at the opera where they witnessed the glamorous presentation of La Boheme and Aida—dining with the Wrigleys of chewing gum fame and the Americans of equal fame—watching the ice form on Lake Michigan along Lake Shore drive—looking down on a snow clad city from their lofty perch where the Cords maintain a penthouse—ploughing through a blinding snow storm from the warm environs of a limousine where they were as comfortable as the proverbial “bug in a rug”—racing through the air back home to the more prosaic mode of living. All in the space of one week, yet a generous taste of fairyland was theirs.

To be envied also are the Josephs—

Bridge prizes, several of them, are being wrapped in Christmas paper and bedecked with colorful ribbons for the high score holders.

Most parents will agree with J. Edgar Hoover that G-man toys are too “bang bang.” For all the excellent cooperation of manufacturers in leading young minds away from war, destruction and the dramatization of crime, it is doubtful that this is to be a quiet Christmas. We watched a saleswoman in one of the toy shops demonstrate a G-man car that roared machine gun fire as it rolled down the aisle. Judging from the rapt attention of the youngsters watching the demonstration, this toy will be one of the most popular of the year. The night before Christmas may be silent without even a creature stirring; but it is Christmas morning, and so clear the way for plenty of machine gun firing, bugles calling troops to battle and new velocities given the right of way.

# Sports Chatter

BY GEORGE V. LOFTON

**THANKS FOR THE FAVOR**

The selection of Pittsburgh to represent the east in the Rose Bowl "classic" brought about a storm of protest from all directions, but that will subside within the next few days and then the coast will start the old "build up" for the Pasadena game. However, there's a much more lasting effect than any temporary criticism that such a selection was certain to cause.

When University of Washington athletic authorities ignored Louisiana State and Alabama they brought about solidification of the Southeastern conference that had not existed before. True enough, relations between conference teams were cordial enough, but never before has anything emphasized the necessity for "going down the line" for one another as did the "slight" on southern football.

Southern sports writers' comment on the selection was interesting but the significant phase of the opinion expressed all over the conference was the plea for united action toward making the Sugar Bowl game the outstanding post-season football attraction of the nation.

The Southeastern conference is in an excellent position to do that for the very good reason that the Big 13 always has at least one outstanding team among the nation's major eleves. Rose Bowl records bear out that statement. If the Southeastern agrees to send its championship team to the Sugar Bowl each year, the Pasadena gang will be forced to pick some northern or eastern team as the Pacific Coast champion's opponent, and that won't work so well. As Los Angeles writers have pointed out many times, fans out there prefer a southern team because teams from Dixie have been both strong and colorful in the past.

Thus the New Orleans game is in an excellent spot to become the ace attraction of the nation. And southern fans should give a vote of thanks to the Rose Bowl for forcing the situation.

Now the next move is up to New Orleans. And unless all signs fail, there'll be a big "on stadium to accommodate Sugar Bowl fans next year and then we won't have to wait until the Coasts make up its mind about the Rose Bowl thing.

## SOLD! ON TINSLEY

Gaynell Tinsley, Louisiana State's "America" reporter, spent most of last week in Monroe and, quite naturally, received an enthusiastic welcome from local fans. When Tinsley arrived, the folks wanted to meet him because he was a widely-publicized football star. After he'd been here a day they found that he was a quiet, pleasant, modest young man who carried his football laurels gracefully and whose head hadn't expanded a fraction of an inch since the day he left Homer High school to find gridiron glory at Tiger stadium.

In other words, Monroe was thoroughly "sold" on Tinsley, and not just because he's an all-America end. Tinsley—nobody calls him Gaynell—isn't going to jump at the first opportunity to cash in on his publicity. He has had several offers to play professional football, yet he hasn't given any of 'em serious consideration. He has adopted a commonsense attitude toward all such opportunities to make his name pay his dividends.

"I've been offered a huge sum of money to play pro ball, I might consider it," he said. "In fact, right now I'm thinking about an offer to join up with Rock' Reed on a professional club, but we haven't decided anything definite yet. If I don't team up with Rock, I don't think I'll go in for pro ball."

Tinsley now hopes to get a coaching job when he leaves L. S. U. The new physical education requirements in Louisiana schools will provide openings for many young fellows like Tinsley and the Tiger star hopes to land a good job under the new set-ups. Quite naturally, he will turn his talents to teaching football if the opportunity presents itself. Tinsley apparently wants to lay his foundation for a coaching job now instead of playing pro ball for a few years and then striking out for a permanent connection when other all-Americans will be in the spotlight and the name Tinsley won't command the attention that it does now. He seems to have the right slant on things.

Speaking of Tinsley, we're reminded of the crack made by Bill Ruple, co-captain and guard at Louisiana Tech last year. Tinsley's home is just over the hill from Bill's parents' farm at Ruple, between Homer and Hayesville.

About this time last year, a bunch of us were kidding with Bill, and somebody asked him if he'd "make" the all-American team. "Now, I don't guess so," Bill cracked. "They tell me Gaynell Tinsley is gonna make it and that lets me out. They couldn't be two guys on it from Ruple."

## ALEXANDRIA TEAM WINS CLASS 'A' FOOTBALL CROWN

Bears Score In First And Fourth Quarters To Beat Monroe Eleven

ALEXANDRIA, La., Dec. 5.—(Special)—The Bolton High school Bears of Alexandria won the northeast district Class A title here this afternoon from Ouachita Parish High school of Monroe, 14 to 6.

Bolton scored in the first and last periods while Ouachita's tally came in the second.

Soon after the game started, Harry Vanderford recovered a blocked punt of Vann of Ouachita on the visitors' 11. On the next play, T. J. Price, half-back, skirted left end to score. Donald Siple booted the point from placement.

Ouachita came back in the second period and Patterson heaved a pass to Bates that netted 47 yards and a first down on Bolton's one-yard line.

Mayer scored through left guard after Stewart had been held for no gain. Mayer's line play for the extra point failed.

In the fourth quarter with the ball on Bolton's 40-yard line, Price stepped back and passed 30 yards to Billy Simpson, who scampered the remaining 30 yards to score.

Herbert Beaver, Bolton fullback, was injured in the first quarter when he sustained a slight laceration on his head and was unable to return to the game.

Bolton will meet the Haynesville Golden Tornado for the north Louisiana title next week.

First downs were even with a dozen scored for each team. Bolton led in yards gained by rushing with 170 net to Ouachita's 65. The Lions led in passing with 139 yards to 94 for the Bears.

Ouachita completed 5 out of 15 attempts while the Bears connected twice out of 14 tries. Penalties: Bolton, 20 yards; Ouachita, 15 yards.

Price, Bolton's candidate for all-state halfback, turned in his usual fine performance in the backfield with Thurman Pardue, all-state end, Ed Adams, end, Bass, center, and Wilson, guard, showing up well on defense. Solie Mayer led the Ouachita attack along with Patterson, who threw bullet-like passes. Wheeler Mitchell, outstanding Lion guard, was a power on defense, stopping many of Bolton's running plays.

**RIVERSIDE RAIDERS WHIP AUBURN TIGERS, 42 TO 0**

The Riverside Raiders, Monroe junior football eleven, completely routed the Auburn Tigers at the Georgia Tucker school grounds yesterday morning, 42 to 0. Both elevens were composed of boys of the northern part of the city, and Clinton Russell, captain of the Raiders, said the victory made them northside champions.

The Raiders scored almost at will with Captain Russell, halfback, each scoring two touchdowns, while Ben Marshall and Louis Whitfield, ends, and B. K. Fluker, quarterback, scored one touchdown each.

Ben Marshall, who is manager of the Raiders, said his team didn't have more games scheduled, but would like to tackle a south Monroe team of boys for the city championship. The Raiders have few eligibility rules, but require that no players on their own team or that of their opponents be over 12 years of age.

Dates were approved as follows:

Basketball tournament, Friday, Dec. 19-20; tennis, April 19-20; debating, April 15, and the general rally, including both literary and other sports, April 16-17.

A motion was made and passed unanimously requesting the Louisiana Tech press representative "to give more publicity to the rally this year" than ever before. The rally at Tech this year is expected to be the biggest in the history of the association, it was stated.

In regard to the girls' basketball part of the rally, the committee today ruled in favor of using the side-thrown instead of the center jump, Mr. Folk announced.

**ORANGE BOWL TO NAME SOUTHERN TEAM MONDAY**

MIAMI, Fla., Dec. 5.—(AP)—The Orange Bowl committee said tonight it would announce Monday the football team to be invited to represent the South in a post-season game between the New Year's day with Duquesne University.

Those being considered for the committee's bid are Tennessee, which closed its season today with a scoreless tie against the University of Mississippi, and Texas Christian University.

The Texans end their regular schedule December 12 in a game with Santa Clara on the west coast.

**JAYS IN TOY BOWL**

NEW ORLEANS, Dec. 5.—(AP)—Jesuit High school will play Piney Woods High of Plaquemine, Miss., in the Toy Bowl football game here Friday night for the benefit of the annual doll and toy fund of the Times-Picayune.

### HAYNESVILLE WALLEWS BOSSIER CITY, 40 TO 6

SHREVEPORT, La., Dec. 5.—(AP)—Scoring touchdowns almost at will, the powerful Haynesville Golden Tornado survived a three-team playoff to win the northwest Louisiana Class A high school championship here this afternoon by defeating the Bossier City Bearcats, 40 to 6.

Led by their potential all-state halfback, Rowboat Wroten, the Golden Tornado struck on land and through the air for six touchdowns in the first three quarters. Wroten accounted for two of the scores.

Bolton scored in the first and last periods while Ouachita's tally came in the second.

Soon after the game started, Harry Vanderford recovered a blocked punt of Vann of Ouachita on the visitors' 11. On the next play, T. J. Price, half-back, skirted left end to score. Donald Siple booted the point from placement.

Bolton will meet the Haynesville Golden Tornado for the north Louisiana title next week.

# ARKANSAS WINS S'WEST CONFERENCE TITLE

PASSING PORKERS  
EKE OUT 6-0 WIN  
OVER TEXAS TEAM

Aerial Attack In Third Quarter  
Clinches Victory For  
Razorbacks

LITTLE ROCK, Ark., Dec. 5.—(AP)—Dwight Sloan, Slim university of Arkansas junior, drove his passing Porkers to their first undisputed Southwest conference championship and a 6 to 0 victory over the University of Texas here this afternoon on a field reduced to a morass by a cold driving rain.

Approximately 7,000 madly cheering fans braved the elements to witness a game drab throughout with the single exception of Sloan's sensational scoring drive that culminated in a touchdown pass across the goal line into the waiting arms of Jim Benton, all-Conference end.

Texas had every advantage in statistics except for passing and the Arkansas aerial circus proved that even a December storm couldn't check its effectiveness.

The Arkansas eleven completed eight out of 16 forwards for a total of 71 yards.

The scoring break in the game of punts and fumbles came on a forward pass interception late in the third period. Texas had the ball on its own 45-yard line. Halfback Wallace Lawson dropped back and heaved a long forward intended for Collins, Jack Robbins, who covered Collins, took in the forward on his own 30. Cutting around in a wide sweep, he dashed back up and across the field through the disorganized Texans before he was finally smothered on the Texas 44.

Sloan then shot a forward to Martin for eight yards and another near pass to Benton for ten more, giving Arkansas a first down on the Texas 25. Faking a pass, Sloan drove through the line for five and then heaved another pass to Benton for a first down on the Texas 13. Sloan again ran with the ball, slinging seven yards through the mud to the Texas six.

On the next play he shot a hard, fast one across the goal to Benton, who came up between two Texas backs to fumble in the forward and stumbled on his face, safe with the winning touchdown.

## Ole Miss Battles Tennessee To Scoreless Deadlock

### Another Successful Grid Season Finished At Tech

Bulldogs Fail To Equal 1935 Record But Everybody Seems Satisfied

By Kenneth F. Hewins  
(World Sport Correspondent)

RUSTON, La., Dec. 5. (Special)—Now that they have closed gridiron services at Louisiana Tech for this fall and have taken up the collection of uniforms, the worshipers are raising their voices in the benediction, pronouncing the season a success for the local variety men, despite the fact that the Techmen this year fell exactly 100 points short of their scoring record in 1935.

Last fall, the Techsters amassed 253 points to their opponents' 42 in nine games, which was reported to be fourth place among the nation's college scoring. In the campaign recently ended, the Techmen gathered 153 points to their foes' 47. Tech also played nine games this year.

The season of 1936 was one in which the tide of favorable comment for the local eleven ebbed and flowed, with the low water-mark being reached upon two occasions: once, when the Techmen suffered a 12-7 defeat by the Mississippi State Teachers, and again when they tied Louisiana college, 6-6. The fans here had expected Tech to win both of those games; but they had greatly underestimated the ability of Tech's opponents in each case.

A contest in which Tech was defeated is generally regarded as the highlight of the year, an event which bestow upon Tech a large measure of praise. That was the game with Tulane University, in which the Techsters held the Green Wave to a score of 13-12. Tech's performance against the Greenies brought forth the deluge of laudatory remarks which goes to show that it does not always take victory to make the supporters support.

Though tribute to the Techsters totaled at times during the 1936 campaign, the Bulldogs wound up the season in the oft-mentioned "blaze of glory" by trimming the highly rated Illinois Wesleyan University, Titans 12-0, here on Thanksgiving afternoon.

The finale put a good taste in the mouths of Tech's followers, who now are standing by, satisfied with the season as a whole, while Coach Eddie McLean is dickerling with football mentors in the matter of making a schedule for 1937. The card is expected to be ready for announcement after the S. I. A. A. meeting in Birmingham, Ala., the coming week.

In the season just closed, the Techmen showed a weakness in scoring points after touchdowns. Totaling 153 points, the Techsters made 24 touchdowns and nine extra points,

falling to pay the "token" in 15 instances. In only one of Tech's games, however, would the matter of the extra point have made any difference in the factor of winning or losing, and that was the 6-6 tie with the Pineville Wildcats.

Indicating that Tech this year did not have a "one-man team" by any means, the record shows that 15 individual players contributed points during the season. Fourteen of the Techmen made touchdowns, while another, Barnett, converted a point after touchdown.

Wallace (Jackie) Hanna of Minden, a halfback of high repute, was the top scorer for the Bulldogs, with 26 points including four touchdowns and two extras.

Guy Carroll of Homer, who was about to get the "blues" along about mid-season because he couldn't accomplish the things he thought he should, turned out to be the second highest in scoring honors. He was good for three touchdowns and one point from placement, or a total of 19 points.

Hermon Hewett of Ruston, fullback, was third in the Tech tallying, having earned 17 points by two touchdowns and five kicks over the bar.

Here is the scoring record of the Techmen:

Player	Techids.	P.A.T.	Pts.
Hanna, halfback	4	2	26
Carroll, halfback	3	1	19
Hewett, fullback	2	5	17
Massey, fullback	2	0	12
Mitchell, halfback	2	0	12
Whitman, fullback	2	0	12
Williams, end	2	0	12
Gardner, quarterback	1	0	12
Rajcan, guard	1	0	6
Roach, halfback	1	0	6
Summerall, end	1	0	6
Trimble, end	1	0	6
Westbrook, quarback	1	0	6
Wyse, guard	1	0	6
Barnett, halfback	0	1	1
Totals	24	9	153

By winning the \$5,000 Augusta, Ga., Open with a 72-hole total of 283, Ralph Guldahl, above, St. Louis pro, took low stroke honors among professionals for the year. Guldahl, who just missed winning the 1934 National Open when he failed on a four-foot putt, has averaged 71.70 strokes in 61 rounds this season, leading Harry Cooper, his closest rival, by a fraction.

Three times in the second quarter the Vols had scoring chances with first down deep in Rebel territory, but they were balked twice by the fighting Mississippi forwards and the third time by an intercepted pass.

Babe Wood, Vol substitute quarterback, electrified the crowd in the third quarter. He took Dave Bernhard's punt on his 20 and recled of 55 yards before being brought down, but the gain was nullified when the Vols were brought back to their 37 for clipping.

The final seconds brought the biggest thrill when Hapes intercepted Wood's pass on his 45 and ran to Tennessee's 34. Peters picked three at left tackle and Baumstein passed to Poole who lateraled to Bernard for five. Bernard whipped a pass to Graham on Tennessee's 15, and then Baumstein tossed one to Bernard on the Vol six yard line as the game ended.

It marked the 14th time the Mississippians have failed to defeat Tennessee in their long feud, but Rebel followers were jubilant because the long string of Tennessee victories had been snapped—even by a scoreless tie—in the season's finale for both teams.

The crowd, largest ever to see a sports event here, swarmed about the gates in such numbers that one woman collapsed of a heart attack. Ticket-holders crashed open the southeast gates in their impatience.

Angered by the delay in handling the crowd, Mayor Watkins Overton ordered officials to throw open the main gates. People were pouring into the stadium several minutes after the Giants one.

The field was fast but the skies were overcast and a sudden rain pelted down during the final two minutes of play.

### LOW STROKER

### MISSISSIPPI TEAM FIGHTS OFF VOLKS IN EVEN BATTLE

Scoreless Draw At Memphis Attracts 16,000 Fans For Bitter Tilt

By Don Whitehead  
MEMPHIS, Tenn., Dec. 5. (P)—The Mississippi Rebels halted Tennessee's great comeback campaign today by fighting the Vols to a scoreless tie before 16,000 at Crump stadium.

They battled valiantly but there wasn't enough steam in the attack of either to bring any serious scoring threats until the final minute of the game. Then Mississippi drove to Tennessee's six yard line in a desperate passing attack that was cut short by the final gun.

Neither the Vols' Phil Dickens or the Rebels' Ray Hapes could crack the stubborn defenses of the forwards, and every drive that began to click bogged down with a fumble or an intercepted pass.

There was nothing to choose between the teams today, for both made even first downs and total yardage was 162 to Tennessee 162, Mississippi 162.

Three times in the second quarter the Vols had scoring chances with first down deep in Rebel territory, but they were balked twice by the fighting Mississippi forwards and the third time by an intercepted pass.

# Federated Women's Club Board To Meet At White House

## Mid-Winter Session Planned January 13

Mrs. Roberta Campbell Lawson, President Of National Group, Will Preside At Annual Gathering

A visit to the White House, Friday, January 13, at 4 o'clock will be one of the high points of interest at the annual mid-winter meeting of the board of directors of the General Federation of Women's Clubs which will be held in Washington January 13 to 17.

This gathering, which brings to the capital club leaders from every state in the union, will be presided over by the president, Mrs. Roberta Campbell Lawson.

Captain Willis S. Bryant, nationally known lecturer and author of the book, "And It Shall Come to Pass," will address the board on "The Blindness of Man." Safety and traffic engineering department of the automobile association will be presented as a special feature by Mrs. Edward Hammatt, chairman of the federation's committee on safety. Mrs. Phyllis Ferguson Hoyt, president of the National League of American Pen Women, will present a musical novelty and Mrs. Harriet Wren Krumbhaar, one of America's foremost composers, will speak on "Spiritual Values in Music."

Mrs. Richmond Page of Philadelphia, recently returned from Puerto Rico, will discuss welfare work on the islands. Miss Alene Long, chairman of the international relations department, will tell of her trip to the international peace congress in Brussels. Highlights of the federation's official cruise to the West Indies and Panama will be given by Mrs. Edward Dexter Knight, Mrs. William Dick Sporborg, and Mrs. Harvey W. Wiley. Mrs. Grace Morrison Poole, past president of the federation, will tell of the trip she made with a party of club leaders, including Mrs. E. W. Shirk of California and Mrs. J. O. Seth of New Mexico, to the South seas, New Zealand and Australia.

The formal reception preceding the programs will mark the opening of the board meeting bringing together the board, members of congress with their wives and other leaders in the official and social life of the nation's capital. A dinner at the Admiral will

close the subscription contest of the Clubwoman G. F. W. C. official publication of the general federation, at which time the directors of the losing board will entertain the directors of the winning states.

Next week's calendar is brimming with gracious, elegant affairs, including several luncheons, a buffet supper, a tea, a dinner party and several cocktail soirees.

### Ducks Provide

#### Tasty Dinner

These frosty mornings find many a household permeated with the odor of gun oil and the confusion caused by husbands assembling their hunting equipment. The open season for ducks is known to all members of the family. Junior returns the duck call. Sister brings the hunting coat out of the attic where she had secretly hung it thinking it much too inelegant to occupy the family coat closet. Mother prepares for the cooking of the game and even goes so far as to invite guests for a duck supper when friend husband returns home with the "spoils of war."

There is one woman in particular in this city who is an authority on the cooking of wild game. A conversation with her on the subject is likely to make one feel that ordinary food is prosaic and life isn't worth living until one has eaten wild duck stuffed with oyster dressing. Like many other excellent cooks, she seasons to taste and to proportions, and develops her own methods. But these axioms concerning the cooking of game she did lay down:

That ducks are made more tender by thorough freezing before cooking. They are placed in the oven in their frozen condition, and the result is a juicy fowl that almost melts in your mouth.

That sliced salt pork should be placed inside the game when roasting.

That tart fruits, crisp green salads and mild vegetables are the proper combinations with game.

That salt should be rubbed into the bird with the hands, distributing the seasoning evenly. In this manner, the fowl is uniformly seasoned.

That the bird should be well seared for half an hour or slightly less at a 450-degree temperature. This conserves the natural juices of the fowl. The temperature can then be reduced to between 250 and 350 degrees according to the age and size of the fowl.

That an onion, apple or prunes cooked inside of wild game, if dressing is not desired, will reduce the wild flavor some people find objectionable. (Do not serve the fruit.)

That a bird which has first been treated with butter—the butter worked into the fowl, inside and out, before cooking—browns more evenly, and has a richer flavor.

That the "fly through the oven" or 12 to 20 minutes roasting of young wild ducks is for epicures only who like game rare.

If wild ducks are old, they should be parboiled before baking, placing a little bit of onion in the water. If they are young, plump ducks, she bakes them without parboiling, with just enough water for basting. She makes a practice of roasting ducks with an apple or onion inside of each bird, baking the dressing separately in the seasoning from the duck. Birds cooked without dressing are easier to carve than those that are stuffed, she believes. If the ducks are frozen before roasting, she adds no more water, since enough water cooks out of the birds for basting purposes.

The December meeting of the Madison Parish Garden club held at the home of Mrs. W. D. Ziegler was a delightful event of the week. Miss Annette Beers was president over the business session when plans were made for a decorated outdoor Christmas tree and window contest which will be parishwide in scope and for which prizes will be offered. Roll call was announced with Christmas carols.

Mrs. R. K. Baily, leader of the program charmed her hearers with reminiscences of happy yuletide celebrations at Duckport. Rev. George A. Tocher gave a most interesting talk on the origin and history of Christmas carols in the various countries and Mrs. Horace Maxwell told several flower legends. As a concluding number the assembly joined in singing "Silent Night," "Hark the Herald Angels Sing" and "O Little Town of Bethlehem."

An exchange of gifts from the garden, seeds, plants, etc., presented by the club members and drawn by numbers from the beautifully decorated Christmas tree was a delight-

able store December 11 and 12. A delightful social hour followed when Mrs. C. M. Ritchie, Mrs. L. J. Land, Mrs. C. B. Foster and Mrs. W. G. Goza served cake and coffee.

Those in attendance were Miss Annette Beers, Mrs. A. M. Hebert, Mrs. E. T. Purnell, Mrs. Albert Sevier, Mrs. R. K. Baily, Mrs. W. D. Buford, Mrs. W. M. Murphy, Mrs. W. L. Roundtree, Mrs. Charles Coltharp, Mrs. J. H. Devine, Mrs. Frank Montgomery, Mrs. J. A. Gilbert, Mrs. D. H. Allen, Mrs. W. R. Gilfoil, Mrs. Horace Maxwell, Mrs. A. J. Sevier, Mrs. Clarence Crow, Mrs. David Holt of Texarkana, Mrs. J. M. Moss and Mrs. La Rosse.

Mrs. F. D. Taylor and Mrs. Fred McDuff are on the sick list.

Mr. and Mrs. Lee T. Lane and sons, Richard and Tyson, were recent guests of Mrs. A. L. Lane here.

# BASHARA-MANSOR BOUT TOPS STADIUM CARD

**TWO SYRIANS TO TANGLE IN MAIN BATTLE TUESDAY**

Rough Match Expected When Pair of 'Villains' Take Up Old Feud

Ellis Bashara, the untamed Syrian from Oklahoma, will return to Roseveit stadium Tuesday night for a crack at George Mansor, equally tough Syrian from Ohio, in the main event of the weekly wrestling show at the local arena.

Bashara, one of the most colorful grapplers to perform here in the past year, returns after an absence of more than a month, and has sent word that he'll have some new tricks to spring on Mansor, and the customers.

There seems to be a feud between the two Syrians. Mansor, here last week, said he would welcome a chance to beat Bashara. According to the dope, there's a Turkish branch of the Syrian race and an Arab branch. Bashara is a Turk, Mansor said, and George is an Arab. The Turks and the Arabs are more or less mortal enemies and there's going to be plenty of blood spilled in the stadium ring when the two come together Tuesday night.

Bashara has been campaigning in the west and from all reports, he's been a real sensation. The former Oklahoma U. football and wrestling star is as rough as they come, and he knows all the tricks. He's been a crowd-pleaser here ever since he made his local debut about a year ago and a big attendance is expected to welcome him back to the stadium Tuesday night.

Mansor, who wrestled once or twice here a year and a half ago, returned to the local wars last week and gave Walter Podolak, the former Olympic weight lifter, a thorough going-over.

Mansor, even rougher than he was when he performed for the local fans before, and he made life miserable for the clean-cut Pole last Tuesday night.

There should be plenty of action when the two Syrians meet. They're built alike, short, stocky and powerful. Each is well versed in the tricks usually sprung by the mat "villains" and they're both willing to take two to get over one solid smack. Bashara probably is the meaner of the two, but Mansor certainly should be able to run him a close second as a rough-house artist. The one who gets over the most telling punches probably will be declared the winner, for it's a cinch neither will pay any attention to the rules or the referee.

Promoter Phil Lissota said last night that he was attempting to bring two good boys here for the semi-final but he hadn't completed negotiations for the match and thus was unable to make the announcement as to the identity of the principals of the first part. Officials who will handle the match also had not been selected last night. Lissota said.

The main event will be the usual best two out of three falls match, with a two-hour time limit.

Aggies Score Twice In Third Quarter To Trim New Yorkers, 13 To 6

TYLER, Tex., Dec. 5.—(P)—The flying feet of Dick Todd and Bob Nesrata, leading the Manhattan college Jaspers of New York into a 13-6 defeat before a crowd of 5,000 fans here today.

The Aggies scored twice in the third period, Nesrata leading a one-man drive from the Manhattan 38-yard line and Todd later racing around the Jasper left end for 76 yards and the counter. Byrne scored for Manhattan on a plunge from the one-yard line.

The game was played on a muddy field but this did not prevent both teams trying all their plays. The backs held their footing remarkably well.

The Manhattan touchdown came as the result of two penalties in a row, the last giving the Jaspers the ball on the Agge's one-yard stripe.

A. and M. gained the ball on the Manhattan 38-yard line on a fine punt returned by Waylon Manning. Nesrata smashed the line twice and made a first down on the Manhattan 25. Shockley passed to Nesrata for six, then Nesrata crashed tackle for 14 more, Nesrata one and a pass to Shockley to Seago carried to the Manhattan one. Nesrata circled right end for the touchdown. Morrow added the point.

Things picked up in the third when the driving Nesrata led the smashing surge over the Jasper line. The Agge back was injured but remained in the game long enough to score the touchdown. Boyd replaced him and missed the try for extra point.

**FACTIONS BRING FIGHT INTO OPEN**

**Delegates Wrangle Over Every Subject Brought Before Convention**

By Alan Gould

HOUSTON, Tex., Dec. 5.—(P)—The amateur athletic union's 48th convention, due for a complete shakeup of administration before it closes tomorrow, battled today through a broken field of arguments that brought into the open, for the first time, echoes of the stormy 1933 split on Olympic issues.

Despite warnings at the outset from President Avery Brundage against "bickering" and "sniping" that threatened to wreck the organization, the delegates wrangled most of the day over subjects ranging from a sharp final fight over the seating of the District of Columbia's representatives on the board of governors to furious debates over new legislation barring backhand punches in amateur boxing.

During the double-barreled session that found Brundage constantly yielding the gavel to hold shadow boxing or verbal passages at arms, the convention accomplished the following results:

1. Defeat of the administration proposal for an "Olympic tax" on admissions to athletic events by an overwhelming vote.

2. Retention of the metric system of measurement for national track and field championships, with "local option" prevailing otherwise for club or sectional competition.

3. Adoption of numerous technical rules—changes in swimming, boxing and track and field sports—all designed to bring American regulations into conformity with international standards.

4. Partial lifting of restrictions against the amateur eligibility of life guards with retention of the so-called "90 day clause" for probationary pur-

poses and with discretionary power resting in the hands of district regulation committees.

5. Retention, for the time being, of proposals to establish a new definition of active and associate memberships in the A. A. U. because of numerous border-line cases developed by the effects of the depression years.

The convention's "harmony program" came close to being tossed out of the window during the height of Dickinson.

**the day's most acrimonious discussion. This centered around the election of District of Columbia delegates to the board of governors.**

It was touched off when Charles L. Ornstein of New York, floor leader for the forces backing Jeremiah T. Mahoney for the presidency, challenged the nominations submitted by Winfree E. Johnson, secretary of the D. C. association.

Before the turmoil subsided, Ornstein drew a sharp retort from Deitrich W. Wortmann of New York, while Major Patrick J. Walsh, president of the Metropolitan association and rival of Mahoney for the national presidency, seized opportunity to challenge the status of Herman Oberubersberg, here on behalf of the National Cycling association and a Mahoney adherent.

The upshot appeared to be that both Johnson and Edward Rosenblum, suggested by Ornstein as a substitute for Delegate James Sullivan, would both be seated tomorrow on the board of governors, thereby splitting the vote of the capital delegation.

Developments otherwise strengthened the prospect that Mahoney will be seated on the board of governors.

With Frank Bryski leading the scoring parade with 20 points, the Brownies easily swamped the Hodge quintet in a free game last week, will face some real opposition this week when they play the Hunt Oilers of Arp, Tex., Wednesday night and the Bogalusa five, Southern A. A. U. champions, Friday night.

With Frank Bryski leading the

scoring parade with 20 points, the

Brownies easily swamped the Hodge

team, but it's likely to be a different

story this week. Brown is the favorite

in both contests but the outcome may

be closer than some of the rabid fans

expect.

Despite a day-long downpour of rain, a large crowd turned out to see

the Brownies. Makars in their open and nobody was disappointed. Although their teamwork isn't as smooth as it will be when they swing into their Missouri Valley A. A. U. league schedule, the Brownies showed plenty of

scoring punch, as well as an ability to keep down their opponent's scoring.

The first string, which will carry the

brunt of the campaign against the

strongest A. A. U. teams in the nation,

handled the ball well and gave every

indication of living up to the

reputation they made as individuals in

college and A. A. U. circles.

Theo Alford, the former all-South-

west conference forward from Baylor,

will break into the lineup for the first

time Wednesday night. Alford will

complete the starting quintet. The

other forward will be Cary Phillips,

manager of the club. The guards will

be Bryski and Ed Shaver, the forme

star, while Gene Denmyar, Butler U. linemen who was runner

up to Bryski with 15 points against

Ed, will be the starting center.

The Hunt team should be plenty

tough to handle. Last year the Oliers

ran roughshod over Southwest con-

fERENCE foes, beating Baylor, Rice,

Texas, Texas A. and M. and Southern

Methodist. The club played a game at Brown gym last year, the Brownies

nosing them out by one point in the

most thrilling battle of the season

here.

The Hunt team started the present

campaign with an even stronger line-

up than last year, and the Brownies

Mrs. J. N. Hill, Jr., in motoring to Baton Rouge to attend a football game with his daughter, Jane Hill, had as her guests, Mrs. R. S. Guenard and her two sons, Steve and Arthur and Haynes Harkey.

The Carroll Women's club will be entertained Thursday, December 10, at the home of the president, Mrs. J. Grady Wyly, with Mrs. E. E. Erwin as co-hostess.

David Edward Tschabold, Jr., infant son of Mr. and Mrs. D. E. Tschabold, spent his first birthday in Marcellus, Ark., with his grandmother, Mrs. Marie Tschabold, his great-grandmother, Mrs. Robert Tschabold and his great-grandfather, Mr. Inebont.

Wheeler Cooper and his bride, the former Miss Faustine Couch of San Marcos, Tex., were guests of Mr. Cooper's sister, Mrs. Ernest Newman. Mr. and Mrs. Cooper were married in the Texas city on October 7.

Captain and Mrs. Bryan Halter and two children, en route to his new post of service in San Antonio, Tex., stopped here for a visit with Captain Halter's sister and brother-in-law, Mr. and Mrs. E. F. Stevens.

The Philathelia class of the Methodist church conducted a short and impressive memorial service in memory of a devoted member, Mrs. Annie Haisell Abernathy, who passed away at her home here on October 11. The vested choir entered singing, "The Old Rugged Cross" with Mrs. T. J. Siegle as accompanist for the musical selections. Mrs. H. T. Van Fossen

## Christmas Wrappings For Lucky Ladies

For Christmas presents or things in which to invest the Christmas loot—a simple, but nicely cut, nightgown (left) of azure blue crepe, worn under a matching bed jacket with loose, elbow-length sleeves and a trim collar, the ends of which tie at the neckline in front. The blush-pink satin negligee (right) is luxurious indeed. Cut to mold the figure, it is appliquéd all over with motifs of ecru Alençon lace and finished with a deep lace border to match. Notice the tailored collar and trim sleeves. Both gowns are lavishly trimmed with ecru lace.

A glamorous house coat (right) of heavy brocaded silk in luscious tones of yellow and beige is alluring indeed. Beautifully fitted, with tight bodice, exaggerated shoulders and fullness at the hemline, this buttons from neck to hem and can be worn as an evening wrap as well as for dinner at home.

read her own composition in verse, entitled "My Last Message" which was dedicated to Mrs. Abernathy. Mrs. E. Wilbourn read the resolutions of respect drafted by the class committee. Mrs. R. E. McClendon's vocal selections were "God Will Take Care Of You," and the program was closed with a few fitting remarks by the president, Mrs. J. Grady Wyly.

Mr. and Mrs. F. W. Schobert entertained at dinner and bridge in celebration of their tenth wedding anniversary.

Friends regret to learn that Miss Edna Earl Wilson had to return home from the University of Wisconsin because of illness and is now a patient in the Vickburg hospital where she underwent an operation. Mrs. D. T. Wilson, mother of Miss Wilson, is at the bedside of her daughter.

Mr. and Mrs. Josh Brown and young son, Beverly, have moved to Waterford.

Mrs. W. H. Hamley is home again after spending two weeks in New Orleans.

Mrs. Leon Minsky entertained her club at her home. Guests were Mrs. George T. Hider, Mrs. Ernest Parra, Mrs. F. H. Schneider, Jr., Mrs. Ab. Cammack, Mrs. Hugh King, Mrs. P. Brown, Mrs. C. H. Hart, and Miss Bert Estelle Herzog.

The first prize was won by Mrs. Brown and the second prize by Mrs. Hider.

# You can't know the real reason for the stranger's call

## OF IMPORTANT SUGGESTIONS FROM YOUR POLICE CHIEF

DON'T admit strangers to your home. They may be surveying your premises as the forerunner of a burglary.

DON'T sign any contracts which a stranger offers. This is the way some shrewd forgers have secured signatures.

DON'T hire servants until you have assured yourself through investigation that they are honest and bear good records.

DON'T cash checks for strangers. You have no way of knowing their worth or worthlessness.

DON'T open your door wide to strangers.

Place your foot behind it when it is partly opened. Daylight burglars have forced an entrance many times.

DON'T give strangers any information about yourself or about your neighbors.

It is better to be sure than sorry. If the door bell rings or you hear some one knocking, assure yourself of the person's identity. Don't rush quickly to the door and throw it wide open. You MAY be inviting trouble. The shrewdest and most alert women are sometimes forgetful and are caught off guard. The papers practically every day record a robbery or an attack made by some stranger. The man with the grip in his hand may or he may NOT be on a legitimate mission. How can you KNOW? Therefore, it behooves you to use extreme care and caution. If your curiosity is aroused, raise a window and question your visitor from that point of safety, but do not open your door and most important, do NOT encourage conversation or invite the visitor to enter. Observe these suggestions and save time, money and possibly avert disaster.

### From What Source Do You Buy Your Needs?

It is your right to know all about the purchases you make. Trading with itinerant peddlers cheats you of this privilege. In most cases his merchandise is not branded... is what is known as "fugitive" merchandise. Its source of origin is either unknown or questionable or both. This hazard is eliminated when you trade with the storekeeper of your city. He will TELL you, if you ask, from what supply source he buys... and you will find that these sources are standard.

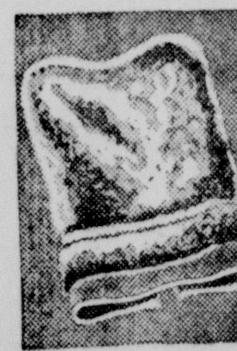

### Can You Exchange What You Buy At Will?

If you buy from a peddler will he exchange your purchases? How can he? As soon as the details of your trading are completed and you have the merchandise, the transaction is a closed incident. He is in other parts and can not be reached... and probably doesn't want to be. Now consider your local merchant... he is available ANY time. He does not evade you... he rather seeks to be helpful and to be sure that you are satisfied. Think of what this means to you and SUPPORT YOUR LOCAL MERCHANT.

### Is What You Buy Delivered In 24 Hours?

Let us take house furnishings in presenting this phase of the campaign. You buy a radio... a couch... a mattress... or a set of dishes. Maybe you order paint and roofing material. You are promised delivery within ten days. Think of that useless waiting. Think also of the fact that you have bought something out of a grab-bag. You have to assemble the couch... actually put it together... in many instances you have freight and hauling costs to pay also. Then, too, is that old hazard about the quality being what you bought. Can't you SEE the wisdom of supporting the local store?

### Do You Buy From Samples and Catalogs?

Why bother buying from samples and catalogs? It certainly is not a safe way to buy! Why not enter a store in your city... examine the merchandise carefully... see exactly what you are buying and KNOW what will be sent to you in exchange for your money. You simply can't buy safely any other way. Don't even try to.

### Do You Have Varied Stocks to "Pick" From?

If a store had ONE bolt of dress goods... ONE dress or suit... or ONE of any other article, few, if any, sales would be made. And that's where the local store gives service... with variety of style, quality and price range so that making a selection is a pleasure and not a task.

## TOY NIGHT WILL BE HELD MONDAY

Legion Post Plans To Secure Gifts For Good Fellows

L. B. Faulk post of the American Legion plans to hold the second annual toy party at the memorial home, Monday at 8 p.m. Each member must bring a toy or toys. They can be new or used. However the securing of toys in large numbers for the Good Fellows is the aim sought. Those who have no children and no toys, are required to purchase a toy or toys, for without them they can not be admitted to the post rooms.

After a joyous time, and the receipt of many toys, there will be a regular business meeting, the award of the membership and attendance prizes and the serving of refreshments.

The members plan to make of the affair a suitable celebration over the recent success in going over the top in the annual membership drive.

Last year at this time, many toys were received for the Good Fellows Fund, but this year, with a membership of approximately 1,000, it is expected to receive from 400 to 500 toys.

Already a large quantity of broken toys have been received at the toy shop for reconstruction and the number is so great that it will be impossible to make repairs on all of them for Christmas. This being the case, the management of the toy shop asks that all toys received at the Legion home Monday be either new ones or in sufficiently good condition that no repairs will be required.

## BEST TECH BAND MEMBER NAMED

Honor Goes To Leonard Jenkins Of Ruston, Ver- satile Musician

RUSTON, La., Dec. 5.—(Special)—It's no wonder that the most valuable member of the Louisiana Tech band is Leonard Jenkins of Ruston. He is a one-man band, all by himself. Jenkins performs on the trumpet, cornet, melophone, bass drum, snare drum, bass horn, snare piccolo, piccolo, clarinet and violin, and could blow a kazoo if he could find one.

Of all the instruments that he can handle, he says he prefers the violin; but the stringed music-maker won't fit into the band and he uses that in the Tech orchestra.

Jenkins has been a member of some band since he was 12 years old. He served four years with the Ruston High school band and at the same time was a member of the Tech band. This is his second year as a college student at Tech, and he has been a member of the orchestra as well as the band during that time.

Last spring, Jenkins was one of the 85 members of the all-southern orchestra, directed by Dr. J. E. Madday of the University of Michigan. In the summer of 1936, he played the trumpet with the Wharton High school band at the Texas centennial exposition.

Jenkins is a son of Mr. and Mrs. E. S. Jenkins of Ruston. His father is Professor of chemistry at Tech. The selection of the best bandman was made by James A. Smith, director of the Tech band, on the bases of "attitude, dependability, initiative, attitude, instrumental and marching ability."

The medal given for the distinguished band service is a gift of the Omega Kappa social fraternity at Tech, and is to become an annual award, it has been announced. The medal has the inscription "best band work" engraved upon it, and also bears the emblem of a marching musician.

The donors of the medal, the members of Omega Kappa, also offer annually a journalism medal to the most valuable member of the staff of the Tech Talk, the college newspaper.

## STEEL ARRIVES FOR COREY PASS

Steel material that had been long awaited for the construction of the overpass over the Missouri Pacific railroad near Corey has just arrived, and the work of raising uprights and riveting will be in progress early this week, members of the firm of the Pittsburgh-Des Moines Steel company, which has the contract, said.

The work of paving of the approach, either in direction to the overpass has been delayed because of the inclement weather, but will be started off this week, weather permitting.

The Eros-Indian Village farm to market highway will be completed this week. This is to comprise a gravelled road and the contractors are Dulit and Ewing.

Nelson Brothers have virtually completed the Simsboro-Spring Hill highway, also gravelled and a farm to market road, in Lincoln parish.

Workers on these projects have been furnished where possible by the Louisiana State Employment service.

A class of 16 girls were graduated Wednesday by the Monroe Beauty school and were guests at a party at the Three Mile Inn.

A class was entertained by Mr. and Mrs. S. E. Dodd, operators of the Monroe Beauty school, who also entertained the graduates at their home on North Sixth street Wednesday night with a spaghetti supper.

Perfectly normal weather is unusual in my locality.

## Christmas Toys In Monroe Stores Show Modern Trend

A newspaper reporter who made the bayonets, with hand grenades, with rounds of the Santa Claus shops of local merchants Saturday discovered that a great many new playthings have been created to captivate the fancy and delight the hearts of children on Christmas day.

For instance, some of the children's favorite newspaper comic strip characters and animated cartoons of the movies have influenced the making of toys this year to a greater extent than in the past.

Moving picture projectors with "talkie" equipment, featuring Mickey Mouse on the screen in an acting-talking role, are one of the most unique of the present toy features. The "talkie" equipment consists principally of a small phonograph machine timed to synchronize with the action on the screen.

There are several other Mickey Mouse creations in one of which the slightly rodent operates a railroad handcar. Mickey is also created in one of those innumerable flexible joint models. Donald, the duck, and Pluto the dog, operate another handcar, and Donald also is one of the flexible joint models.

Donald and Mickey Mouse play on a see-saw in one toy, and Donald rolls along on wheels in another creation.

In toys which produce music, Mickey and Pluto proudly ride on a band wagon. Felix, the cat, plays a drum, and Scraggy plays the xylophone.

Popeye, the sailor man, was the toy-makers' inspiration for a number of new toys. One of the most interesting of these is a boat which Popeye rows—a boat which really floats and which skims quickly over the water as Popeye's big arms operate the oars. Among the other Popeye toys are those which cause him to walk or dance.

The new Shirley Temple dolls should be far more popular this year than last year, judging from the large shipments of the dolls which have been received by the local merchants.

Ultra-modern streamlining and use of electricity is distinctly manifested in toy trains, toy vehicles, scooters, bicycles and velocipedes.

There are some distinct innovations in building sets with electric motors which provide power for the operation of machines which may be made with the sets.

One of the most interesting new toys is a "mystery automobile" which automatically starts running when placed on the floor. Another new toy surpasses last year's "man on the flying trapeze" with six performers on one trapeze.

This year there are toy airplanes in scores of models and complete fleets with model hangars and landing fields.

Military toys went modern just as much as other toys this year. Instead of small groups of tin or pewter soldiers being displayed in the toy shops as in the past, there are complete batteries of modernly equipped soldiers. There are infantry and cavalry and marine regiments, and sailors, too. There are soldiers with rifles and

technician in charge of the camp building legumes as cover crops during the winter months has been proved and encouraged by agricultural leaders for many years.

# Monroe Society Plunges Into Whirl Of Christmas Events

## Several Residents Planning On Trips

Many Others Will Soon Arrive To Visit Homefolks During Days Of Festivity And Merry-Making

By Eve Bradford

SANTA CLAUS is rearing his red capped head above the horizon. We expand to the glow of living these remaining weeks before the Christmas festival which brings joy to young and old. Now is the time for mirth and song, of fable and poetry, of charity and good will.

Before the whirl of shopping centers where busy hands are at work remodeling toys for children who otherwise might be forgotten? Take time off for a cup of coffee with friends you run across down town.

We did and heard such interesting news about a great favorite socially—a young widow who came to Monroe as a bride several years ago, and is again contemplating matrimony. She has selected a professional man for her future husband, and will introduce him to old friends when she visits here the first of the year.

Some people get all the breaks—Katie Mae Thornhill and her niece, Martha Jane Hill, for instance. They flew to Chicago as guests on board the palatial American Airways plane from Dallas, as the guests of the Eric Cords, distant relatives of Katie Mae. Installed in state in the Cord box at the opera where they witnessed the glamorous presentation of La Boheme and Aida—dining with the Wrigleys of chewing gum fame and the Armours of equal fame—watching the ice form on Lake Michigan along Lake Shore drive—looking down on a snow clad city from their lofty perch where the Cords maintain a residence—ploughing through the falling snow-storm from the warm environs of Illinois where they were as comfortable as the proverbial “bug in a rug”—ranging through the air back home to the more prosaic mode of living. All in the space of one week, get a generous taste of fairyland was theirs.

To be envied also are the Josephs

Browns and the William Bendels, who are scanning time tables and sailings, preparatory to a South American cruise.

Reading like a fairy tale are Boyce Leigh Sadler's stories written home telling of her world cruise with her Aunt Boyce Honnold. The last word received was from Alexandria, Egypt.

They were anticipating the thrill of enjoying Thanksgiving dinner in the middle of the Mediterranean sea, en route to Naples, Italy. On board an American liner, they visualized the turkey and other good things Americans enjoy on Thanksgiving day.

Mrs. A. L. Smith will be off for Florida the first of the year with the handsomely equipped traveler purchased in Michigan a few months ago. She will park near the ocean and listen to the music of the wild waves until spring comes. You will agree that this is the ideal existence. Janette Powell and Alice Nelson Briggs are also Florida-minded. They will close their attractive little apartment, recently furnished, for the sunny shores of Palm Beach. They will absent themselves from the old familiar haunts during the months of January and February. They are like the man who said: “I just love winter—there is something about the crackling fires and the open fireplace which suits my primordial instincts. I just love winter. I leave for Florida next week.”

Home for Christmas! How wonderful the words and more wonderful still the realization. Elma and Tom Sullivan are marking the hours until Mary Lee and her husband arrive.

The Julius Lemles await eagerly the arrival of their daughter, Rosina, and her husband and, of course, their daughter, Joan Reta. Judge and Mrs. Theus will have their family circle complete when Louise and Frank Cook arrive from Atlanta. Winnie Helen and Fay Hilliard and their beautiful little daughter will complete the family circle in the R. R. Beaman home. Doris, for whom the Christ-

mas tree has been lighted in years past, will have to take a back seat this year. The Beamans' first grandchild will be the center of attraction on Christmas eve.

There will be great rejoicing in the Jack Selig home next week, when Nanette arrives from Chicago with her fiance in tow. The Selig doors will be flung wide after Christmas for one of the most elaborate affairs of the year. It will seem to introduce Nanette's future husband to all friends, young and old.

Christmas and home—how closely they are knit together. How the heart yearns for the dear familiar scenes, the loving faces and the feeling of genuine comfort that envelops us as we minute we plant our feet on the “well come home” mat.

Ethel Masur is a dashing figure in a black coat with high standing collar and a black velvet turban flaunting a dotted veil. Very chic indeed. Mrs. Joseph Biedenharn is still another fur-clad figure. She wears a hand-some coat of black caracal that looks warm enough to face old man winter in any clime.

Mattie Quigles, wearing a handsome emerald swagger coat, is busy these days arranging for the luncheon on Thursday at Lakeside Country club when feminine members of the Bassett Country club will place their feet 'neath the festive board at Lakeside.

It is going to be a gala affair, if Mattie's plans materialize, and some tempting food is going to be served in place of the regular one-course luncheon. Bridge prizes, several of them, are being wrapped in Christmas paper and bedecked with cellulose ribbons for the high score holders.

Most parents will agree with J. Edgar Hoover that G-man toys are too “bang bang.” For all the excellent cooperation of manufacturers in leading young minds away from war, destruction and the dramatization of crime, it is doubtful that this is to be one of the most popular of all. The night before Christmas may be silent without even creature stirring, but Christmas morning is—well, it is Christmas morning, and so clear the way for plenty of machine gun firing, bugles calling troops to battle and new velocipedes given the right of way.

Program Given

By Book Club

Mrs. Marvyn Johnson offered the hospitality of her home to members of the Welcome branch of the Twentieth Century Book club with Mrs. J. E. Kersh as co-hostess.

The president, Mrs. J. Norman Coon, presided over a short business session and then introduced Miss Springfield, who made a few interesting and impressive remarks in regard to the Civic Music association, which is being organized in Monroe.

The topic of study for the afternoon, Brazil, inspired a colorful paper presented by Mrs. H. H. Douglas. She said in part: “Pedro Alvarez Cobral, a Portuguese navigator, discovered Brazil on April 22, 1500. He called the country ‘Land of the Holy Cross,’ but later, in 1549, the country became known as Brazil because of the red dye wood found in the forest.” Coffee is not a native of Brazil, but was introduced to Brazil in the eighteenth century. The coffee plant grows into a shrub about 18 feet high, and during the flowering season no more beautiful sight can be imagined than the coffee plantation.

“The conditions of travel in Brazil differ from those of many other countries, because the republic is divided into several travel and commercial sections. Brazil cannot yet be visited by a hurry traveler, but within the coming generation the natural picturesqueness will probably receive the attention it deserves.”

Mrs. J. D. Petty, in an unusual manner, reviewed “Brazilian Adventure” by Peter Fleming. In 1937 when Peter Fleming, aged 24 and employed as a literary editor of a famous London weekly, saw an advertisement in the London Times of an exploring expedition that would reach into central Brazil, he determined to join the party. There were plenty of hardships, plenty of anxiety and danger. Peter Fleming said, as they pushed their way into the “untraveled.” The insects were not so bad, the alligators were stupid and placable, the deadly man-eating fish swam by the explorers' legs all day as they waded, waist deep. Even a revolution in Brazil did not bother them. Their “sense of parody” saw them through.

After Peter Fleming's adventure in central Brazil he returned to London long enough to finish his book and then went to Manchuria. When he came back from Manchuria, to his surprise, the “Brazilian Adventure” was both the talk-of-the-town in London and the Book-of-the-Month in the United States.

A piano number, “La Golondrina,” by Serradell, was rendered by Mrs. C. S. Gausell. Mrs. A. R. Doughty sang “Twilight on the Teché,” by Grace Agate, with Mrs. Gausell playing the accompaniment.

Members present were Mesdames J. Norman Coon, F. E. Black, Henson Coon, A. R. Doughty, H. D. Douglas, C. A. Dunaway, K. S. Elliott, C. S. Gausell, Louis Langford, George Marsh, D. M. Moore, J. D. Petty, Don C. Shattuck, J. W. Treadwell, L. V. Tarver, J. Noble White, S. A. Caldwell, J. R. White, Warren W. Gregory, Mrs. John Whitfield, and a guest, Mrs. John Lewis.

# Society Gathers At Tea To Honor Mrs. Hillyer Parker

## Neel Home Scene Of Interesting Affair

Two Other Distinctive Events Of Week Held Complimentary To Bertha Marie Masur, Bride-To-Be

Friday was a busy day for members of Monroe's fashionable world with a tea in the W. I. Neel home claiming attention during the late afternoon hours.

In the flower-banked reception suite radiant with firelight glow, Mrs. Neel and the co-hostesses, Mrs. Peyton Parker and Mrs. John Parker, stood with their charming guest of honor, Mrs. Hillyer Parker, a recent bride, whom they introduced at this time.

The hostesses all wore attractive afternoon models with Mrs. Parker, the guest of honor, a lovely figure in royal purple velvet model with an exquisite corsage as a casual finishing touch.

Coffee was poured in the dining room from a handsome silver urn by Mrs. Thomas Frazer, wearing a smart black satin afternoon model. The table, overlaid with beautiful mosaic lace, had for central decoration a low mound of Dubonnet chrysanthemums encircled with silver candlesticks supporting white tapers.

A variety of delicious confections was passed on silver trays by Mrs. Fletcher Ashcraft, Mrs. Thomas Davenport, Miss Roberta Neel and Miss Virginia Faulk.

Seventy-five or more guests were introduced to Mrs. Parker at this time.

Two other distinctive events of the past week were the luncheons honoring Miss Bertha Marie Masur. Mrs. Fred Rosenbaum, Mrs. J. Gottlieb and Miss Jennie Smith were hostesses on Thursday. Their luncheon table in the Cameo room of the Virginia hotel a symphony of crystal and silver with golden-hued chrysanthemums and Madame lilies forming a floral pyramid for the central decoration was noted for its extreme artistry. Yellow tapers burning in the midst of the blossoms and small circular plaques of chrysanthemums at the four corners added to the artistry.

A luscious four-course luncheon was faultlessly served to Miss Masur, Mrs. Evelyn Reims, Mrs. Sigmund Masur.

### Natalie Hudnall Weds Mr. Barnes

Claiming the interest of friends is the announcement of the marriage of Miss Natalie Hudnall, daughter of Mrs. L. M. Hudnall, and Mr. Charles Milton Barnes, at the Hudnall home on South Grand street, December 3 at 8 o'clock in the evening.

The ceremony was performed by Rev. L. T. Hastings, pastor of the First Baptist church, in the presence of a few intimate friends and members of the family.

The bride wore a handsome tailleur of brown with gold accessories and a corsage of Talisman roses.

The attendants were Mrs. Ben Holloman and Mr. William Walker.

Immediately following the ceremony an informal reception was held and later Mr. and Mrs. Barnes left for Beaumont on their honeymoon. They will be at home later in this city at the Majestic apartments on Erin avenue.

Mrs. Barnes has been associated for the past nine years with the W. M. Black company and Mr. Barnes is associated with the V. Frank Lynn company.

Mrs. Barnes is a popular young musician whose beautiful voice has been heard over the local radio on numerous occasions.

The program consisted of a display of student art in observance of National Art week, an exhibition of agricultural and handiwork of residents of the Enterprise community, a better

### Mrs. Carroll Honor Guest

Mrs. E. L. Carroll of Columbia, a bride of recent date, who before her marriage was Miss Elizabeth Cosper of this city, was the guest of honor at a charmingly arranged tea at the home of Mrs. L. R. Adams of Columbia, with Miss Cornelia Burk, Mrs. Vinson Mouser and Mrs. Thomas Burk as co-hostesses.

The hostesses and their guest of honor and Mrs. D. O. Sherman and Mrs. Louis Cosper stood in the flower-banked reception suite to welcome the guests. Mrs. Adams wore a handsome floor length garnet colored Le-Long model. Mrs. Mouser wore a black crepe model with chenille dotted blouse. Miss Burk wore a gold-colored velvet model. Miss Cosper wore a lovely Madelon blue velvet frock and Mrs. Cosper wore Dubonnet velvet model. Mrs. Sherman wore black velvet with plump model.

The Christmas colors were accentuated in the crimson blossoms overflowing from tall floor standards and placed in the background of the reception suite and dining room.

Crimson roses formed the central plaque for the beautifully appointed lace covered coffee table bathed in candlelight glow from myriad crimson tapers in colonial silver candlesticks. Mrs. W. H. Mecom, wearing a black crepe model with rhinestone clips and wristlets, and Miss Ida Lee King, wearing a russet model with gold accessories, presided over the silver tea and coffee services. Luscious confections were served by Mrs. W. E. F. Godfrey, Mrs. H. C. Bridger, Mrs. Wayne Blanks, Mrs. P. O. Cummings, Mrs. A. D. Bridger, Mrs. A. J. Butler, all of whom wore lovely semi-evening models.

Make several check marks on your Christmas list right now for these delightful cakes in candied grapefruit shells.

Here is the recipe for the shell: Select large California seeded grapefruit of good shape and color. Wash carefully; break oil cells by

grating lightly on a fine grater. Cut slice from stem end, remove inside, being careful to leave all of thick part of the peel. Remove as much as possible with a small sharp paring knife, using a heavy spoon to scrape the membrane and pulp from the rind.

Cover shell with cold salted water; bring to boil and cook about ten minutes. Drain. Repeat process three or four times. Cool shell. Put in syrup made of equal parts sugar and water, one tablespoon to each cup of water. Float fruit in syrup and cook until medium thick syrup is formed. Let fruit stand in syrup at least twenty-four hours, turning several times. Then cook to a very thick syrup, remove from syrup and cool. Turn shell over glass to shape. Fill with dark fruit cake.

The recipe for the cake follows:

Cream one-half cup shortening and one-half cup sugar. Add four eggs one at a time, beating vigorously after each addition. Mix together and

one cup flour, one-half teaspoon nutmeg, one-fourth teaspoon cloves and one-fourth teaspoon salt. Add to first mixture. Add two cups seedless raisins, one-half cup chopped candied orange peel and two-thirds cup chopped walnuts. Fill crystallized grapefruit shell with cake mixture. Steam one hour.

Bake in slow oven (300 deg. F.) about thirty minutes. Roll shell in granulated or powdered sugar. This amount will fill three medium grapefruit shells. Wrap in cloth dampened with California sherry wine. Wrap again in dry cloth and waxed paper. Store in dark, cool place. Change wine cloth two or three times during aging period. Garnish as illustrated with candied peel.

Mr. and Mrs. J. J. Mauser had as their guests during the Thanksgiving holidays, their brother and sister, Mr.

and Mrs. H. H. Mauser of Dallas, and Mr. and Mrs. C. H. Duncan of Houston. Mrs. H. H. Mauser before her marriage was Miss Ora Durham of Dallas.

Mrs. Charles Peavy and son, Charles Peavy, III, of Custer, Tex., are the holiday guests of Mrs. Peavy's parents, Mr. and Mrs. F. K. Vaughan.

Mr. and Mrs. L. G. Buchanan of Jackson, Miss., are the week-end guests of their sister, Mrs. C. B. Braun, and Mr. Braun.

# Federated Women's Club Board To Meet At White House

## Mid-Winter Session Planned January 13

Mrs. Roberta Campbell Lawson, President Of National Group, Will Preside At Annual Gathering

A visit to the White House, Friday, January 13, at 4 o'clock will be one of the high points of interest at the annual mid-winter meeting of the board of directors of the General Federation of Women's Clubs which will be held in Washington January 13 to 17.

This gathering, which brings to the capital club leaders from every state in the union, will be presided over by the president, Mrs. Roberta Campbell Lawson.

Captain Wills S. Bryant, nationally known lecturer and author of the book, "And It Shall Come to Pass," will address the board on "The Blindness of Man." Mr. Burton Marsh, director of the safety and traffic committee, department of the automobile association, will be presented as a special speaker by Mrs. Edward H. Hennett, chairman of the federation's committee on safety. Mrs. Phyllis Ferguson Hoyt, president of the National League of American Pen Women, will present a musical novelty and Mrs. Harriet Wrae Krumbhaar, one of America's foremost composers, will speak on "Spiritual Values in Music." Mrs. Richmond Page of Philadelphia, recently returned from Puerto Rico, will discuss welfare work on the islands. Miss Alves Long, chairman of the international relations department, will tell of her visit to the international peace congress in Little Rock, Ark., Miss Gertrude Fazel and Mrs. Sylvia Masur.

The flower girls will be Charlene Kaplan and Joan Sugars. Bobby Emrich, son of Mr. and Mrs. M. B. Emrich, will serve as ring bearer. Mr. Gorn has selected Mr. Jack Masur for his best man. The groomsmen will be Mr. Jack Gorn, Mr. Sylvian Masur, Mr. Leslie Kiper, Mr. Paul Fine, Mr. Joe Miller, Mr. H. A. Hertz, Mr. Fritz and Mr. Ben Engel.

Prominent members of the prospective nuptials, honouring Miss Masur last week was the luncheon on Thursday, with Mrs. J. Gottlieb, Mrs. Fred Rosenbaum and Miss Jennie Smith, hostesses. A charming event of Friday, was the beautifully appointed luncheon arranged by Mrs. Alice Marx.

Draw them up . . . and watch them strut! They like their toys and trains and trick gadgets . . . but watch their little faces shine and catch the twinkle in their eye when you give them the simple clothes they love!

and Mrs. Percy Sandman. Miss Masur was again complimented on Saturday when Mrs. Allen Sugar and Miss Alyce Florsheim entertained at luncheon at the beautiful home of Mrs. Sugar.

Next week's calendar is brimming with gracious, elegant affairs, including several luncheons, a buffet supper, a tea, a dinner party and several cocktail soirees.

### Ducks Provide

#### Tasty Dinner

These frosty mornings find many a household permeated with the odor of gun oil and the confusion caused by husbands assembling their hunting equipment. The open season for ducks is known to all members of the family. Junior returns the duck call. Sister brings the hunting coat out of the attic where she had secretly hung it thinking it much too elegant to occupy the family coat closet. Mother prepares for the cooking of the game and even goes so far as to invite guests for a duck supper when friend husband returns home with the "spoils of war."

There is one woman in particular in this city who is an authority on the cooking of wild game. A conversation with her on the subject is likely to make one feel that ordinary food is prosaic and isn't worth living until one has eaten wild duck stuffed with oyster dressing. Like many other excellent cooks, she seasons to taste and to proportion, and develops her own methods. But these axioms concerning the cooking of game she did lay down:

That ducks are made more tender by thorough freezing before cooking. They are placed in the oven in their frozen condition, and the result is a juicy fowl that almost melts in your mouth.

That sliced salt pork should be placed inside the game when roasting, to add flavor, crisp green salads and mild vegetables are the proper combinations with game.

That salt should be rubbed into the bird with the hands, distributing the seasoning evenly. In this manner, the fowl is uniformly seasoned.

That the bird should be well seared for half an hour or slightly less at a 450-degree temperature. This conserves the natural juices of the fowl. The temperature can then be reduced, to between 250 and 350 degrees according to the age and size of the fowl.

That an onion, apple or prunes cooked inside of wild game, if dressing is not desired, will reduce the wild flavor some people find objectionable. (Do not serve the fruit.)

That a bird which has first been treated with butter—the butter worked into the fowl, inside and out, before cooking—browns more evenly, and has a richer flavor.

That the "thru the oven" or 12 to 20 minutes roasting of young wild ducks is for epicures only who like game rare.

Wild ducks are old, they should be parboiled before baking, placing a little bit of onion in the water. If they are young, plump ducks, she bakes them without parboiling. She makes a practice of roasting ducks with an apple or onion inside of each bird, baking the dressing separately in the seasoning from the duck. Birds cooked without dressing are easier to carve than those that are stuffed, she believes. If the ducks are frozen before roasting, she adds more water, since enough water cooks out of the birds for basting purposes.

## Christmas Wrappings For Lucky Ladies

For Christmas presents or things in which to invest the Christmas loot—a simple, but nicely cut, nightgown (left) of azure blue crepe, worn under a matching bed jacket with loose, elbow-length sleeves and a trim collar, the ends of which tie at the neckline in front. The blushing pink satin negligee (right) is luxurious indeed. Cut to mold the figure, it is applied all over with motifs of ecru Alencon lace and finished with a deep lace border to match. Notice the tailored collar and trim sleeves. Both gowns are lavishly trimmed with ecru lace.

A glamorous house coat (right) of heavy brocaded silk in luscious tones of yellow and beige is alluring indeed. Beautifully fitted, with tight bodice, exaggerated shoulders and fullness at the hemline, this buttons from neck to hem and can be worn as an evening wrap as well as for dinner at home.

# 'Ramona' In Technicolor On Paramount Screen Today

## Star Cast In Romance Of Old West

Loretta Young, Don Ameche, Kent Taylor Play In Beautiful Picture

In the presentation of "Ramona," which opened yesterday at the Paramount theater, 20th Century-Fox has added another great triumph to its already imposing roster of cinema successes. Flashing action on a far-flung scale combined with its production in the new perfected technicolor, makes "Ramona" one of the most important pictures of the year, an exciting picturization of Helen Hunt Jackson's immortal love story.

Loretta Young is featured as Ramona, with Don Ameche as Alessandro, and the splendid supporting cast includes such players as Kent Taylor, Pauline Frederick, Jane Darwell, Katherine De Mille and John Carradine. In addition, hundreds of persons were recruited from the Mesa Grande district representing settlers and local characters.

The technicolor is tremendously effective because it is absolutely, indisputably true to life. Since a large part of the picture called for out-of-door scenes, the main location for the filming of "Ramona" was a 55,000-acre ranch in the Mesa Grande area of the beautiful San Jacinto mountains in California, 140 miles southeast of Los Angeles, where the natural beauty of the region made a perfect setting.

The site is an almost endless succession of green expanses rolling toward the dusty paths of the far off mountains, with every shade and tint cleanly defined in the clear dry air of this happily selected district. The settings are on actual scenes of the spots where the real Ramona and Alessandro lived and loved many years ago in Old California.

"Ramona" is a picture that fairly teems with high romance—festas, fandangos, songs, roses, secret trysts, mission bells, stolen kisses, tears, love and laughter. It is one of the greatest love stories ever unfolded on the screen. All the rainbow beauty of adventure-crowded California of the early days has been recaptured and again as of old, Ramona goes to meet again as of old, Ramona goes to meet again in the purple dusk.

Loretta Young is superb in the title role, playing the part with deep feeling and understanding. Her highly artistic performance should further career tremendously. As Ramona, Miss Young will undoubtedly win a host of new admirers.

Don Ameche is the perfect Alessandro. He has turned in an excellent performance in a most exacting part, that of Ramona's great love. This young radio favorite is bound to win a coveted place for himself in the world of filmdom.

Kent Taylor is a splendid Felipe, the son of the patrician Moreno family, and Pauline Frederick is excellent in the role of his mother, the stern Senora Moreno. Jane Darwell as Aunt Rio Hyar, the kindly Tennessee homesteader, Katherine De Mille as the Indian servant girl, and John Carradine as Jim Farrar, have all done fine jobs on their various assignments.

The skillful direction of Henry King and the remarkable technicolor photography of William Skall make "Ramona" a masterpiece, a personal triumph for Darryl F. Zanuck, Twentieth Century-Fox production chief, and Executive Producer Sol M. Wurtzel.

# You can't know the real reason for the stranger's call

## OF IMPORTANT SUGGESTIONS FROM YOUR POLICE CHIEF

DON'T admit strangers to your home. They may be surveying your premises as the forerunner of a burglary.

DON'T sign any contracts which a stranger offers. This is the way some shrewd forgers have secured signatures.

DON'T hire servants until you have assured yourself through investigation that they are honest and bear good records.

DON'T cash checks for strangers. You have no way of knowing their worth or worthlessness.

DON'T open your door wide to strangers.

Place your foot behind it when it is partly opened. Daylight burglars have forced an entrance many times.

DON'T give strangers any information about yourself or about your neighbors.

It is better to be sure than sorry. If the door bell rings or you hear some one knocking, assure yourself of the person's identity! Don't rush quickly to the door and throw it wide open. You MAY be inviting trouble. The shrewdest and most alert women are sometimes forgetful and are caught off guard. The papers practically every day record a robbery or an attack made by some stranger. The man with the grip in his hand may or he may NOT be on a legitimate mission. How can you KNOW? Therefore, it behooves you to use extreme care and caution. If your curiosity is aroused, raise a window and question your visitor from that point of safety, but do not open your door and most important, do NOT encourage conversation or invite the visitor to enter. Observe these suggestions and save time, money and possibly avert disaster.

### From What Source Do You Buy Your Needs?

It is your right to know all about the purchases you make. Trading with itinerant peddlers cheats you of this privilege. In most cases his merchandise is not branded... is what is known as "fugitive" merchandise. Its source of origin is either unknown or questionable or both. This hazard is eliminated when you trade with the storekeeper of your city. He will TELL you, if you ask, from what supply source he buys... and you will find that these sources are standard.

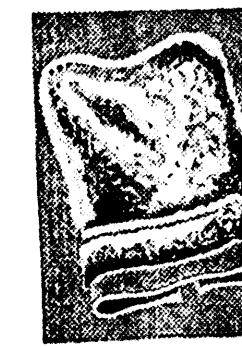

### Can You Exchange What You Buy At Will?

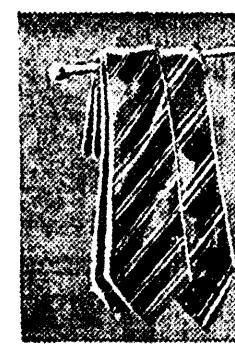

If you buy from a peddler will he exchange your purchases? How can he? As soon as the details of your trading are completed and you have the merchandise, the transaction is a closed incident. He is in other parts and can not be reached... and probably doesn't want to be. Now consider your local merchant... he is available ANY time. He does not evade you... he rather seeks to be helpful and to be sure that you are satisfied. Think of what this means to you and SUPPORT YOUR LOCAL MERCHANT.

### Is What You Buy Delivered In 24 Hours?

Let us take house furnishings in presenting this phase of the campaign. You buy a radio... a couch... a mattress... or a set of dishes. Maybe you order paint and roofing material. You are promised delivery within ten days. Think of that useless waiting. Think also of the fact that you have bought something out of a grab-bag. You have to assemble the couch... actually put it together... in many instances you have freight and hauling costs to pay also. Then, too, is that old hazard about the quality being what you bought. Can't you SEE the wisdom of supporting the local store?

### Do You Buy From Samples and Catalogs?

Why bother buying from samples and catalogs? It certainly is not a safe way to buy! Why not enter a store in your city... examine the merchandise carefully... see exactly what you are buying and KNOW what will be sent to you in exchange for your money. You simply can't buy safely any other way. Don't even try to.

### Do You Have Varied Stocks to "Pick" From?

If a store had ONE bolt of dress goods... ONE dress or suit... or ONE of any other article, few, if any, sales would be made. And that's where the local store gives service... with variety of style, quality and price range so that making a selection is a pleasure and not a task.
